

THE WEEK'S BUDGET.

What Our Reporter Finds of Interest to Our Readers.

THE LOCAL AND GENERAL NEWS.

Summary of the Events of the Week Twenty-Five and Collected Bits—Items of Interest From Everywhere.

Mrs. Wm Walker is quite sick this week.

The skating rink in this city seems to draw well.

J. M. Vanduy and wife left last Saturday for Portland, where they will visit friends.

F. L. Edwards, who has been in the draying business here, will soon remove to Junction City.

W. G. McAllister of this city, is the happy father of a eleven pound daughter, born last Tuesday.

Geo. White, of Rickreall, was in town last week. He has not yet received the insurance on his mill property.

Miss Katy Wheeler, who has been in Portland for sometime taking music lessons has returned to her home here.

R. C. Dice and Pearl Cooper, who fished last Sunday up the Wallamette, report a catch of 42 squirrel mounds, and suckers, some of them twelve inches long.

Remember that next week decides who gets the plug that given by the West Side. Send your coupons to this office before Thursday noon, that they may be counted.

C. G. Griffin has sold part of his stock in the Independence Ice Co., to a gentleman lately from the East, who will at once take up his residence here and help in the management of the business.

P. C. Patterson who is running the political machine among the boys here, is laid up for repairs this week being down with the mumps, and his brother Nor, is also sick, so Dave Galwick does the honors at the store.

Last Sunday the Baptist church at Moonamouth held baptismal ceremonies on the river bank at Independence, and five persons, four ladies and one gentleman were immersed.

Rev. J. W. Osborn officiating.

We can recommend L. C. Gilmore the proprietor of the Water works here as a man of great skill as a mechanic. He has assisted us—did all the work while we looked on—in getting our steam engine together and she works like a charm.

James Harris of Suver, informs us of a very exciting race between the steamers Hoag and Manzanillo, from Salem to Independence. For some distance the boats ran so close together that the passengers could almost shake hands. Neither boat can claim the race.

The Independence Tile Factory seems to be doing more business than any other institution in town. A car load was sent this week to Wm. Fuqua, at Parker, and Wm. Mix is using what will amount to more than a carload. The products of the tile factory are giving excellent satisfaction.

Life Langhary was engaged in a very laudable work last week. He carried a subscription paper around to our business men, and enough money was secured to send Dr. Robinson, whom everyone knows, to the Keeley Institute to undergo treatment. Mr. Langhary is certain that a cure will be effected.

A Salem banker suggests that the money appropriated by the state of Oregon be devoted to ensuring in advertisements the Chicago papers, certain days during the fair, when Oregon fruit, wheat, etc samples would be given away. He thinks in that manner Oregon would be thoroughly advertised and a large increase of population be the result.

The Junior Band, of this city, gave a masquerade ball at the opera house on the evening of Washington's birthday which was a success both financially and socially. There were about one hundred maskers, excellent music, all in good spirits, and the evening passed away only too speedily. Quite a number of persons from Salem, Albany, and other towns were present.

The citizens whom the WEST SIDE reporter called upon this week were uniformly opposed to paying for having the electric lights run all night. One gentleman remarked that if every dwelling house in Independence were using electric lights at prices ranging from \$1.50 to \$2.50 a month, the demand for an increase of city services would receive a large following, for a crippling of our electric light plant, would cripple the service in the homes.

Messrs Prescott & Veness have always furnished our people with an abundance of lumber of all kinds and the article in last week paper did not intend to reflect on those gentlemen but to point out the fact, which should be apparent to all, that a railroad to timber would be a great benefit to this city and greatly benefit the gentlemen who are at present engaged in furnishing this city with lumber.

Messrs Prescott & Veness have a fine sawmill here and have been giving employment to a large number of men and nothing which we said was intended to reflect on them.

Last Friday evening the pupils of the Independence public schools gave a most enjoyable entertainment at the opera house. It consisted of recitations, essays, dialogues and callithens of different kinds. The attendance was large and the exercises passed off without a hitch during the entire evening. Prof Hitchcock and his assistants of the public school are to be congratulated on their success. The proceeds were something over \$50 and will go towards the World's fair exhibit of the school at Chicago.

There were so many good features of the entertainment that we cannot particularly without omitting someone and all deserve great praise.

OUR CITY IN GENERAL.

The Condition of Things as Summed up by the West Side.

That our usually quiet little city is about to be plunged into a discussing and extremely disagreeable condition of affairs is becoming more evident every day. The first step taken which elicits us was that of the Electric Light company, wherein they appeared before our city council with the proposition to run their plant from dark (or a specified time in the afternoon) until daylight, or a certain hour in the morning, for a sum double that amount now charged.

In the first place, the city of Independence does not need to be lighted by electricity or any other means later than 12 o'clock p. m., for the reason that there is no legitimate business house kept open later than that hour. Secondly, the finances of the city will not permit of such extravagance in its expenditures, and, thirdly, it is the voice of the people that the amount asked is an extortionate one.

The West Side has taken particular pains to ascertain the sentiment of the people of this city, and in almost every instance it is said the Electric Light company is not doing exactly the right thing in asking us to be so liberal in its behalf.

