

monopolist of history. No party dare nominate a rich man for the presidency, and for any office he is better equipped to day than he has been in the bank account for which to beg the public's pardon. But the rich who hold their castles in trust for the people's happiness as our Lady Henry does, they are beloved by humanity, holds them tenderly to its great heart.

The Science and the art of a clear brain, steady-beating heart, a hand that does not tremble. For the white light of truth shines always through the stained-glass window of the brain; witty and wonderful as man's inventions are, they have been wrought at grievous disadvantage, and the temperance reform has a purpose no less rational than so to cleanse and polish the skylight of the brain, that God's white light, undimmed and unrefracted, may shine down upon an illuminated, developed and redeemed humanity.

OUR PREMIUMS.
FIRST PRIZE.
"Beatty's Best" Parlor Pipe Organ, Price \$500.00.
This pipe organ is the crowning triumph of years of experience in cabinet organ building. It is by far the sweetest-toned and most powerful organ yet made. The case is manufactured from the choicest of seasoned and kiln-dried black walnut, and built so as not to absorb dirt or dust. The case is built on a new and scientific plan, of this scale of reeds so as to exactly match the church pipe organ in the United States. The Scotch bag pipe, chime of Swiss bells, orchestra, brass band, Ole Bull violin, a musical box, the human voice, cathedral organ, all are exactly imitated. Thus a real pipe organ, and there is a sweetness and grandeur in its melody that is simply wonderful.
We will probably be able to show a picture of this organ soon. There is no instrument in the whole state of Oregon that compares with it, except the great church pipe organs in our large cities. We deliver it free of charge at any railway station in the United States to the person who sends us the largest club of yearly subscribers; provided that to get the first premium the club must not be less than 150 yearly subscribers.

SECOND PRIZE.
The Encyclopaedia Britannica, Price \$45.00.
This is the oldest and the largest encyclopaedia in the world, and contains more than three times as much matter as any other encyclopaedia published. It is replete with colored maps of every part of the known world, and wherever possible the text is illustrated by woodcuts. There are thirty large volumes. It is an exact reproduction of the latest British edition, which cost from \$200 to \$350, according to binding. It is sold cheaper in the country because of the fact that not a large type had to be set, it being printed from plates made direct from the original book by the aid of photography. The Henry G. Allen Co., New York, are the publishers. We deliver the work free of charge to any railway station in the United States to the person who sends us the largest club of yearly subscribers before we can award this premium.
THIRD PRIZE.
Chambers's Encyclopaedia, Price \$30.00.
Everybody knows the merits of Chambers's encyclopaedia. It ranks next to the Britannica, and in its pages may be found every conceivable subject fully discussed. Full-page illustrations and colored maps are introduced into the work wherever they will add the widest in search for knowledge. The work comprises ten large volumes, substantially bound in library sheep. It is published by the great house of the J. B. Lippincott Company, Philadelphia, which is probably the best guarantee of its worth. We deliver it free at any railway station in the United States to the person who will send us the third largest list of yearly subscribers to the West Side, between now and July 4th, but must have at least 50 subscribers before the work is awarded.
The following prices are all from The J. B. Lippincott Publishing Company, one of the largest publishing houses in the world. "Lippincott" is a household name that can be obtained:
