Stage Laughter. The average actor, who can portray pretty much all phases of sentiment, is a bad failure when his part calls for a bad fature when his part cans for audible laughter. From this condi-tion it seems to be a fair conclusion that joility is more difficult to simulate than sorrow. How many well-known actors are there who laugh naturally on the stage. McKee Rankin, who has certainly mastered the technicalities of his profession, has a stage laugh that sounds like a distressed eackle, ac-

no sound.

Aside from the various uncanny noises produced by laughing actors, their facial expressions while undergoing the process of cachinuation are painful to witness. They look uneasy, self-conscious and strained, as though the effort hurt them. To be obliged to laugh on the stage is to every leading setor an order, of startling propersctor an ordeal of startling propor-tions. Comedians may find the path of laughter less thorny, because they are allowed to embellish it with eecen
