Sound Money Parade.

Never in its history did Ashland see a more exciting time than was witnessed in the torchlight procession of the local McKinley voters last Monday night. When marching in single file, the procession was about half a mile in length. It was headed by horsemen, followed by the Ashland band, next came the citizens on foot, bearing torches and transparencies, making a very pleasing spectacle to McKinley's adherents. The torches were not carelessly distributed among "small boys," but almost entirely to men, loyal Americans who were not afraid to publicly demonstrate that they were opposed to Tillmanism, Altgeldism, Bryanism and the principles (?) of secession.

The column made an extensive march through the principal streets of our city, and finally came to an end at the Chautauqua building, where an immence crowd was assembled to hear the last triumphant demonstration of the campaign. A varied program was rendered—solo, reading, short addresses, music by the local McKinley and Hobart glee club, Ashland band, etc. The enthusiasm of the audience was made apparent at every mention of McKinley's name and the cause he represents. The Chautauqua building was tastefully decorated with flags, bunting, Japanese lanterns, colored electric lights, etc., making a very attractive appearance.

COME AND GET MY PRICES.

Satisfied at Last.

It is a notable fact that the farmer is a hard man to please and satisfy; no sooner is he thoroughly complaining of too much rain than the necessity of irrigation stares him in the face and starts him investigating the latest practical and profitable methods. Experience now confirms the claim that a Hercules Gasoline Gas Engine solves the problem of economical, reliable power; and for once the farmer is suited, for a Palmer & Rey pumping plant so operated gives him a chance of clearing his overflown lands, and, later on, of flooding his parched fields, besides using his engine for cutting feed, sawing wood, and running churns, etc.

More Petty Thieving.

In the line of thefts that have been committed at several points southeast of Ashland, comes one of recent date, Saturday last. Cornelius Anderson, of Spencer creek, having come over to Ashland Friday, stored a small supply of provisions in a cabin near his ranch southeast of Ashland, for future use. He came to Ashland Saturday morning, and when he returned, he found that his things had been stolen. He, with several neighbors, traced the stolen articles up, and requested, by a written note, the thieves, who were absent, to return them. The request was complied with Sunday night.

Miss Edith Porter, Dunsmuir's leading milliner, will move her extensive stock of millinery and notions to Ashland next week and will continue the business here.
