LOCAL JOTTINGS.

County Clerk Mulkey of Dallas, was in town Tuesday.

The cold weather is liable to go hard with the wheat if it continues.

There must be about fifteen or twenty feet of snow in the Coast Range mountains, from appearance.

The annual meeting of school district No. 13, will be held on the 5th of March, at 7:30 p. m., at the school house.

Washington's birthday was appropriately observed by the reading circle, which met at the home of Mr. and Mrs. G. O. Graves last Thursday evening.

Politics are all our people discuss these days. Judging from their opinions, which are expressed quite freely, the republicans will make a clean sweep next June.

The protracted meetings at the Christian church closed last Sunday evening, on account of the inclemency of the weather. The meeting will probably be resumed in the near future.

The address of State Superintendent McElroy, which was delivered in the Normal chapel last Sunday, was one from which most anyone could derive much benefit. The subject of reading matter for the rising generation is one of much importance, and every opportunity should be improved for furnishing them with literature which will be useful. Supt. McElroy had a large and appreciative audience, and everyone expressed himself as well pleased with his lecture.

O. S. N. S. Marmerings.

Zip, boom, ah Who gwa ha; O. S. N. S., Rah, rah, rah.

The O. S. N. S. still holds its own. The number of students is nearly as large this term as it was last.

They come by twos; they go by pairs; with man they can be found, and are sometimes on the ground. Whoever can guess this riddle will be a lucky person.

Last term's examination helped some of the students to find out what they didn't know.

Everybody come out to the grand stereopticon entertainment to be given next Saturday evening, in the chapel, and bring all your relations. It will be nearly as entertaining as a trip to the Midwinter exposition, and to the World's fair. All the important scenes of both fairs will be exhibited on an 18x18-foot canvas.

Some of the boys are starting a new fashion in the way of collars.

It is alright to have pets, and to be a pet, just so long as everybody gets justice. But, when people are deprived of their just dues, by such, the pets had better be turned loose, and let run wild.

The boys are getting anxious to see the sunshine come, so they can get out and fumble a baseball. They have made up their minds that they can't play football, but think, perhaps, they might be able to gain honors in the baseball field, if they can only get a chance.

That is right, Jamie, if you don't at first succeed, try again; so the old song goes.

Programme.

- The following is the programme of the Polk county teachers association, to be held at Independence, Saturday, Feb. 24, 1894, at 10:30 a. m.: W. I. Reynolds, Educational Exhibition at Chicago. B. L. Murphy, Proper Extent of Winter Work. F. E. Emmett, School Discipline. Miss Carrie Fowler, Preparation for the First Reader. AFTERNOON SESSION, 1:30 P. M. P. J. Mulkey, Methods in History. P. J. Getz, Methods in Geography. Miss Ayres, Solo. Miss Emma Coleman, A Paper. W. Spillman, Another Way of Learning. W. A. Wann, Teaching of English. The above topics will be discussed by the association. C. A. Hitchcock, C. V. Murphy, and L. L. Swann, committee.

We hope to meet a goodly number of our live teachers at this association meeting, in fact, all who can possibly come. Live teachers must grow, and we grow by studying and consulting together. Those who do not grow must soon give place to those who do, so come and take part in the discus-

alone. Do not forget about the textbook question. Respectfully, T. O. HUTCHINSON, School Superintendent.

Muscle and Vigor—A Difference.

Many muscular men succumb to fatigue borne with ease by persons far their inferiors in physical strength. Muscle does not imply vigor. In fact, it is not difficult of proof that athletes do not live as long nor enjoy as good health as the average individual who is vigorous—that is to say, whose digestion and sleep are unimpaired, whose nerves are unimpaired, and who has no organic tendency to disease. These requisites of vigor are conferred upon those inherently weak, no less than upon those debilitated through wasting disease, by a thorough, persistent course of Hostetter's Stomach Bitters, the national tonic, indorsed and recommended by physicians of eminence. It will not endow you with the muscle of a Corbett, but it will infuse energy into your system, and renew the active and healthful performance of its functions. It averts and cures malarial, rheumatic and kidney complaints, and overcomes dyspepsia, constipation, liver trouble and nervousness.

Central America.

A writer from Leon, Nicaragua to the Spokane Review, after detailing at some length the miserable postal facilities in that country, has this to say on coffee culture there:

Good reports are constantly reaching me of the American colony established in the department of Matagalpa. This section is about 100 miles from Leon, and is destined to be a great coffee region. The Manning Bros., of which Charles Manning, the head of the firm, was at one time a resident of Tacoma, have a fine of 500 manzanas, nearly 1000 acres. This year they have planted 18,000 trees of coffee, besides planting 200 pineapples, 100 apple trees, vegetable seeds of various kinds, bananas and plantains. The Manning Bros. have also put in about 14,000 coffee trees for a Mr. Rice of Valparaiso, Ind., whose place adjoins theirs, and contains 1000 acres. Mr. Rice represents a company that intends making a very large coffee finca. Another American who is branching out extensively is W. J. Hawkins of St. Paul Minn. This gentleman has lately purchased for \$12,000, silver, a place near the city of Matagalpa, and from which he will shortly derive a yearly income almost equal to the original purchase price. Mr. Hawkins contracted for this plantation when exchange was 60 per cent, and paid for it when exchange was 85 per cent, thus making a saving of \$1014 on the purchase.

One of the best conducted coffee fincas in Nicaragua is that known as the LeClair place, in the vicinity of Matagalpa. This year LeClair has his 30,000 pounds of coffee from his 8000 old trees, and as coffee is selling in Managua now at \$30 to \$35 per quintal, 100 pounds, LeClair will have the neat little sum of \$9000, silver, to add to that which he already has in his stocking. The average yield of the tree on LeClair's place this year is three pounds and three-quarters.

(I. A. Manning is a member of the firm of Manning Bros. His postoffice address is Matagalpa, he having recently removed there with his family from Managua. Mr. Manning is son of Wm. Manning of Salem and his wife is the daughter of P. H. Hatch, a pioneer of Oregon.—Salem Statesman. [Mr. Manning is the brother-in-law of Hon. E. T. Hatch of McCoy.—Ed.]
