FRIDAY, OCTOBER 16, 1891.

Lost—One gold watch, filled case, open face. Was lost between Linn and Independence.

NEW LAKE DISCOVERIES—Reports are current that a new lake of the same size as Priest lake has been discovered ten miles north of the latter.

ORION AGAINST THE WORLD.—Noting an item in the Oregonian that a sunflower fifty-two inches in circumference grew at Gardfield, Wash., this year, a correspondent writing from Crawfordville, Linn county, says that I. F. Moses, of that place, grew one of these plants this year that measures sixty inches in circumference.

MORE LAW STUDENTS.—In the supreme court at Salem, the following law students were examined: C. T. Rapel, A. W. Johnston, Irving C. Hicks, and B. M. Smith, of Portland; J. P. Wagner, of Forest Grove; J. J. Charlton, of Albany; George M. Brown, of Roseburg; A. W. Severance, of Tillamook; J. C. Clark, of The Dalles; C. A. Moore, of Lake View; A. K. Wilson, of Dallas, and A. O. Condit, of Salem. The class received their certificates.

THE BASE BALL GAMES.—The base ball games last Saturday and Sunday were unusually interesting, being the best that have been played at Talmage park this season. The game Saturday with the Chemawa Indians resulted in favor of the Indian boys with a score of 12 to 13 tallies. The game Sunday between the Salem Giants and Independence was quite close, the score standing 7 to 8 in favor of Salem. Saturday we do not think our boys did their best, but Sunday they undoubtedly played a good game as the score was so near a tie with Salem's first team.

"OLD MAN ELOQUENT."—The Oregonian of Saturday says: "A reader of the current news notes says that Mr. Gladstone recently was called the 'old man eloquent,' but that the title does not belong to Mr. Gladstone, but to John Quincy Adams." Commenting on this remark, the editor says the title originated with Milton, where in one of his sonnets, he made it in allusion to Isocrates, a Greek orator of the time of Philip of Macedonia.

W. E. Dalton's team took a spin up the street last Tuesday with the running gears of his wagon. No damage to speak of was done. The puntiler received another innuendo last Saturday, one John Johnson from Clatsop county who will serve three years for larceny.

HISTORY OF A CANNON.—On the way to Chicago at this time is an old cannon with a history. When Mr. F. A. Ober, the Special Commissioner to the West Indies, was in San Domingo, his attention was called to a large cannon lying half buried in the sand on the banks of the Ozama river. It lay beneath the bluff on which stands the great castle, the Honde, the oldest castle now standing in America. The city council called the commissioner's attention to it, and declared that its history was second only in interest to that of the city itself.

Remember when in Salem to call in at Strong's restaurant, now Westcott & Irwin, and get a meal not to be excelled on the Pacific coast for 25 cents, at 227 Commercial street.

Well, well, the Independence base ball team got it right in the neck by the Salem B. B. team, and why? Because they did not buy that Royal Dutch Cocoa of J. D. Irvine's.

M. Ed. Casey, who recently died at Portland, was for some time the publisher of a paper at Dallas. He was a man highly respected in Polk county, and his demise will be sadly deplored by many of the old citizens. May his mortality succeed to a glorious immortality.

Passing through Monmouth this morning we could not notice the fine residences nearing completion. Ira Smith's new building is being finished as fast as good workmen can accomplish it. Monmouth is booming, and promises to be a "Joy and beauty forever." We noticed considerable lumber hauled on the ground for new sidewalks.

A preacher in Iowa lost his pulpit for telling the truth. He was a forcible preacher, but deficient in education, and occasionally committed some grave misdemeanors in grammar. One Sunday evening, while speaking rapidly, he made a gross assault on Lindley Murray. No sooner had the sentence escaped his lips than he stopped and said: "I am aware that my education is deficient. I regret that I do not have the advantage of good schools while a boy. If I had been more fortunate, I

would now be preaching to a more intelligent congregation." The minister told the truth, but it was the last time he preached in that church.—Boston Advertiser.

An octopus or Devil fish was captured at the government works yesterday by the employes. It was some six feet across and quite a curiosity to many here. It was sent to Corvallis for the benefit of the students at college.—Newport Times.

State Supt. McElroy favors the state franchising school books at cost, and he is right. There is no sense in allowing the county superintendents to juggle with book manufacturers. Oregon is today paying double what books are worth as a result of this unwise course.

