Today and Tomorrow.

The people of this city will now have an opportunity of seeing Edison's latest and greatest invention, the kinetoscope, which is on view at the Little Palace hotel building. The kinetoscope reproduces scenes and figures in motion as natural as life, the pictures which one sees having been taken at the rate of forty-six per second. It is a marvelous thing and hard to realize without seeing for oneself, that you can actually see people in motion in a picture, but after you have seen the kinetoscope reproduce the frantic bucking of a broncho, the high kicking of Ruth Dennis, or the "Boxing Cats," you will not doubt the truth of these lines. It may be your last opportunity to see this wonderful instrument and is well worth the nickle asked. Don't forget the place—the Little Palace hotel.

TEMPERANCE WORKERS.

A Call for the State W. C. T. U. Convention.

The thirteenth annual convention of the Oregon Woman's Christian Temperance Union will be held in the Baptist church, Roseburg, May 15th to 17th, inclusive. The convention will open at 9 o'clock on the morning of the 15th. The state executive committee will hold a session on Tuesday evening, the 14th, at 7:30.

The basis of representation at the convention is one delegate at large for each county and local union—one for every twenty members and one for every fraction over ten members. Names of delegates should be sent to Mrs. Ida Marsters, Roseburg.

The Southern Pacific R. R. will grant reduced rates. Delegates will pay full fare going, taking a receipt from the ticket agent for the same and will be entitled to one-third rate returning.

It is hoped each local and county union will send its full quota of delegates, that the first W. C. T. U. convention ever held in Southern Oregon may prove a grand success in attendance as well as showing the results of work done during the year.

Whitmore met a goodly number of young people of Independence and Rickreall last Monday night at the Congregational church in this city, and organized "The Young People's Congregational Club of Independence and Rickreall," with a membership of twenty-four. The objects of the organization are "Spiritual, Intellectual and Social Culture."

The following officers were elected: Mrs. Ida Irvine, president; Ellis Simonton, vice president; Miss Fannie Orr, secretary; J. Talbot, treasurer. Also, the following committee on constitution and by-laws were appointed: Fred Koser, Miss Lizzie Orr, and Miss Josie Burch.

The club adjourned to meet in two weeks, Monday night, May 20th, at the church in Rickreall, when the committee on constitution and by-laws will report, and the organization will be perfected. A musical and literary program will also be rendered.

Advice to be Followed.

A leading citizen of Salem recently addressed a communication to the commissioner of fisheries at Washington City says the Statesman, relative to stocking the upper Willamette River with new species of fish and in reply he received the following: "Dear Sir:—Replying to your letter I am glad to learn that fishways are a success, and shall be glad to assist you in any way possible in stocking the upper part of the Willamette river. As it is an excellent trout and salmon stream, I would of course not advise the introduction of any fish that would prey upon these species."

A Difference of a Day.

The telephone girl over at the central office at Salem last week rather had one on the wife a prominent drygoods merchant here in Independence. The lady was expecting a friend of hers over from Salem to spend Sunday and to make certain that her guest was coming she went to the telephone and tried to call up the lady, who by the way is a school teacher. In reply to the Independence lady's question if they could find her friend, Central said she thought so—that most likely the teacher was at the school house. That idea was rejected by the lady at this end of the wire, who declared it was Saturday and that the teacher was not employed that day but was coming to see her.

After considerable argument the even voice of Salem's patient operator drewled out, "Well, it may be Saturday over in Independence, but its Friday in Salem"—and that settled it.

Misdirected Philanthropy.

The truth of the adage that "there is many a slip twixt the cup and the lip" was very forcibly illustrated last Monday morning, in a manner well calculated to cause a newspaper man to lose the last vestige of his faith in mankind. It was this way:

Frank Russell's team had just started off on a little vacation and were getting under good headway down Main street with a clear road open to the bridge and every prospect of having a glorious run—to say nothing of manufacturing a real good item for this

paper—when Charles Allen ran out ahead of the runaways and stopped them.

Mr. Allen's promptness and presence of mind were no doubt more deeply appreciated by Mr. Russell than by the reporter who was confident that the long sought-for item had at last been found. The mangled bodies of the horses, the wrecked wagon, broken bridge timbers and possibly a dead man or two, and the resultant scare head article, all vanished as soon as Charlie laid hands on that team. Such is life—in Independence.

Accidents That Pay.

It is dangerous to travel without securing an accident policy in the Etna Life Insurance Co. You can get a one-day policy for \$3,000, for 25 cents which will pay you in case you are injured \$15 weekly indemnity, \$1,000 for loss of one arm or foot, \$3,000 for loss of both arms or feet. \$3,000 in case of accident death. See the agent at the boat or train.

Has Come to Stay.

A. L. Bentley, the gentleman who last week bought the shoe business and stock formerly owned by W. H. Patterson on Main street near C. arrived here from Albany last week, and has been busy preparing to receive the rest of his stock of goods from Albany.

Mr. Bentley has been in business in Albany for many years and gave such satisfaction to his customers and the public generally that last week the Herald of that city took occasion to say some very pleasant things about him, and to regret his departure as a loss to the city. What is Albany's loss, however, is this city's gain, and the public will find Mr. Bentley a very attentive and agreeable person from whom to purchase their shoes and other footwear.

Memorial Day Exercises.

The following is the program for the exercises of the G. A. R. on Memorial day, May 30. The day will be observed in regular Grand Army style, and all the citizen are urged to participate, and aid in making it a grand day.

The Gen. Gibson post and W. R. corps and the various civild societies will meet at the I. O. O. F. hall at 9:30 a. m. and be ready to march at 10 o'clock sharp, headed by the Independence band, to the city park.

The children of the public schools will meet at the school house at 9:30 and march to First street where they will join the general procession. At the grove the flag salute will be given by the school children, an address by Rev. J. S. Smith, followed by singing and music by the band.

A basket dinner will be served and all are requested to come with well filled baskets. At 1:30 the band will call the people together again and after an address by W. P. Conaway, the ritual services of the order will be held followed by the flower memorial services by forty-five girls, and the decoration of the monument to the unknown dead.

Detailed program with order of march will appear later.

The Star Spangled Banner.

Many interesting things about Francis Scott Key—the author of the Star Spangled Banner—are contained in a pamphlet, which may be obtained free, from the Key Monument Association of Fredrick City, Maryland, by sending one 2 cent stamp for postage. This Association is raising funds for a suitable monument to the poet, and they suggest, that in the schools and every where, upon or before Flag Day (June 14th) this subject be suitably recognized. Contributions, however small, are asked for. Every one who loves the flag, ought to have some small share in building this monument. The Governor of Maryland has strongly endorsed the movement. The names of all contributors will be preserved in the crypt of the monument, and published (without amount) in the history of the monument when completed.

TEACHERS ENGAGED.—The board of school directors held a meeting Wednesday evening and engaged the following teachers for the ensuing term: Prof. Hayes, Misses Minnie Goodrich, Hattie Mulkey, Clara Hall, Adona Cochran and Mrs. Mary Tuck were re-employed; Miss Margaret Longacre was secured in the place of Mr. Allingham who made on application this year, while Miss Nellie Hill was engaged as an extra teacher.
