

SUNDAY RECORD.

The Only Paper in Polk County Receiving Associated Press Dispatches

SUBSCRIPTIONS—Per month, 20 cents; single copies 5 cents. For sale at newsstands or delivered at your residence by carrier.

ADVERTISING.—Per quarter, per month, \$1. Local advertisers, up to 10 lines, 1 cent a line; for first insertion, add 25 cents for each successive work. At no less than 10 lines, cents a line for each addition of five more, week. Church and school notices inserted free, excepting where advertisement is required to entitle them to insertion.

ALL COMMUNICATIONS should be addressed to "EDITOR SUNDAY RECORD," Independence, Oregon, and must reach this office not later than Friday night to insure publication. A small insertion is exempted in order to use these columns for a wide-spread discussion of all subjects pertaining to the public welfare, executive, religious and political. No mail insertions returned unless accompanied by necessary stamps.

Application made for entrance as second-matter at the post office at Independence.

SUNDAY, MAY 5, 1895.

We are in receipt of the first issue of the INDEPENDENCE SUNDAY RECORD, which is as newsworthy as its bold and patriotic name will permit. Price 20 cents per month.—Dallas *Observer*.

The SUNDAY RECORD, a breezy Sunday paper published from the West Side office, made its first appearance on last Sunday. The publishers of the RECORD are in for business, and the showing of its advertising columns proves that Independence is a bung-up business city and to be the abode of the liveliest lot of business men ever congregated together in Polk county. To pursue the SUNDAY RECORD makes a man wish he were there and jumping in with the rest.—Dallas *Observer*.

The SUNDAY RECORD is a new paper published at Independence, Polk county. It is a five-column folio, and will give attention to the publishing of telegraphic news for Sunday morning.—Hillsboro *Independent*.

After waiting about a week a copy of the INDEPENDENCE SUNDAY RECORD reached our table. It is a neatly printed and well edited paper of five columns full of style and *temper* to pass its father, whatever he is.—The paper don't say—will make the journal a success.—Dallas *Observer*.

More of It Needed.

Silversmiths, engravers and distributing in the East 5000 pamphlets descriptive of that region for the purpose of attracting immigration to that direction.

This shows that Sherman knows where his future prosperity lies. If Independence will attract it in the most favorable way, it will be the most profitable place with possible. There is hardly a city in the country that can be compared to it for the number of friends in the East who would like to learn more of this state. Scratching a paper occasionally and trying to have him settle here when he comes.

AFTER SIX YEARS.—J. M. Vandymen, the well known merchant, is looking forward with pleasure to visit from his father in a few days. Isaac Vandymen, now 84 years old, has not been away from his home at Colgate University for the past six years, and his wife is eager to make his stay in Independence as pleasant as possible.

MAYOR.—The time has been extended for the latter part of May, in view of extensive preparations looked out for it at Vandymen, Veinss & Wilcox.

THAT FINEST THING.—A number of complaints have been heard recently about damaged flower gardens and shrubberies. The latest complaint comes from Remondino to the effect that some vandals have wantonly destroyed several bluebells in the gardens of that town. Much indignation is expressed and it is expected could be had if they would be made to feel the weight of the fine police laws.

FOR SIX DAYS.—TUESDAY, A. R. 1000 of the city is already making preparations for a suitable observance of May 3rd, decoration day. The services will be held in several places with the aid of the order and respect will be shown to the public officers of this city and all other organizations to participate in the exercises. There will be impressive services at the Independence grave on the morning of that date under the auspices of the G. A. R., and in the afternoon the graves at the cemetery will be decorated.

IN THE OPERA HOUSE.—Commencement exercises of the Independence pub-

lic school will be held in the opera house Friday, May 10th. The program will consist of essays, class songs, and instrumental music. C. H. Chapman, of the University of Oregon, will be present and deliver an address.

The Farmers' Institute.

Following is the program of the Farmers' Institute to be held at Dallas commencing Wednesday, May 15th and continuing over Thursday:

WEDNESDAY EVENING.

Music.

Address of Welcome.

Music.

Response, and Address on the Purposes of the State Agricultural College, by President John M. Bliss. The address is to be illustrated by the reception views of the grounds, buildings and many interesting experiments by Profs. Perot and French.

Music.

THURSDAY MORNING.

"Forage Plant and Stock-feeding," by Professor H. T. French, to be followed by a discussion.

THURSDAY AFTERNOON.

"Hop Cree and Fruit Peels," by Professor F. L. Washburne, followed by discussion.

Music.

"Pruning, Cultivation and Care of Fruits," by Professor George Coote, followed by discussion.

Music.

THURSDAY EVENING.

"Photos Valuable as Fertilizers," by Professor H. T. French.

Music.

"Pollination," by President John M. Bliss.

Music.

Wednesday evening the exercises begin at 7:30 o'clock, the morning exercises Thursday at 9 o'clock, in the afternoon at 2:30 o'clock and in the evening at 7:30.

THE PROPOSITION ACCEPTED.

Monmouth Public Schools and the Normal to Work Together.

At the meeting held in Monmouth Wednesday evening took action on the proposition of the Normal school people looking in a union of forces and work with the public schools, as explained further on. This article is decided by a vote of 37 to 26, except the proposition.

