It looks as if the democrats have nominated a lot of figure-heads for their state ticket, knowing they will not be in it at all at the June election, and therefore put up some fellows who would not be hurt themselves or the party either when they did take the trip up Salt river.

The joint session of the societies last Saturday evening was a very enjoyable affair; the programme was quite well rendered, and the numbers of special interest was the oration of Mr. Vining which contained many brilliant thoughts and was very ably delivered, and the paper by Mr. Curtis was quite humorous and the several sallies of wit were very appropriate. After the literary exercises the young people spent a short time very pleasantly in social chatting.

The public school board met this week and selected the following teachers to teach during the school year of '94 and '95: Principal, F. Long; 1st assistant, L. L. Swan; 2nd assistant, A. J. Shipley; primary, Miss Mary Coats. Professor B. L. Murphy, who has so faithfully and competently been principal of the school for the past four or five years, has gone into the nursery business and will pursue that avocation in the future.

There came very near being a fire at Prof. B. L. Murphy's last Tuesday evening; his wife threw some rubbish in the fire which caused the chimney to burn out and some of the burning soot fell on the roof; Mrs. Murphy happened to go out in the yard pretty soon when she saw the roof was on fire, no one being present but herself she climbed upon the roof and put the fire out with a bucket of water; a hole about two feet in diameter was burnt in the roof.

A very good audience greeted President Condit of the Albany college, at the Normal chapel last Sunday afternoon. The exercises commenced with devotional reading and prayer by Rev. Dr. Townsend of Independence; followed with a quartette, "Consider the Lilies," by Mrs. Spillman, Miss Daisy West and Professors Powell and Spillman. President Campbell with a few remarks on the inter-collegiate athletic sports and lectures of the representatives of the different institutions of learning, presented President Condit who addressed the audience on the topic, "Education Makes Leaders." The lecture was very profitable to everyone, as it showed very conclusively the superiority of a well-educated person, also the very great advantages for acquiring an education during these modern days. President Condit is a genial and pleasant appearing gentleman, and our people are pleased to have met him. The programme was concluded with the hymn, "Nearer My God to Thee," which was very beautifully rendered by the gentlemen's glee club. Several of the Independence people took advantage of the opportunity to hear President Condit.

Those Pimples

Are tell-tale symptoms that your blood is not right—full of impurities, causing a sluggish and unsightly complexion. A few bottles of S. S. S. will remove all foreign and impure matter, cleanse the blood thoroughly, and give a clear and rosy complexion. It is most effective, and entirely harmless.

Chas. Henton, 78 Laurel Street, Philadelphia, says: "I have had for years a humor in my blood which made me dread to show, as small boils or pimples would be cut, thus causing shaving to be a great annoyance. After taking three bottles of S. S. S. my face is all clear and smooth, as if it should be—appetite splendid, sleep well and feet like running a foot race for the use of S. S. S. Treatment on blood and skin diseases mailed free. SWIFT SPECIFIC CO., Atlanta, Ga."

Dr. Boyd, at one time surgeon on the City of Rome, says in The Lancet that administrations of cholobrom and attention to diet will insure the passenger immunity from seasickness. The federal constitution provides that the compensation of justices of the supreme court shall not be diminished during their term of office. In view of this the question has arisen as to the power of congress to make the income tax applicable to these officers. When the war income tax was levied in 1868 Chief Justice Taney wrote a letter to Secretary of the Treasury Chase, declaring, in his opinion, the law was unconstitutional, as it impaired the independence of the co-ordinate branches of the government, and it was at the same time a question which could not be judicially determined, because every member of the supreme court would be an interested party and barred from considering it. After the war Secretary of the Treasury Richardson r-fundred to the justices the money withheld under the law.
