THE REPUBLICAN PARTY.

Nothing is so disgusting to a member of any political party as to find it incompetent to carry out its pledges.

The conduct of this administration has not been such as to demand the respect of the Japanese, but the victorious Japs must not get their heads turned by victory so far as to be unable to distinguish the Cleveland administration from the American flag.

The German government says it shut out our meat on sanitary grounds. The clause, or rather its democratic majority, virtually gives the lie to Germany by passing the bill for the repeal of the differential duty on sugar.

The declaration of Senator Hill that the course of the anti-administration democrats is, from a party standpoint, "suicidal, denationalizing, unpatriotic," will have no influence with those democrats who have been shut out alike from the "pup" trough and Mr. Cleveland's dinner table.

The continued deadlock in the Oregon legislature is delaying business, and may result in no election of a United States senator. The republican party of Oregon cannot afford to lose the influence of a senator at Washington.

Senator Mills' recent remarks about the republic of Hawaii being maintained by sugar men may get Claus Spreckles in a peck of trouble with the royalists of Hawaii, who have regarded him as their banker, if not their actual leader.

If Mexico and Guatemala go to war both countries should be allowed to open recruiting offices at Washington. No excuse for not enlisting should be given to those democratic Congressmen who are professedly so anxious to fight.

The sentiment among the masses, if we are to judge by the openly expressed convictions of many, is growing towards silver monometalism. In other words the populist doctrine of the stamp of the government making the value of any currency, irrespective of its intrinsic value seems to have so many believers that the only thing that can convince these theorists of the falsity of their theory is to try it.

It is hoped that Mr. Cleveland may be more successful as a mediator between Mexico and Guatemala than he was in the China-Japan affair.

ing on currency schemes. Senator Hill is in danger of overlooking his new role of administration champion.

Jerry Simpson now threatens to become a single tax lecturer. What have the single taxes done to Jerry?

A man need not be superstitious to believe in the "bad luck" of the Cleveland administration.

D. L. Keyt, who was elected by the republicans of Polk county to the Oregon legislature, owes it to his constituency to elect a United States senator.

The Congressman who claims to have voted for the bill containing a clause for the restoration of the franking privilege to Congressmen without knowing that it contained such a clause pronounces his own unfitness to be in Congress.