One business man in this city stated to us that he would rather the lights would be shut down at 10 o'clock than to have them burn until 12 o'clock. His reasons were that he could not afford to pay a heavier tax for such a luxury even were it needed; the city had not attained that metropolitan air and importance when our streets should be lighted the entire night. He was loud in voicing the statement that we were several years ahead of ourselves.

Another business man says the price asked by the Electric Light company, for running their lights the remaining part of the night, after 12 o'clock, is altogether too much, and that the additional cost accruing from such would not be in proportion to the amount asked.

We are a progressive and prosperous community, overwilling to burden ourselves with such taxation that will tend to promote our city's prosperity and push us onward to that stage of metropolitan dignity that would cause us to be looked up to, and respected in such a way as to be watched with interest, if not with envy, eyes, but yet, we should at all times bear in mind that we have not yet attained that over-hoped-for position, hence the exercise and indulgence of no small amount of discretion is more than absolutely necessary, lest we should take on that detestable air so much abhorred and shunned by life, bustling business people, and be relapsed into such a dormant position as to render it impossible to recover from.

Herein lies the secret of our success: Help each other. All work together for the upbuilding and promotion of our enterprises, but beware that we shall not so involve ourselves as to become the prey of either individual or corporation, lest we eternally be subject to their dictation and ruled by a depressing and destructive hand at all times ready and willing to close down upon us.

Again, the action of our city council is being censured by one element, inasmuch that ordinance No. 86, has been ordered enforced, and their actions sustained by another element, probably in the majority, and which, if not, should be approved by every law-abiding person in this municipality.

The enforcement of ordinance No. 86 closes every business house in this city, on the first day of the week, commonly called Sunday, except the drug stores. This, perhaps, has caused more gossip and censure than was at first expected, and the question of right and wrong arises so prominently that it is deemed a serious question, and may yet result in some exciting scenes, attended with more or less commotion.

Certain sections in ordinance No. 86 provides that in order to sell liquors within the corporate limits of the city of Independence, the laws of the State of Oregon must be strictly adhered to, and our ordinances are so drawn that in their enforcement they will be sustained by the supreme authority of the state.

The ordinance reads, in part, to this effect: "No spirituous, malted, or vinous liquor shall be sold, delivered, given away, or otherwise disposed of on the first day of the week, commonly called Sunday," and yet, such has been done in open violation of our laws. How much loyalty there is to be found in such acts, we leave to your own good judgment to determine. It does seem, however, that this ordinance could be enforced, and a restriction placed upon such unlawful indulgence, without the uprising of an element to overthrow the powers that are in one just and honest act, in promoting our better interests.

It is no hindrance to our progression, but a stimulant to destruction. It is not an act attended by malice or prejudice, but one invented for the betterment and upbuilding of our community in particular, and humanity in general. Think about this, and see if the actions of our city officials are not about correct. We need more loyalty; we need more righteousness, and not such an overwhelming amount of disloyalty and iniquity.

General G. T. Beauregard, one of the last of the generals of the Confederate military service, died Feb. 20. The first symptoms of the fatal illness were manifested two weeks before his death, when he was attacked by a complication of diseases which threatened heart failure. He manifested some improvement under the physician's care, particularly in the last three or four days, when he was able to leave his apartments and take short periods of exercise in the grounds of his residence. He dined with his family on the evening of his death, and remained in the library until 9:30. He went to sleep easily and seemed resting well. One of the nurses went to his bedside a few minutes after 10 o'clock and was horrified to find him in a death struggle. The members of the family were summoned at once, but before they reached the chamber the end had come. The direct cause was heart failure.

Thanks not given.

The appended address of thanks to President Fulton, of the senate, was found in Senator Casswell's desk, and it was very likely that gentleman would have read it before adjournment Saturday morning had it not been for Friday night's differences. The address reads: "The seventeenth biennial session of the legislative assembly of Oregon is now about to close. Our work, for good or ill, is nearly done. Though we have met and mingled together as senators with differences of opinion and with ideas that conflicted upon many points, our intercourse has been marked by no personal quarrels, no factional feuds and no strife, and will not leave bitter memories, remorse, not regrets. Happily, extreme partisan politics seldom had an occasion to disturb our serenity, or to interfere with our labors, and, therefore, while still holding tenaciously to our political convictions, we can part in the sincerest personal friendship, and with respect for the opinions of each other. This gratifying conclusion of our labors is in a great measure due to the fairness, the wisdom, the forbearance and the goodfellowship of our presiding officer. All these qualities he has constantly exhibited, and has thereby contributed largely to make our labors easy and harmonious, and our session successful. In his trying position he has ever been impartial, courteous, and kind, though firm, and is therefore entitled to the thanks of the members of the members of this senate. I therefore move that the thanks of the senate be extended to the Hon. C. W. Fulton, president of the senate, for his uniform courtesy, fairness, firmness, and industry, as its presiding officer during the present session."

Well, Parker, if you are on the World's fair map you are not good for anything else. Suver can beat you at anything you put up.

George Belt, of Independence, is visiting the family of Jas. Wheeler at present.

Lee McDaniel is visiting friends and relatives in your city.

