GIVE the proposed motor line to Salem every assistance possible, for by so going you will increas the value of your property, and it is also a asfe investment. Take hold of it you who are interested in the immediate develoment of this section of the country.

Is it just to compel the farmer to quarter an enemy, an intruder,a plunderer? In the early history of our coun try this was proven unjust and was repealed by the shedding of much blood. Why then should the government allow its stock, the Chinese phenunt, to run at large and punish him who touches it, and at the same time compelling him to feed it. The government should see that its stock remainwithin the bounds of government landand expect to suffer the consequence ance they are breechy and in sist in destroying other people's prop

I am of the opinion, along the line of intemperance, that we will never get rid of drunkeness so long as we defend the "red-noses" and curve the lialer. According to law the aler has a right to deal out intoxiata, but the toper really has no right to so violate the laws of nature as to w himself into a state of ineanity, and he should be punished. According to law a man can be taken up for insanity, and should be taken for drunkand committed to the state penitentiary and there kept until he reolves to be a man and not a teast The fear of imprisonment would soon ck it out of his system. A man can do most anything if he will, and ponishment is a first-class will in spirit. The sale of liquor is not as easily detected as drunkeness. Then get at the man who does the direct damages.

Oregon's new soldiers home is to be located at Roseburg.

People are emigrating from Can ada into the United States at the rate of 20 000 per month. In many stances they desert their farms not being able to sell them. It is said that a good deal of the country along the lower St. Lawrence will come a wilderness.

A Scio girl has a tongue so colal that she can wet a Columbia postage stamp at one lick. The man who marries her will be entitled to the sympathy of the world.

The contrast with sterling medicines which such palliatives afford, not only enhances SYRUP FOR COUGHS, COLDS AND CROUP. the dignity of the former, but serves to emphasize the folly of employ: ing half-way measures when thorough ones are available. A marged instance of this is the effect. on one hand, of Hostetter's Stomach Bitters in cases of chills and fevers and bilious remittent, and on the other of ordinary remedies in malodies of this type.
