LANDS TO BE SQUANDERED  
It is said, "Let the Matter Go Forward Unchecked and the Time will Come when We will Appeal in Vain for Redress."  
The man who buys land, or gets land, holds on to it, is the man who has a monopoly, and he can let it work for him day and night. But an individual is unable to do much harm as a monopolist of that class, so syndicates and corporations are formed. Of the extent of these, even in the United States, but little is known. That millions of acres are in the hands of such corporations, is known, but we are going to give some figures here to show not a few million, but hundreds of millions of acres are so owned. Areas equal to whole states in fact.  
The time is coming, and that very fast, when our people will see that a grave mistake has been made. There is only one remedy, and the people as a mass, will not yet apply the remedy. The time will come, however, when they will do so. Read these figures of GRANTS TO RAILROADS.

In the above there is enough land to make homes for 1,199,400 families, each having 160 acres. In addition to the above 4,405,986 acres have been given away to aid canals.  
In addition to the above 12,903,593 acres have been illegally inclosed by cattle, and other syndicates, largely composed of foreign noblemen.  
It is a well-known fact that the bonds and stocks of these railroads are largely owned by foreigners. This amount of land is greater than the combined area of the six New England states, and New York, New Jersey, Delaware, Maryland, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa, and Missouri, and all the states east of the Mississippi and north of the Ohio river.  
The vast area is owned by syndicates and corporations, in the United States, and they are constantly adding to it.