Rev. D. V. Polling will preach in the Christian church at 11 a. m. on Sunday, Oct. 18, 1891. In the evening the "Johnstown Flood" will be the subject of a half hour talk, instead of a discourse. The speaker was an eye witness of this calamity. You are cordially invited to be present. A special program of music will be rendered also.

Dr. Lane has written a very sprightly and manly letter in reply to the attack upon the condition in which he left the asylum for the insane. Dr. Rowland's report bore strong evidence of unfairness and injustice. It need not be doubted that he also will wrestle with bedbugs in vain, and pass them on in his turn to his successor.—Oregonian.

Report of Bureau of Statistics on immigration shows that since 1820 nearly 16,000,000 immigrants have come to this country from European countries, of which over 4,500,000 were Germans, 3,500,000 Irish, and 2,500,000 English. Immigration for year ending June 3, 1891, was largest since 1883. Total arrivals 555,490, an increase of 104,335 over 1840.

Reports say that a young man of 20, a few Sundays since, induced a very young lady to take her first buggy ride, and when both were seated in the carriage, the young fellow concluded to let the top down, and, consequently, reached over to unlatch the rod. The young miss construed this as an attempt to entice her in, to sudden an embrace, and with a Conanche yell she went over the dash-board, and struck for home, never stopping to allow the bewildered gentleman to explain his intentions at all. Don't be discouraged, young man she'll wasso that it's not malignant.—Wasco News.

A BAND OF ELK.—At 5 o'clock Tuesday Ed. Donaldson, who resides on his claim five miles northwest of Glenora, Oregon, was surprised by a band of about seven-five elk, which had come stamped from some cause. They came dashing down through his camp, wrecking his cabin, and Mr. Donaldson had a close call for his life. As soon as he could recover from the fright and extricate himself from the debris, he seized his rifle and downed four of the best of them. The shooting evidently added the animals, for after running a quarter of a mile they turned and doubled on their trail, when seven more were slaughtered, among which was a monster white one. Mr. Donaldson came to town late last night, and this morning a pack train started out to bring in the meat.—Telegram.

CASES OF THE ANARCHISTS.—In the supreme court of the United States last Monday Moses Solomon, of Chicago, attorney for Fielden and Schwab, anarchists, who were committed to the pen for life at the time Espey, Ling, et al, were condemned to death for the murder at Haymarket in Chicago, filed papers in the two cases to secure the release of the two convicts, and moved that the cases be advanced. The principal point in the old technical one already argued in Illinois courts, that the men were sentenced by Illinois court when they were not present and the court had no power to sentence them. General Butler is associated with Solomon.

ALBANY'S BIG BRIDGE.—The work of bridging the Willamette at Albany has been actually commenced, the first piling having been driven Monday. The bridge will be all steel, and will consist of four spans of cantilever style, which is the best that can be built. They are all high spans so as to admit of the passage of boats at any point. Two are 305 feet long each and two 350 feet. They will rest upon steel piers, with steel cribs surrounding the piling and solid concrete filling at the base, surrounded by rip rap. The bridge, when completed will be substantial, there being no other cantilever bridge in the state.

DELEGATES APPOINTED.—Governor Penneyer has appointed the following delegates from Oregon to the Trans-Mississippi Commercial congress, which will be convened at Omaha, Oct. 19 to 24th. S. W. Blaisdell, M. D. Wisdom, Frank Clark, Portland; F. E. Bell, Grant; J. K. Romig, La Grande. This congress met last year, for the first time, at Denver. Its purpose is to discuss matters of interest to and take action upon matters that may aid to the prosperity of the western states.

Our friend, Harley Alexander, a Buena Vista merchant, was in town Tuesday. He reports all lovely in Buena.

Mrs. D. B. Taylor went to Albany Tuesday as a delegate from this place to the Baptist Association to be held in this city this week.

M. O. Potter went to Portland Monday as delegate to the Grand Lodge of the Knights of Pythias which convened in that city this week.

Judge Collins, of Dallas, was in Independence Wednesday looking for a house with a view of moving to our town and sending his children to school this winter.

Mr. Sabin, traveling agent for J. C. Ayer & Co. gave us a call and made an advertising contract with us last Friday. He is traveling through the country by team in one of the neatest outfits we have seen.

W. S. Coperson of Harbin Cooper, is a visitor among us. His home residence is on the J. C. Day's river, Sherman county. He has lived there twelve years, and the present outlook for Independence commands his admiration.

Thos. Bohanna, brother of John Bohanna, is in our vicinity. He takes pride in knowing he was an old resident of our lively city. He holds a prominent position with the Oregon Pacific company. He is well pleased with the prospects of Independence, and predicts a bright future for the city.

