

MONMOUTH WEEKLY RECORD.

Friday, March 2, 1894.

LOCAL JOYNTINGS.

Several new students have entered school quite recently.

Elder J. N. Smith preached to a crowded house last Sunday evening.

Spring weather is opening, and we may soon expect bright sunny days.

Miss Anna Powell, who has been teaching near Ballston, was visiting in town this week.

The exercises at the Normal chapel last Friday Morning showed excellent preparation.

T. S. Hansaker, the young minister attending school here, filled the pulpit at Bethel Sunday.

Mrs. Rexford and sons have moved to their ranch on the Big Elk and will remain there till next fall.

The Y. M. C. A. hold very interesting meetings every Sunday afternoon in the Christian church at 2 p. m.

Several of the teachers from this place attended the teachers association at Independence last Saturday.

Bruce Davidson was called to his home last week on account of the death of his grandfather. He returned Monday.

The stereopticon exhibition at the Normal chapel last Friday evening was one of the best it has been our pleasure to attend.

Mr. Rhodes, State Supt. of the Y. P. S. C. E., made a very interesting and instructive address to the society here Thursday evening.

There will be services at the Evangelical church next Sunday morning and evening by Rev. A. S. Copley. There have been several additions to the church recently.

Cass Gibson's new residence near Rickreall is completed and he moved in last Saturday. It cost about \$1500 and is an elegant structure, and no doubt Mr. Gibson is very proud of it.

The students who attended the state collegiate oratorical contest at Eugene returned Saturday, after a pleasant visit. Willamette University was so fortunate as to secure the honors through their representative.

Col. O. C. Applegate of Southern Oregon, gave the students an instructive address Tuesday morning. Colonel Applegate is very prominently spoken of as a candidate for secretary of state on the republican ticket.

F. Anstine has sold his confectionery store to W. H. Wheeler formerly of Independence. Mr. Wheeler moved here and took charge this week. We understand Mr. Anstine will go to McMinnville and engage in business.

Elder J. N. Smith has been engaged for the ensuing year at the Christian church. He has done good work here. He will talk on the following subjects next Sunday: In the morning, "The World Wide Commission," evening, "Unbelief, Causes and Cure."

Enthusiastic Meeting.

The Republican club again held a meeting last Wednesday evening at which a large delegation was present the membership already having grown to about eighty. The meeting was called to order by Chairman Hawley after which the minutes of previous meeting were read and the roll called. Motion carried that night of meeting be changed to Saturday instead of Wednesday. A committee on program was appointed as follows: I. C. Powell, P. A. Getz, U. L. Frazier. A communication from the Independence Republican Club was read extending the club here an invitation to meet with them. Several visitors from Independence were present and being called on for a speech W. P. Connaway responded with some good doctrine on the tariff and made some good points on the restriction of foreign immigration; E. C. Pentland of the WEST SIDE presented some excellent reasons for this country continuing on a protective basis also made a short talk on the money question; J. A. Mills of Independence also made a few humorous remarks. Mr. Moreweis made a clear-cut republican speech, the principal thought of which was the labor problem, he speaking by actual experience of the degradation

of European labor as compared to what it is in this country. He, no doubt, voiced the sentiment of a large majority of the United States voters when he said that "I never wished to vote so much as I do just now." Short talks were made by Prof. Getz, Dr. Poole. Chairman Hawley made a brisk talk on the political issues. It is unfortunate that some of our democratic friends do not attend these meetings as the argument produced was very convincing that the view of the tariff from a democratic standpoint is wrong in almost every particular. The speakers were extremely long winded at this session but finally the motion to adjourn was made and carried. The next meeting will be held one week from next Saturday night.

VERY PLEASANT ENTERTAINMENT.

The Reading Circle Celebrates Washington's Birthday.

Last Thursday evening the reading circle met at the beautiful residence of Mr. and Mrs. G. O. Graves, and it being the day of Geo. Washington's birth, the exercises consisted of events connected with his life. The members wore costumes made to represent those worn during the Colonial period—the gentlemen with their knee breeches, powdered hair, and ruffled shirt-bosoms reminded one very much of by-gone days; also the ladies, with their unique caps and large white capes. The life of Washington, A Day at Mt. Vernon, Literary Men of Washington's Time, quotations from Washington's writings, and patriotic recitations and readings were among the interesting features of the programme, also, some excellent solos and quartettes were rendered. The literary exercises being completed, the cherry tree of Geo. Washington fame was painted on a canvas, and the guests were supplied with "little hatchets," and the one fortunate enough to pin his hatchet nearest to a notch in the tree was awarded the first prize, and the one the farthest away was given the "booby" prize; Miss Clara Hall received the first prize, and Mrs. W. J. Spillman the booby. The guests then partook of a delicious luncheon, to which everyone did ample justice, during which all participated in pleasant social conversation.

The conundrums furnished another fund of amusement, which everyone enjoyed quite heartily. Including the reading circle, there were about fifty guests present, all of whom spent a very pleasant evening, and join us in heartily thanking Mr. and Mrs. Graves for their royal entertainment.

PERSONAL.

President Cleveland is going duck hunting on the sounds of North Carolina.

Mayor Steinman of Sacramento has nominated M. M. Drew to be chief of police.

Princess Colonna has gone to South Dakota, where she will apply for a divorce from her husband.

Congressman Wilson, chairman of the house ways and means committee, is seriously ill in Mexico with typhoid fever.

Mrs. Cheska, formerly Cora Belle Felton, has been deserted by her Santee Indian husband, who has taken up with a young squaw on the reservation. Mrs. Cheska proposes to obtain a divorce.

Commodore William Kenyon Mayo has advertised at Washington that his wife has left his bed and board, and warns people not to trust her. The commodore is over 70 years of age, and his wife, formerly Miss Stevens, of a prominent Connecticut family, is 35.

A duel is said to have been arranged to take place near Paris between Audinet Gilbert of New York and Senor Don Manuel Vol Pila de Sansa Maria, who went to New York from Paris to testify in favor of Mrs. Annie T. Gilbert, who brought suit against her husband for legal separation.

Ada Rehan was complimented on her performance of Twelfth Night, at London, by the Prince of Wales, who said the company had given one of the most artistic and charming performances he had ever witnessed. The royal party sent their congratulations to Miss Rehan.

Past Assistant Surgeon Richard Ashbridge has been dismissed from the navy. He was recorder of a court-martial at Mare Island, Cal., but refused to draw up a report of the proceedings as directed by the president of the court, and was also charged with falsehood in the same connection.

DEATH HAS CLAIMED.

NORMAN MUNRO, well-known publisher and yachtsman, at New York.

STEELE MACKAY, actor and playwright, at Timpani, Colo., while on his way to California.

Ex-Congressman STRAIT, who represented Minnesota in congress for 12 years, at El Paso, Tex.

General JAMES M. ALLEN, adjutant-general of California under Governor Haught, at San Francisco.

People are fools to suffer when a remedy can be found to cure them. Oregon Kidney Tea is no experiment, and not a fake to get your money. Why will you hesitate, when we assure you that it is absolute cure for all kidney and urinary diseases.

The strongest recommendation that any article can have is the endorsement of the mothers of the town. When the mothers recommend it you may know that that article has more than ordinary merit. Here is what the Centerville, South Dakota, Citizen says editorially of an article sold in their town: "From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for our children. We are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost, and are recommending it every day." 50 cent bottles for sale by all dealers.
