**PATRONIZE HOME MERCHANTS**

Last week's Corvallis Times has the following editorial:

One Corvallis business house moved to other and freer pastures last Monday, and two of three others are preparing to follow suit. These departures lessen the number of persons who pay rent, spend money for a living, and help to bear the common tax burden. It diminishes the town's wealth and the number of people in it. Lack of business, caused by Corvallis people sending orders for their clothing, shoes, groceries, printing, etc., explains why these firms are going away. It is enough people persist in sending away for articles that they can get just as cheaply at home, and by their will to be low to let the tale.

With a few slight (?) changes we make the above apply to Independence.

One more business house, with ample capital, has located in Independence this week (see large advertisement) and two or three others are preparing to follow suit. Their arrival increases the number of persons who pay rent, spend money for a living, and help to bear the common tax burden. It increases the town's wealth and the number of people in it. Increase of business, caused by Independence people buying at home their clothing, dress goods, groceries, printing, etc., explains why these firms come here. If enough people continue to buy those articles that they can get just as good and cheaply at home as abroad, and by their will to be a town here of double its present population.

Before actually beginning her campaign as a candidate for mayor at Wichita, Mrs. Lease should devote some study to that ancient proverb about a prophet being without honor in his own country. She would better not give her old neighbors a chance at her scalp.

Senator Hill was stabbing Grover again when he said of the late Andrew Jackson: "You may search his writings, his letters, his speeches, his messages and all his public papers, and you will find there is no twaddle about non-partisanship in either national, state or municipal government."

Now that there has been time to get at the truth, the trouble in New Orleans is seen to have been largely a case of unwillingness on the part of a democratic governor to interfere with the bloodthirsty sports of democratic rioters.

No gas companies are going out of business because of the announcement about the nine hundred and ninety-ninth one—that a way to furnish gas for a merely nominal price has been discovered.

Instead of trying to bring about a reorganization of the democratic party in Pennsylvania, Mr. Cleveland would better try to collect legal proof of the existence of such a party.

One pretty woman, with no other knowledge than how to use a pair of saucy eyes, can control more men than a score of the greatest female orators of the world.

If the accounts of the defeats and victories of Cuban revolutionists are only half true, somebody stretches the truth in calling the revolt an insignificant affair.

A gang of green goods men have made Washington their headquarters since congress adjourned. Another illustration of the force of example.

The expectation of an office added greatly to the number of ex-congressmen who celebrated Mr. Cleveland's fifty-eighth birthday.

Mrs. Silbey says she doesn't wish to become the lady of the white house. There is no probability of her being compelled to do so.

The members of the "ex" brigade have been casting longing eyes at the recent vacancies in the ministries of foreign countries.

If the Cubans will put up the price, they can get volunteers from the United States to wipe the Spaniards off the island in a week.

Mr. Wilson will give the country a pleasant "April fool" if he will keep

**SIDE**

It remains to be seen how much better Mr. Cleveland will do with half of Europe on his hands than he did with congress.

A census of the men and women who live by bunco schemes—legal and illegal—would make startling reading.

Perhaps Senator Gorman thought it was good presidential politics to grab the Gridiron Club.

The diplomatic machine at Washington seems to have slipped a cog, several of them in fact.

When a disappointed politician is in doubt as to his next step he organizes a new party.

The administration has nothing to gain at home or abroad by bullying Spain.

It would not cost much to take a census of the Silbey silver party.

**A NEW HARDWARE FIRM.**

F. E. Chambers Announces Low Prices in Hardware.

When a person announces his intention of selling out at cost, the people generally take the announcement with a grain of salt, for the reason that men seldom grow rich by giving away money or goods. Occasionally, however, circumstances arise in business as well as in private life, which are not governed by custom nor controlled by ordinary laws.

One of these peculiar commercial situations is now presented to the people of Independence and vicinity, and they will do well to profit therefrom. F. E. Chambers has just bought, at bankrupt prices, the new and complete stock of hardware formerly owned by J. F. O'Donnell, and is therefore enabled to sell at prices which have never before been equalled in this city, and seldom approached in the state.

It is useless to quote the former and present prices placed on the different articles. To be satisfied you must see the goods and compare the old figures with the present prices. To give an idea of the radical difference, however, it might be well to state that Mr. Chambers is now selling first-class

stoves and ranges, oil heaters and cook stoves at wholesale prices. In and tire he announces a big cut, and this, too, on A 1 goods. A complete line of ready mixed paints, the Cleveland brand, is also selling lower than ever before.

Those who are interested in gardening will find this an excellent time to purchase their garden tools, hose, etc., at remarkably low rates. Drop in and get prices on these goods before Mr. Chambers moves to his new location on corner of C and Main streets, which will be about the first of the month.

**Blood Poison THE BANE OF HUMAN LIFE, Driven Out of the System by the Use of Ayer's Sarsaparilla**

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifested. Today I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier."—J. A.
