Four hundred school children paraded the streets to-day in honor of the great Columbus. The rooms of the fine publie-school building here were tastefully decorated, and commencing at 9 o'clock this morning, literary exercises were held, which were very interesting. Rev. R. D. Grant, of Portland, delivered a most patriotic address, in which he pointed out the lesson to the present ambitious boy in the perseverance of Columbus. The speaker was listened to with rapt attention.

Wheeler. The opera house was filled last night with an audience largely composed of ladies, to listen to the Democratic doctrines of the candidate for presidential elector, W M. Colvig. The Monmouth brass band and a bonfire served to draw a crowd. The speaker talked of the tariff, and said that England wanted the products of the farmer, and would pay the very best price, and that country manufactured the very things the farmer wanted, and could furnish them at the lowest prices; therefore, the farmer should work for tree exchange. He praised the achievements of the Republican party, but said it had reached in a few hours nearly \$500 was subits beight of greatness, and that the promises of the Democratic party presaged great prosperity for the country in the future.

ALUM AND AMMONIA

Dr. H. Endemann, for twelve years chemist of the New York Board of Health, in his paper read before the American Chemical Society at Washington, in October, 1891, states that an ammonia baking powder acts on the gluten of the flour, altering its chemical properties, and cites numerous high authorities to prove its injurious effect on the stomach and kidneys.

Liebig the great chemist says: "The use of alum in bread is very injurious, and it is very apt to disorder the stomach and occasion acidity and dyspepsia."

The following powders are known to contain either ammonia or alum or both: Royal, Chicago Yeast, Calumet, Bon Bon, Taylor's One Spoon, Unrivaled, Forest City, Snow Ball,
