Among those absent and paired against the treaty were Teller, Wolcott, Power, Squire

Jones of Nevada. WHAT TO DO NEXT.

Washington, Aug. 14.-The democratic leaders of the senate have occupied a considerable portion of the day in trying to determine what course pursue with reference to the supple-mental tariff bills. The democratic steering committee was in session two hours after the senate adjourned, try-

ing to determine upon the most advisable policy under the circumstances and previous to the meeting the conservative senators had a conference on the same subject. It is understood the conservatives advocate a reference of the bills to the finance reference of the bills to the finance committee, while the steering committee is apparently somewhat divided on the question. Appearances indicate, however, that a large majority of the democratic senators would like to have the bills passed if they could feel assured their passage would not reduce the government revenues to too great an extent. The interest on these bills, as in the main tariff bill, is in the sugar question and it is to the free sugar bill that they are giving their attention. There is an evident tendency on the part of a majority of the democratic senators toward amending the sugar bill so as to make it a revenue bill pure and simple, and it is now the programme of the democratic leaders to amend the bill if there should prove to be a prospect Plunger Partridge's
