Residents of Dixie were not a little surprised by the appearance in Holmsmith the other day of Mrs. Ed. Holmsmith and four youngest children, the whole outfit having walked from Salem. The Holmsmiths will be remembered as the family that caused such excitement at Dixie several months ago, if having some one that the father was criminally intimate with his three oldest daughters. He shipped the children, and the whole family a month ago. They have been somewhere in the Junction vicinity, but claim they know nothing of the whereabouts of the old man. The mother and children have absolutely nothing to do or wear, and have again taken up their abode in the old house at the bottom of the Dempsey hill, in which a respectable pig would not deign to reside. They have neither furniture nor cooking utensils, and nothing to eat but what neighbors have given them. The truth of the matter really is that the people of Dixie have been too kind to them, having very nearly furnished their entire support during the last several years, and they rather now expect to live without work of any other degradation of the entire family, and their father has recently been made known by the same boy who told on his father, and causing his departure. He says it is a common thing for his two oldest brothers to cohabit with his sisters even in the room where the balance of the family were present, the mother being well aware of what was going on, but raising no objections. He says, too, that his 15-year-old sister, who had been the latest to minister to the desires of his brutish father, is soon to become a mother. The people of Dixie are heartily sick of the entire outfit, and do not intend to support them longer in their idleness and debauchery, and they will probably soon again have to make tracks or starve. The two oldest boys and a sister are yet at Junction.—Cor. Salem Statesman.

Isaac Vanduyne, formerly of this city, now of Portland, was in town Wednesday. He was pleased to see the evidences of prosperity in Independence.

Last Tuesday evening the fire boys had a drill, and found the fire apparatus and by rants in fine working order. A stream of water was turned on the front of the city hall and a score of swallows nests washed down off the front of the building.

Remember the races take place next week, and a great crowd will be here.

THE CROPS. [From Correspondents.] K. A. Vanderpool, of Wells station, says regarding the crops: "The fall-sown grain looks exceedingly well, but spring-sown, where put in late, is looking very badly and I do not think it will amount to much. Take the grain crop, as a whole, I think there will be about two-thirds of a crop. The apples are all falling off the trees; I think the old rains killed them. They shed their blooms and looked well until the apples got as large as buckshot, and then they began to drop. Will be about half a crop. Currants also half a crop. There are no hops bearing in this vicinity. The potato crop about Suver will be light this year on account of dry weather. Peach crop is a failure, but cherries, apples, and plums a fair crop. Clops are very little.

C. E. Staats writes from Airlie: "The prospects for grain in this locality are good. There will be an average wheat yield, but the oat crop may be short."

There will be but few hops in this immediate vicinity, as the rains are all new. Farmers generally have planted more potatoes this season than in former years. The fruit prospects are good, more especially apples and plums.

Near Monmouth, Cashier Ira C. Powell informs us that all early-sown grain gives promise of a good yield, and some of the late-sown grain looks well. Fruits, especially cherries and peaches, were injured by late cold rains, otherwise indications are for a fair crop.

A. J. Atchinson, of Albany, has shipped in machinery, and next week proposes to commence operating a steam laundry in the building lately occupied by the Gates steam laundry.

Mrs. Wm. Sandcock and Mrs. E. C. Penland were visiting friends in Salem Wednesday.

Subscribers of this paper will confer a favor by calling and settling their subscriptions.