The meeting was called to order by the chairman of the school board, Mr. Hubbard, who stated the object of the meeting, and school clerk Higgins recited the proposition made by the Board of Regents of the Normal school. Remarks were made by Fredrik P. L. Campbell, Professor Buckham, J. H. Bowley, Dr. S. Smith, this time. There is hardly a man in and others, both board and against, after which the question was voted upon.

The proposition submitted by the board of agents of the Normal school is self-explanatory, and is given in full follows:

The following statement has been handed in for publication: A proposition has been made by the Normal school to the Board of Directors of the Monmouth public schools, looking to an arrangement by which the public school may become of service to the other. Many of the best Eastern Normal schools have joined such an association with public schools to the great benefit of both. The essential part of a Normal school is its training department, and the school at Monmouth feels it must increase its facilities in their direction in order to accom-

plish the work demanded of it. It would of course benefit all its energies to make its training department as nearly as possible a model school, in response

to the fact that in a great measure it is measured by the work done here. The marked success of other Normal schools in pursuing this plan

is expressed and it is expected could be had if they would be made to

feel the weight of the fine police laws.

For six days—TUESDAY, A. R. 1000 of the city is already making preparations for a suitable observance of May 3rd, decoration day. The services will be held in several places with the aid of the order and respect will be shown to the public officers of this city and all other organizations to participate in the exercises. There will be impressive services at the

Independence grave on the morning of that date under the auspices of the G. A. R., and in the afternoon the graves at the cemetery will be decorated.

IN THE OPERA HOUSE.—Commencement exercises of the Independence pub-

lic school will be held in the opera house Friday, May 10th. The program will consist of essays, class songs, and instrumental music. C. H. Chapman, of the University of Oregon, will be present and deliver an address.

TEACHERS.—That a superintendent and a suffi-

cient number of critic teachers be em-

ployed to conduct the school on the general plan of a training department for the Normal school. That the members of the Senior Normal class be given one year's training, teaching under the personal supervision of the critic teachers. That the selection of teachers subject to the advice and consent of the directors, be left with the Normal school. That the teachers be ultimately responsible for their work to the Board of Directors.

FINANCES.

That the Normal school turn to the use of the public school eight hundred dollars for the year, to be used in helping pay salaries, purchase apparatus and make needed improvements in building and grounds. That the directors expend the full amount of money that may come to them under the provisions of the law for the usual uses of the school.

IMPROVEMENTS.

That as much improvement in building and grounds be made as may be possible with the money at the command of the Board. That needed tools and apparatus be supplied as far as possible.

STUDENT-TEACHERS.

That the general plan of assigning work to student-teachers be as follows: Each student to take one class for a period of not less than three months and a half a year. That each lesson be carefully prepared and a class of ten students submitted to the critic teacher in advance of at least one day before the lesson is taught. That the student-teachers receive personal suggestions and criticism from the critic regulars every day, and that they meet in a body with the critic teacher two or three times a week for general discussion. That student-teachers who prove incompetent and indifferent be dropped from the teaching force. That special parcels be sent to guard the interests of the pupils of the school against injury from shoddy of teachers.

ADVISORY RELATIONSHIP.

That the trustees of the Normal school maintain an advisory relationship with the departments in the public school corresponding to their own, giving such advice and assistance as may be in their power.

The above are the general outlines of the plan to be worked out specifically as to the best interests of the public school.

The gain to the Normal school school would be presenting enlarged facilities for its training department, an important step of progress at the present time. The gain to the public school would be presenting specially trained critic teachers in charge of superintendence in receiving an admiring and intelligent audience to be found for the year, or an increase of at least one-half in the number of pupils attending.

STRONG REASONS GIVEN

Why People Coming from the Eastern States

SHOULD COME TO INDEPENDENCE

Numerous Advantages Offered—Topography of Polk County—Its Climate—Unequalled Shipping Facilities—Cost of Lands.

In accordance with a long considered plan, the projectors of the West Side Land company have taken preliminary steps to make known to the great number of immigrants constantly flowing into Oregon the innumerable advantages and almost boundless resources of this section of the great Willamette valley—Polk county, the crown of which is the City of Independence.

There are many reasons why newcomers to the state should be informed as to the resources and prospects of this section. It would be impossible to more than touch upon the principal ones, but that will be more than sufficient for the space at hand.

LOCATION.

Independence, Polk county, Ore., is on the west bank of the Willamette river and is practically the head of navigation on that noble stream. It is 35 miles south of Portland by rail and but little more by way of the river, on which a number of fast and commodious steamers are constantly plying between those two points, touching at way points.

SITE AND PROPERTIES.

Polk county is one of the largest, most fertile and wealthy divisions of the state. Owing to its vast extent and varied elevations, there are endless possibilities in the sources here offered.

If you wish to locate here, in the general outline of the plan to be worked out specifically as to the best interests of the public school.

The gain to the Normal school school would be presenting enlarged facilities for its training department, an important step of progress at the present time. The gain to the public school would be presenting specially trained critic teachers in charge of superintendence in receiving an admiring and intelligent audience to be found for the year, or an increase of at least one-half in the number of pupils attending.
