

Advertiser Supplement, October 7, 1896.

Normal School Notes.

"Storms" every day this week at the Normal.

Students are allowed to hunt birds, provided they don't always hunt the same one.

One hundred and three students enrolled, and several more due before the end of the week.

1st Boy—"How'd that measly scrub girl get out to this school?"

2nd Boy—"I brought her out in a cart she's my cousin." And they settled it after school.

There is considerable excitement about there being room for all the new arrivals. One young lady said that she wouldn't mind sitting three in a seat if two of them could be boys. Of course, three girls couldn't sit together—sleeves are too big. We fear there would not be boys enough to go 'round.

Since the President has become strict about such matters, it will do no good for the boys to be casting sheep's eyes at the girls, as they will not be allowed to pay them any attention whatever, 'cept to take them to hunt birds, 'cept to hunt flowers, 'cept to go to church, 'cept to mail letters, 'cept to take a walk to pass away the time, 'cept to take six at once, and a few other things. Hon. Garl T. Jones' Endorsement.

Medford Monitor-Miner.]

The endorsement of so eminent a gentleman and respected citizen as Mr. Garl T. Jones speaks a volume of praise for Dr. Darrin. Mr. Jones has been a resident of Medford for something like three years and there is not a person who knows him who will question the genuineness of his endorsements. Truly Dr. Darrin has just grounds to congratulate himself when such as he come out with such favorable words of praise for his medical and surgical ability. Mr. Jones is so favorably impressed with the doctor's treatment that he has placed himself under his charge. Read Mr. Jones' endorsement which is printed below.

MEDFORD, ORE., Sept. 24, 1896.

Mr. Editor:—Having heard of Dr. Darrin's arrival in Medford, I wish to state what he did for my brother, Milton Jones, of Perrydale, Oregon, about eight years ago. For many years he had been afflicted with polypus of the nose, catarrh and bronchial trouble. He was cured by Dr. Darwin, in Portland, and the cure remains permanent to this day. I have such confidence in his cures by electricity and medicines, and have placed myself under his treatment.

CURED IN TEN MINUTES.

Judge Crockett's Opinion of Dr. Darrin.

Grants Pass Courier:

All readers of this paper are, by this time, familiar with the name of Dr. Darrin and they have no doubt read with interest accounts of many remarkable cures this celebrated physician has performed. We suspect that some have read the testimonials of grateful patients with some suspicion as to their authenticity, therefore we are gratified to be able to present a testimonial that must put at rest every possible doubt. There is probably not a better known man in Josephine county than Judge Crockett, who was county judge for years. He has spent almost a lifetime among the people of this section and his reputation is such that no one will question his

truthfulness. He has received relief at the hands of the great benefactor, Dr. Darrin, and desires to inform all the afflicted that they may have the same opportunity. Judge Crockett's testimonial is given below:

TO THE PUBLIC.

For ten years prior to going under Dr. Darrin's electrical treatment, Sept. 12, I had been gradually growing deaf, with a constant ringing in my ears. For the past five years I could not hear ordinary conversation. With one treatment of ten minutes I can hear nearly as well as ever in my life. I can conscientiously recommend Dr. Darrin's new cure for deafness and can be referred to at Merlin, Oregon, by letter or in person.

GARRET CROCKETT.

FOUR DOCTORS FAILED.

Medford Monitor-Miner:]

The coming to Medford of the eminent Dr. Darrin, of Portland, has been so thoroughly heralded through the press of Southern Oregon that there are none who are not aware of his presence among us or conversant with the many hearty endorsements that come to him from every section of Oregon, Washington and Idaho. Many of these are from well-known and prominent persons—persons whose word is unquestioned by their friends and neighbors, whose reputation for veracity is recognized far beyond the community in which they live and whose endorsement carries with it more than ordinary conviction, yet even the testimony of those of more than local reputation fails to carry with it quite the same degree of conviction that is borne by that of a local testimonial produced by a neighbor relating to facts almost personally known to the reader. Mr. A. Pool, of Eagle Point, a well-known resident of Jackson county for many years standing submits over his signature, what he personally knows of Dr. Darrin's professional ability in a complicated case in which four doctors had previously failed. He writes as follows:

Mr. Editor:—I hold it to be a duty as well as a pleasure to help to make known any means of relieving the suffering of humanity. Four years ago I was taken with heart trouble and pains through my chest and body. I had been under the care of four doctors, and they gave me up as incurable. I was so weak and run down that I could scarcely walk across the street. All my friends and neighbors thought my days on this earth were nearly spent. I visited Dr. Darrin in Portland, four years ago, and was cured by him in two months. I have never been ill since and feel well and able to work.

A. POOL.

Dr. Darrin can be consulted free at Hotel Oregon, Ashland, until Oct. 17 only.
