Since the removal of the Masonic lodge to their new hall in the O'Donnell brick, the Odd Fellows have been getting along with a less amount of furniture, but now they have Mitchell a Roberson at work on thrones, altars, pillars, etc., and will soon have the furnishings more elegant than ever. They will no doubt invite their friends in to see them some evening when all is complete.

Some men are favored in this world, and can't help but get rich. H. Hirschberg, the banker, although making a comfortable living at the banking business, which keeps him almost away from home, made \$700 in one day last week outside of his business. He has one of those pug-nosed breed of dogs that you see about the cities with brass tack beaded harness on them. They are valued at from \$25 to \$100 each. Last week his dog gave birth to fourteen little pups, and you see at \$50 each it amounts to \$700.

In a recent letter to the manufacturers, Mr. A. W. Baldridge, Millersville, Ill., says: "Chamberlain's Cough Remedy gives the best satisfaction of any cough medicine I handle, and as a seller, leads all others preparations in this market. The editor of this paper is always glad to send the paper out each week to an appreciative list of readers, but unfortunately we are not a millionaire and so depend on getting pay for the paper at least once a year. We believe some have forgotten that fact.

Capt. Enos, of the Portland Dispatch took quite a number of subscriptions to that paper with the understanding that if Harrison were elected they were to get the paper one year free, but if Cleveland, then they were to pay double price. He was here pocketing the spoils of victory.

While A. B. Atkins was rustling this summer he met a lady at Waterloo, Mrs. M. A. Jackson, of Junction City, who was so sure Harrison would be elected that she bet her hat against that of Mr. Atkins on the result. Last Thursday he received the hat through the mail, the lady promptly paying the bet. As he cannot wear it and his wife will not, he is going to keep it and bet on the next presidential election.

Thomas Britt, a friend of G. W. Wheeler, of this city, who has been in the butchering business in the town of Everett, Washington, has been spending a few days here. He says more homes have gone up in Everett this summer, than there are in Independence and Monmouth all together, and yet there has been no boom. One year ago last August there was not a house at Everett, and now over 4,000 houses are built.

Falls City has improved considerably since our last visit to this place about one year ago. There have been twenty-five or thirty new buildings erected besides the fine school building, which is a model of architecture, and should be a source of pride to any locality. The way improvements are going on here, Independence will have to look to her laurels as they are eclipsed by this enterprising city.

Leaving Independence early Monday morning, after a four hours tedious ride we arrived at Falls City, where we are comfortably and pleasantly domiciled at present writing with our friend F. K. Hubbard. He, and Joe E. Hubbard, of Independence, are the sons of Rev. David Hubbard, now deceased. David Hubbard was one of the earliest Baptist preachers in Oregon, and worked for many years for the benefit of the people of the Luckiamute valley. He was a liberal and generous hearted man, and his sons are characterized by the same noble traits.

The people of Falls City are enterprising and are ready at all times to take hold of anything that will advance the interests of the place. The motive line, or the extension of a railroad to this place, is a project most seriously engaging their attention at this time. As we rode along, viewing the rich and fertile extent of country, lying between Independence and this point, we could but be well assured in our mind, that it was but a question of time when such an enterprise would be consummated. Let this question be brought home to every individual, separately and collectively, and thus hasten the time for its speedy completion.

Mr. Gilmore will prove that tariff for revenue will raise the price of labor but not the price of water, and J. A. Veness will assert that a republican reign in this city will bring him million feet of logs out of the Luckiamute and lumber will be cheaper than ever.

Messrs. Geo. W. Reed, and B. F. Burch Jr., the nominees for recorder, will discuss the merits of the force bill, and whether when they can pay in city warrants it will be any bigger than it should be.
