BEST SUGAR.

Senator Chas. F. Manderson, of Nebraska, in a speech in the United States senate, June 1, 1894, says, regarding the cultivation of sugar beets:

Many acres produce 20 tons to the acre, but on the basis of 15 tons to the acre, at \$5 per ton there is a gross receipt of \$75, and deducting the cost of the crop, \$24, it leaves a net profit of \$51 to the acre.

What else does it mean to the farmer? You cannot cultivate beets with profit in sparsely settled communities.

Under the republican administration thousands came to the United States because it was a good country.

THE MOUNT HOOD PARTY. They Climbed to Dizzy Heights and Viewed the Landscape O'er.

Last Tuesday evening, about 6 o'clock in the afternoon, the Mt. Hood party from Independence arrived home.

The readers of the WEST SIDE remember the talk there was here a few years ago about establishing beet-sugar factories and the successful experiments in growing the beet.

The report prepared by Representative Powers, of Vermont, in favor of his bill to repeal the law docking salaries of congressmen for absence without leave, except on account of sickness, is inclined to be humorous in parts.

Ex-United States Attorney Patrick H. Winston, of Spokane, Washington, who last May withdrew from the republican party and joined the people's party, in an open letter to the Spokesman-Review has declined an invitation to represent the people's party in the joint debate in Whitman county.

He says that the republican party alone has the confidence of the country, and if that party, in its convention, incorporates those principles in its platform, he will vote its ticket.

Senator Morgan, chairman of the committee on foreign relations, and as such, in charge of the Chinese treaty, obtained an indefinite leave of absence and is not expected to resume his duties during the present session.

Out of all the numerous bills, resolutions, etc., introduced in congress on account of the strike, the only one that looks like it is going through is the resolution reported from the house committee on interstate commerce providing for a thorough investigation by that committee not only of the Pullman strike but of all of those which have followed it that affect in any way interstate commerce.

Senator Gorman and Senator Hill are at sword's points in the United States senate, over the letter recently written by President Cleveland.

Under the republican administration thousands came to the United States because it was a good country.

A CAMP INCIDENT.

Burning Tree Might Have Ended the Journey of Several Mazamas.

The Sunday Oregonian, of July 23d says: Mr. J. O. Foster the well known mountaineer, was among the early arrivals on the summit last Tuesday.

On returning home Friday, passing the place, they found where the tree had fallen. It laid a mass of blackened ruins right across the spot where the party had arranged their beds.

For a cut, bruise, burn or scald, there is nothing equal to Chamberlain's Pain Balm.
