The Methodists.

The quadrennial general conference of the Methodist church has begun its session in Omaha. The Methodists are shirt-sleeve Christians. They are not afraid of work, and have done a good deal of it in their day. Born to be picneers, their clergy can travel further in a week-generally on horseback-put up with more discomforts, preach more sermons, and do it on a smaller salary. than any other denomination in Christendom. They have thereby grown from nothing to pretty nearly everything. If there is a hamlet or a settlement where a Methodist minister is not to be found we have n't yet heard of it. -N. Y. Herald.

Mrs. Porkly: "I often wonder how people manage to understand each other in France." Mrs. Gotham: "How absurd!" Mrs. Porkly: "I do n't think it absurd at all. Both my daughters speak French, and they can't understand each other."

Visitor: "I understand that the public schools of this city are models of the nineteenth-century progress." Little boy: "Yes 'm; that 's wot every one says. I go to 'em." "What do you study?" "O, everything-freeand drawin" an' cookin', an' bacteriology, an' music, an' spectrum analysis, an' sewin' on buttons, an' agricultural chemistry, an' dishwashin' an' everything."

John Wanamaker, the Philadelphia merchant, says that during the ten days previous to Christmas, his sales covered \$100,000 a day, so that the grand total for ten days was only a few dollars under a million. He adds: "I spend \$5,000 a week in advertising and rays was a former cities and a good pay a man (a former editor and a good one) \$600 a month to do it for me I make money by it. Advertising is the lever with which this store has been raised up. I do not see how any successful business can be done without liberal advertising."—Review.

In the Nick of Time.

The nick of time to stop the cours of bladder and kidney complaints is when the organs concerned exhibit a tendency to grow inactive. The healthful impulse toward activity that they receive from Hostetter's Stomach Bitters rescues them from impending danger, and averts such dangerous maladies as Bright's disease and diabetes. Sluggishness of the kidneys increases a liability to chronic rheumatism, gout, and dropsy, and since the blood is filtered by these organs in its passage through them, the operation of the bitters serves a doubly happy purpose. The medicine acts without exciting, like the fiery stimulants of commerce Malarial, dyspeptic, constipation and nervous invalids are thoroughly relieved by it. Since the advent of that shocking malady, la grippe, it has been widely demonstrating its useful-ness as a curative and preventive of it.

Beatty's Pinnes and Organs. Hon. Daniel F. Beatty, the great organ and plane manufacturer, is build- J . A. WHEELER, Mangr. ing and shipping more organs and pianos than ever. In 1870 Mr. Beatty left home a penniless plow-boy, and by his indomitable will he has worked his way up so as to sell so far, nearly 100,000 of Beatty's organs and pianos since 1870. Nothing seems to dishearten him; obstacles laid in his way that would have wrecked any ordinary man forever, he turns to an advertisement and comes out of it brighter than ever. His instruments, as is well known, are very popular and are to be found in all parts of the world. We are informed that during the next ten years he intends to sell 200,000 more of his make. That means a business of \$20,000,000 if we average them at \$100 each. It is al-ready the largest business of the kind in existence.—Send to Daniel F. Beatty, Washington, New Jersey, for catalogue.