J. W. Buster returned from Portland this week whither he had gone to have a pterygium removed from his right eye which had been growing nearly fifteen years and had almost entirely covered the pupil and he had nearly lost the sight of it. The operation was very successful and it is getting along very well.

Will Goodridge, living near the Indian school, Salem, was accidentally shot while in pursuit of a wounded bear on Rock creek, Benton county. In going down a steep hill one of his companions, who was in the rear, fell and accidentally discharged his rifle, the ball striking Goodridge in the knee, completely shattering the knee cap.

A. J. Whitaker, son of B. F. Whitaker, and a native boy Oregonian, is in town on a visit to relatives and friends. He is now nicely situated at South Bend, Wash., and is engaged in the real estate business, which promises to prove lucrative in the future. He put his name on the West Side list of subscribers, and left the "filthy lucre" for the same.

THE WHITE HOUSE.—The President's house in Washington City is built of sandstone, and is painted white. This latter circumstance is pretty generally given as the origin of its name of White House. But there may be other reasons. Among the many possessions of the Widow Custis, who became famous in history as Martha Washington, the wife of our first president, there was an estate on York river, Virginia, known as the White House, from the fact that the mansion on it was white. It is not altogether unlikely that the executive mansion was named after this estate. The White House estate on York river became the property of General Robert E. Lee's wife who was a great-granddaughter of Martha Washington by her first husband, and was among the first of the great Virginia houses to fall into the hands of the Federals after the beginning of the war between the states. Of course President Washington never occupied the White House in Washington City. He was inaugurated in New York City in 1789, and Philadelphia was the National capital during the greater part of his two terms. Thomas Jefferson was the first president inaugurated March 4, 1801, in Washington City.

NOTABLE DEATH.—Right Hon. Wm. Henry Smith, first lord of the treasury, and government leader in the house of commons, who has been ill for some time, died Oct. 6.

Mr. Smith, who was one of the representative business men of England, is popularly reported to have left a fortune of \$10,000,000. Balfour will succeed Smith as conservative leader in the commons, if the influence of the powerful Cobden club and the opinion of the conservative party as a whole rule in the decision to be made by Lord Salisbury. On the other hand, if the negotiations now pending for the reconstruction of the cabinet based on the absorption of liberal unionists be effected, Goschen will claim the leadership.

THE NEW MILL.

D. M. Klemsen, formerly head miller of McDaniel & White, at Derry, in this county, has commenced the erection of his residence in Fairmead and as soon as the lumber and material arrives will commence building his large grist mill about half way between Independence and Monmouth. The mill will be run by steam and will have a capacity of seventy-five barrels per day. This is a very commendable enterprise and we are glad to see so much public improvement going on in and about Independence as we believe the country surrounding our town would well support a city at this point. Mr. J. M. Stack, proprietor of the Little Palace Hotel, has already purchased the first barrel of flour that is made by the new mill, paying ten dollars cash for the same in advance.

THE CRADLE.

QUIMBY.—To the wife of O. Quimby, of McMinnoth, Tuesday, Oct. 13, 1891, a boy. Weight nine pounds. All doing well.

BRUNK.—The wife of Thomas Brunk, living a few miles north of town, presented him with a nine-pound boy Wednesday Oct. 16, 1891. Mother and child doing nicely, but the father's case is hopeless.

THE TOMB.

HOWARD.—Saturday evening, Oct. 10, 1891, Ethel I., infant daughter of Mr. and Mrs. J. F. Howard, aged 2 months and 13 days, was buried Sunday, Oct. 11th, in the Dallas cemetery.

IN MEMORY OF LITTLE ETHEL.

The family is like a book, The children are the leaves, The parents are the cover, That protective beauty gives. At first the pages of the book Are blank and muddy fair, But time soon writes memories, And paints pictures there. Love is the little golden clasp That binds up the trust; Oh, break it not, lest all the leaves Shall scatter and be lost. —DELIA GRAVER.

Public School Notes.

Two hundred and fifty-five names are enrolled in the different departments. Supt. McElroy is expected to spend a day visiting the school in the near future.

The directors have authorized the purchase of an unabridged dictionary for Mrs. Nelms' department, and a set of chemical apparatus for the high school.

The Teachers Reading Circle did not have their accustomed meeting last week on account of extra school work. Judge Collins, of Dallas, attended the morning exercises on Wednesday and favored the school by a short but instructive talk.

Mrs. Tuck and Miss Denman were made happy last week, the former by the return of Mr. Tuck from a stay of two years in Wisconsin, and the latter by a visit by her mother who remained all Thursday visiting her many friends here.

Miss Savage is studying elocution under Miss Tuttle of the State Normal. The following is a list of the names of the pupils who attained the highest averages in last month's work, as shown by report books: Second Grade: Gerlie Pruden, Glen Goodman, and Walter Ford. First High School Grade: Miss Ida Estes, 95; Miss Bertie Whiteaker, 93.4; Walter Pruden, 88.

Buena Vista Jottings.

A. J. Richardson made a trip to Portland this week.

Wm. Wells handed your correspondent a radish this week that weighed four and one-half pounds.

Sam. Wilson made the rounds last week of our burg with his steam saw, and as a consequence, we all have our wood cut and in the dry.

Mr. Turner, the foreman of our pottery work here, will leave for Missouri in about a month, when the pottery will close for the winter.

Samuel Baldwin arrived here last week from Kansas to make his home in Oregon. He is a brother to Uncle Dave Baldwin, and we are glad to see such men come to our state, as we need good enterprising business men.

M. N. Prather arrived home Saturday from a two weeks' visit with his brother Mart, in Malheur county. He is much improved in health, and says he hunted most of the time while there, and killed a wolf, porcupine and a rattlesnake, and saw eight deer, but did not hurt any of them. Note says his brother lives at an elevation of 9000 feet, and while out hunting there last week it snowed enough to cover the ground. Stock were looking fine, but everything was very dry, and Note says that this valley beats everything else, and is good enough for anybody.

A LIVE WOMAN.—The Marshfield Sun says: Miss Mollie Lehman is engaged as principal of the Harney school on a salary of \$120 per month, and has an Oxford graduate for an assistant. She was elected superintendent of public schools of Harney county, but under the fool laws of Oregon she could not qualify and had to have a man stand up and become sponsor or a figure-head for her and is "deputy," only, in name, but says she doesn't care so long as she gets the pay. After her term of office expires she will visit the bay and then go east for a season.

VIOLATED.—The press is calling attention to a generally violated Oregon law which provides: "It shall be unlawful to sell, transfer, trade, give, or in any manner furnish to any minor, under the age of eighteen years, any tobacco, cigars, or cigarettes in any form, or any compound in which tobacco forms a component part."

IT WAS A MISTAKE.—Worldly danger is a condition beyond which not even a preacher of the gospel can place himself. This is a world of horse-power. A horse-power is 33,000 pounds, raised one foot a minute, but a powerful horse foot has been known to raise sooner. Sometimes a preacher of the wild West has to curb his horses as well as humans, and while doing this thing last week, J. R. N. Bell, editor of the Independence West Side, broke his left arm. We are glad to hear that he is rapidly recovering.—Kamath Star.

Murphy, acting governor of Arizona territory, in annual report to the secretary of the interior, expresses the opinion that the population of the territory will reach 70,000 before the end of the present fiscal year. A Rumor Current that Blaine Will Resign After the Fall Elections.

ARE STARVING.

Russian People Dying of Hunger—An Earthquake Shock. The World's News.

Earthquakes in California.

NAPA, Cal., Oct. 11.—The heaviest earthquake shock ever felt here was experienced at 10:24 o'clock to-night. Chimneys toppled over and several buildings were shattered and badly shaken up. Drug-store fixtures suffered greatly, bottles were thrown from their shelves to the floor, and other damage done. The Masonic Temple, a fine building, was shattered. RUSSIA ABOUT BLAINE.

It is now said He has Decided to Resign after the November Election.

SAN FRANCISCO, Oct. 13.—A special to-an afternoon paper from Washington says: It is a general rumor in Washington that Secretary Blaine has decided not to resume his duties as secretary of state, and that John W. Foster, now secretary of the treasury, will be appointed to that position immediately after the November elections. State department officials decline to discuss the matter.

Food so Scarce in Russia That Even the Birds of the Air Are Starving.

LONDON, Oct. 12.—Advices from various Russian points state the peasants are flocking into the towns from the country districts perishing for food. Many are dying in their tracks. The cold is intense and the wanderers have no food. Incendiarism and pillaging is spreading. Local authorities everywhere are paralyzed for want of funds. Destitute Jews expelled from the various provinces are swelling the ranks of the starving thousands. The organization of relief committees for the distribution of corn has been suspended.

Murphy, acting governor of Arizona territory, in annual report to the secretary of the interior, expresses the opinion that the population of the territory will reach 70,000 before the end of the present fiscal year.
