A goodly number of delegates from every part of the county, assembled at the Sunday school convention held at the Christian church Friday and Saturday. The convention was ably presided over by Prof. W. I. Reynolds, Supt. T. O. Hutchinson acting as secretary. At the beginning, J. M. Powell delivered the address of welcome, which was responded to by Prof. W. I. Reynolds, in the absence of W. B. Duncan. Friday was a very interesting day. Saturday, with a small reinforcement, was in some respects the better day. There was no lack of interest in any part of the programme, and all returned to their homes in the afternoon well paid for having assembled in so enthusiastic a convention.

For Sale.

A house and lot for sale on monthly payments, will furnish the same, and sell at actual value. F. ANSTINE.

Ignorance is often its own undoing if not its own reward, yet there seems to be a large stock of it in possession of those country papers that advocate sincerely or sarcastically, the idea of organizing militia companies in their towns, in order to secure a portion of the appropriation made by the last legislature. Such papers ought to know, if they do not, that the \$40,000 was appropriated for equipment, and that the money will be expended by the military board in the purchase of uniforms and other equipments, not one dollar of it being handled by any company or regiment. The money raised by tax for the current expenses of the National Guard is handled in the same way, \$25 per month only being allowed to each company for armory rent. Any paper that thinks this \$25 worth struggling for, to the extent of organizing a company whose monthly expenses would not be less than \$50 the excess coming out of the pockets of its members, is welcome to undertake the task, if it can secure permission from the military board. That this permission would be difficult to obtain it is evident from the fact that the new regulations limit the force in the state to twenty-four infantry companies, two troupes of calvary, one battery of artillery, and two or more companies of naval militia. There are already more than twenty four infantry companies, and it is the intention of the board to reduce the number to twenty-four gradually by disbanding the weaker ones. The only opening for new organizations is one troupe of calvary and such naval militia as the board may approve. Greater knowledge on this subject, as on many others, would be productive of less sarcasm and more silence.—"Oregonian."

There are only about thirty members left of the once mighty tribe of Choctaws near New Orleans.

Birds of Passage

Between this and the other side of the broad Atlantic, in the shape of tourists, commercial travelers and mariners, agents "on the road," steamboat captains, ship's surgeons and "all sorts and conditions" of travelers, emigrants and new settlers appreciate and testify to the preventive and remedial properties of Hostetter's Stomach Bitters in seasickness, nausea, malarial and rheumatic trouble, and all disorders of the stomach, liver and bowels. Against the prejudicial influence of climate, crudely cooked or unaccustomed diet and impure water, it is a sovereign safeguard, and has been so regarded by the traveling public for over a third of a century. No form of malarial fever from the calentura of the Pacific and the broken bone fever of the Mississippi to its milder types, can resist the curative action of this benignant preserver and restorer of health, a veritable boon to persons in feeble health or liable to incur disease.

Out of Sight.

The traveling public are now fully alive to the fact that the Chicago, Union Pacific & Northwestern Line offers the very best accommodations to the public from and to Chicago, Omaha and intermediate points, not only during the World's fair, but all the year around.