Mrs. Clara Staats, of Moonamouth, is visiting her father, Jas. Wheeler, of this place.

School closes next Friday.

There is to be a basket sociable at Valley View, March 3rd.

Jas. S. Marks, living two and one-half miles east of this place, lost between fifteen and twenty lambs one night last week. Some think it is the work of a wildcat or coyote.

Quite a number of coons were killed around here during the last snow.

Mrs. D. O. Quick was called to Mountain Dale quick on account of the illness of her daughter, Mrs. Fowls.

Henry Fleckinger is improving his farm with a new board fence.

W. R. Miner left about two weeks ago for a month's sojourn in California, and says this is his last visit to this business. He intends moving to California this fall.

The Recent Legislature.

Now that the legislature is over and its work summed up, it is seen that in all 200 bills have been passed out of 111 originated in the house and 89 in senate. Fifty-three were amending city charters or incorporated towns, and 24 carried appropriations. The majority of the remainder were only minor amendments to the code.

Services at the Congregational church.

Sunday morning and evening, and Sunday school at 12 o'clock. P. S. C. E. at 6:30. The morning subject will be "God's Workmanship." There will be several special features in the evening. Ida Shinn will recite "Angels' Footsteps," and there will be a song by two of the Sunday school classes, trained by Mrs. Ida Irvine; an anthem by the choir, and a solo by Mr. Poling. The pastor will discuss "Our Country—Its Perils and Blessings." Everyone cordially invited.

Messrs. Rosendorf & Hirschberg, of this city, express themselves as well pleased with the reception they have received in this community, and they look forward to a very large spring trade. The orders have been sent in for a very large stock of goods which will arrive in a few weeks. Messrs. Rosendorf & Hirschberg have all the qualities necessary to make their business successful, and those wanting courteous treatment are invited to call and see them.

The First Law of Nature.

This self-preservation is acknowledged to be, and people who adopt against the encroachments of disease a genuine medical safeguard, accredited by experience and the sanction of physicians, afford a happy illustration of the wisdom of the saying, in the health they restore and continue to enjoy. Among maladies, against the growth of which efficient protection, diseases of the kidney, and bladder are fraught, with the utmost peril and exhibit great obstinacy when opposed by ordinary means. The bitters can and will subdue them. No testimony is stronger than this. Used at the outset, and persistently, the best results may be expected. This medicine also eradicates dyspepsia, constipation, dizziness, malaria, rheumatism, and nervousness.

Typical Fever.

Dr. Charles Page says in an article in the Arena that the prevailing treatment of the disease by drugs, and feeding the patient, is like the playing of a stream of petroleum on a burning building. The patient should fast until the crisis is past, and, next to fasting, Dr. Page recommends frequent cold-water baths. The water should be about 65 degrees, and the bath given when the temperature of the patient is from 101 to 103. Rubbing is also an essential part of the treatment during the bath, which should continue fifteen or twenty minutes. The system has been adopted with excellent results in the hospitals of Philadelphia and Baltimore.

Just stop and think, only \$50 per lot, \$1 down and \$1 per month; no interest, no taxes. My lots are all cleared and level, and not ten minutes' walk from the motor. You can get water within 20 feet. There are houses going up right a long, church, school and stores close by. Don't forget that you buy right from the owner, and he will send you maps and information giving names of Portland business men who have bought. Just think, \$5 for \$5. W. REID, 49 1/2 First street, between Pine and

Many of our subscribers desire to take the Rural Northwest, of Portland, in connection with the WEST SIDE. We have made arrangements, so that we can furnish it for twenty-five cents a year above the price of the WEST SIDE, and it is giving excellent satisfaction to our readers.

BOY WANTED.

A boy, not younger than 15 years of age, can find employment at the West Side office. Small wages will be paid at once, and an opportunity to learn something about the printing business.

Dry Wood for Sale.

One mile south of Independence on Mrs. Sloper's. Four dollars per cord delivered. Leave orders at Stockton's.

Dr. T. J. Lee's office is at the end of the hall, up stairs in the Independence National Bank building.

Garden seeds in the bulk at Walker Bros.

WHO WILL WEAR IT?

West Side Gives a Silk Plug Hat to the Most Popular Bachelor.

EVERY PAID SUBSCRIBER VOTES.

There is No Limit to the Number of Votes Cast, So Long as You are a Paid Subscriber.

Now, here we are again, after our discouraging contest on the most popular lady, with a popular bachelor contest.

During the coming four issues of the WEST SIDE, contests will be printed which are election tickets. Every copy printed in the whole edition can be voted, even by one person.

No limit to the number of votes you cast.

To be a voter you must be prepaid on your subscription to date.

Every week the votes will be announced through this paper. Issues of February 3, 10, 17, and 24, 1893 will contain coupons, and the issue of March 3 will contain the name of the winner. Save your coupons, and send them in at the last of the month.

CUT THIS OUT.

MOST POPULAR BACHELOR IN POLK COUNTY.

Cast This Vote For

No ballots will be received and counted that are not signed by persons who are prepaid subscribers.

Any person not a paid subscriber can have their coupon voted by some one who has paid in advance.
