BUSINESS LOCALS.

There is no place in Oregon where a better meal is served than at the restaurant of Westcott & Irwin, 271 Commercial street, Salem. Courteous attention, a fine meal, and the popular price of 25 cents, have made this house the headquarters of everyone who has occasion to dine in Salem.

The collars and cuffs starched and ironed by the Independence laundry are as white and glossy as ivory. A well washed shirt is half a man's dress.

The next gentleman you meet just look to see why he looks so neat and you will find that he gets his washing done at the Independence steam laundry.

Our Columbian Exhibit. Again we find cause to be justly proud of our public school, inasmuch that a most beautiful exhibit has been prepared and forwarded to Chicago by Prof. Hitchcock, his assistants and the pupils, portraying, in a most striking effort, the ability of the pupils, directed by their efficient instructors.

The work was not that of any special endeavor, simply the everyday routine and to say the least, does more than ordinary credit to all concerned. The display will serve as an excellent advertisement for the community, and most assuredly will merit the praise of all who see it and the space occupied in the great show building could not have been put to better use.

Electric Lights in McMinnville. F. E. Griffith of McMinnville who has been superintendent of the water works and electric light plant of that city, was here this week and in conversation with him we learned that for an all night service of electric lights and all day pumping direct into the city the consumption of wood is only about two cords a day, costing \$2.25 a cord, and the expenses for labor is only seven dollars a day. The city has a smaller incandescent plant than here in Independence and has two hundred and fifty lamps in use besides eighty-eight used by the city, and at rates considerably lower than in this city the income from the private lamps gives the city its lights free.

The water and electric light plant combined cost \$21,000. At Forest Grove are lights are used till twelve o'clock, and from four in the morning until day light, and the city pays twelve dollars a light. In McMinnville the Telephone Register office has nine lamps, and has no meter, and the regular charge is only three dollars a month. He says the city has too high a charge for lights in residences and he thinks the council will reduce the price where whole houses are lighted so that the aggregate cost will not exceed two or three dollars a month to a residence.

When lamps are used in stores, the rate is all right, but in hotels and residences the public demands a light in every room, but cannot, and should not, be compelled to pay more than a fraction of the charge for a light that burns constantly.

City Council. La-t Tuesday the city fathers met at the City Hall. Committee on streets reported numerous repairs needed on sidewalks and crosswalks. Committee on streets reported in favor of graveling on C from Main to Railroad street. Special committee on electric lights reported citizens in favor of lighting the city all night, but thought the price too high and would be injudicious to the expense. Mr. John Talbott addressed the city council and asked for a franchise for a railroad through third street of Independence, with the electric light plant at one end, and Salem at the other. Mayor appointed Messrs Irvine, Locke, and Bell as a committee to confer with Mr. Talbott. Several bills were ordered paid and council adjourned. Mayor Veness presided. Geo. W. Reed recorder.

CLEVELAND IN—HARRISON OUT.

Tomorrow, the 4th of March, 1893, will make one of the greatest changes in the history of American politics. Grover Cleveland, who is pledged to the reduction of the tariff to the lowest possible point at which the expenses of the government can be run, will take charge of the reins of the government, and we may look for the best times that we have ever seen in our history.

So it is in the history of the mercantile business of our county. Those who have been grinding the people down with high prices have had to give way for men of more liberal dealings.

Until today Stockton & Henkle are at the head of the list with the largest stock of Dry Goods, Notions, Gloves, Furnishing Goods, Shoes, Hosiery, Trunks, Valises, and Ladies' and Gents' Neckware, in the county, and they are perfectly confident of their position, as the large trade they have built up in the short time they have been in Independence, makes it go without saying, that their prices are right, and their goods as recommended.

SEEING IS BELIEVING. Call and see what we say is true.

STOCKTON & HENKLE OPERA BLOCK, Independence - - - Oregon.

Nature's Surest Ally. If nature did not struggle against disease, even in weakly constitutions, swift indeed would be the course of a malady to its fatal termination. While nature thus struggles let us, test worse befall us, aid her efforts with judicious medicinal help. Experience must be our guide in battles with disease, and that "lamp to our feet" indicates Hostetter's Stomach Bitters as a safe, tried and thoroughly ally of nature. If the blood be infected with bile, if the bowels and stomach are inactive, if the kidneys fail to expel impurities of which they are the natural outlet a course of the Bitters is the surest reliance of the sufferer, one, moreover, that is sanctioned by professional indorsement and use for nearly half a century. No American or foreign remedy has earned greater distinction as a remedy for and preventive of chronic liver complaint, malaria, constipation, kidney and rheumatic trouble and debility.

A Perfect Baking Powder.

The constantly growing demand for Dr. Price's Cream Baking Powder, the standard cream tartar powder for forty years, is due to two causes. FIRST—The extreme care exercised by the manufacturers to make it perfectly pure, uniform in quality, and of highest raising power. SECOND—The recent investigations exposing the fact that certain other brands of baking powder contain ammonia and still others that were found to contain alum. These unscrupulous manufacturers are being found out, and the consumers are giving them a wide berth.

Nothing is left to chance in the manufacture of Dr. Price's Cream Baking Powder. Chemists are employed to test every ingredient as to purity and strength. Hence, its marvelous purity and uniformity. Each can is like every other. It never disappoints. BEST IS ALWAYS the CHEAPEST. Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.
