Andy Wilson came in to the West Side office Saturday to pay his subscription up to December 1, 1895, and informed us that his was the first cash subscription paid on this paper in 1895, being now twelve years ago. F. A. Doury, who represented the citizens in a desire to have a paper here, was the one to solicit his support, and he has always had the paper since.

We regret that some people imagine that in supplying a newspaper with personal or other items not apt to be picked up by the editor or reporters without coaching, is a forward act or an evidence that undue publicity is sought. No greater mistake could be made. The newspaper men are always thankful for such newsy material and treat them rightly all around.

L. Kelse, who has done business for many years in Independence made an assignment last Saturday for the benefit of his creditors. Mr. Kelse is a relic of the old school of business men, who believe business can be carried on now a days without the use of money's ink. The first requisite of a business man is to have for sale goods that are in demand, and then tell the people what he has, as cheaply as possible. If the newspaper can do that part, of the work cheaper than any other method, then it is business economy to employ the paper.

The services at the M. E. church were of more than ordinary interest last Sabbath. From the first Sabbath of the present conference year the congregations have grown rapidly. Last Sabbath evening the house was filled by a very appreciative audience, who listened with intense interest to a discourse upon the subject "Give the Boy a Chance." The pastor, Dr. Hasler Gies, devoted the evening services to the interest of young people and is strongly supported in this by the public.

Mr. Frank E. Brown, of Salem, who attended as a delegate to the League convention at Chattanooga, Tenn., last summer gave a report of the convention at the Young people's meeting. Next Sabbath morning the pastor will preach upon the subject "Christian Baptism" and in the evening "The Coming Woman." Mothers and their daughters especially invited. Epworth League at 6:30 p. m. the young people are invited. The music at the evening service will be rendered by a Ladies' Quartette.

L. W. Robertson, of Portland, spent several weeks visiting recently near the borders of Mexico, and while here said that he heard the most flattering reports from all the Central American republics as to the prosper-ous state of private business and says he ascribes it to their being on the silver basis, in other words to free silver. The people of those countries are, to a great extent, on the silver standard as against gold. Mr. Robertson was talking with a gentleman in Los Angeles on the question of what would be the effect of a gold standard in Mexico if the debts of the people were payable in gold instead of silver and the gentleman had to admit that the \$3,000,000,000 of debts would at once increase to \$6,000,000,000 of silver dollars - if on a gold standard and so in this country if we had free coinage of silver the debtor class could pay their debts with half the present amount of money. Mr. Robertson says from his investigation he is more convinced than ever that our monetary system is largely to blame for the hard times.

Messrs. Cline and Wade, two well known Salem business men, were arrested last Monday charged with larceny on Monday Smith's place. As we go to press the trial is in progress before Justice C. R. of Eola, presided. Deputy Prosecuting Attorney Ballinger and Messrs. Hayden and McNary, of Salem, are representing the state, while W. R. O'Donnell, of this city is defending Cline and Wade. There is considerable bitter feeling between the parties, and the case is attracting a great deal of interest among the spectators, who are always hanging over the law courts. O'Donnell says Smith, the state's complaining witness, is waging a mail and prosecution and the defendants will be acquitted notwithstanding the amount of manufactured testimony which he expects the state to introduce in their zealous attempt to convict some innocent parties, in order to establish some kind of a reputation for themselves after Justice Irvine dissolved a similar case a few weeks ago, where the same parties were defendants.

Price's Cream Baking Powder. Awarded Gold Medal, Melbourne and Philadelphia.

F. A. Doury, of the firm of Doury & Locke, has his new house about completed and will move in week after next. It is a two story structure, in modern style of architecture. Leading to the front door from the street is a cement walk. A porch is reached from a flight of steps extending in front of the hall entrance and in front of the dining room. Opening off the hall is a parlor, with bay window, folding doors opening into sitting-room, and opening off the sitting-room, is a spacious bedroom with stationary wash bowl. To the left of the sitting-room is the dining room and the kitchen combined, with convenient china closet, lockers, and a large pantry, etc., also a dummy elevator for transferring things to and from the basement. The basement of brick is cemented throughout, has ordinary wash tubs, a Gilmore steam heater, and in every room in the house are radiators. Electricity will be used for lighting and the fixtures for the rooms are elegant. The stairs are of fine wood, and a bath room. The finish is natural wood. Taken in all Mr. Doury has a very complete modern residence.

Mrs. W. B. Meek, who resides at Canbyville, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhoea Remedy she concluded to try it. She found that it always gave prompt relief. It was seldom necessary to give the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by Alexander Cooper Drug Company.

Speak a Good Word for Your Town.

If you have made up your mind to live in a town, then stand up for it, say as an exchange; say all the good things you can about it, and if you know no good thing in regard to its merits is golden; do what you can to help along every man who is engaged in a legitimate business; don't send away for everything else you want and still expect the home town to keep a stock to suit the whim of one or two customers. The success of your fellow townsmen will be your success. No man liveth to himself, no man dieth to himself, and no man does business independent of his fellow business man. Take your home paper; don't think that the big city dailies fill up the space. There are a great many little crevices of good cheer, social sunshine, personal mention in a home paper that the big dailies do not care for and do not print. Don't abuse your neighbor. The main difference in the number of his faults and yours is the fact that you see through a magnifying glass that all owned here. The cracker can do a town more harm in a minute than two good citizens can repair in a month.

POPULAR PEOPLE.

Opinions of the Monmouth Readers of the West Side.

THE MOST POPULAR LADY AND GENTLEMAN.

A Competition in Popularity, Which Will be Carried on by Readers of this Paper.

In this issue of the WEST SIDE will be found a competition, entitled: "A Popular Lady," which every one who receives is invited to take part in. The name of some lady a resident of the town designated on the coupon, and mail the name to the WEST SIDE not later than Monday following the date appearing on the coupon.

The plan of the contest is as follows: Each postoffice in Polk county will have a contest, each lasting four weeks. At the end of the fourth week, the lady and gentleman having received the most votes will have a picture, a half-tone engraving, printed in this paper.

We hope to have every postoffice in Polk county represented in this collection of young ladies, and at the end of the contest the pictures will be grouped and a vote of four weeks taken on all, and the picture receiving the most votes will entitle the young lady to receive a gold watch presented by the WEST SIDE; and the gentleman a gold headed cane.

RULES AND REGULATIONS.

In order to have this contest entirely satisfactory to all, we ask that the spirit of the contest be observed as well as the letter. It is to be remembered that the pictures will include only head and shoulders, as far down as the waist, therefore the two essentials are regularity of feature, perfection of form, expression of face and grace of pose.

1st. As many votes will be received as coupons can be obtained from papers.

2nd. Voting will close each week at 12 p. m. on each Monday. Votes received later will not be counted.

3rd. In voting, the name on the coupon must be of a lady or gentleman, who receive their mail at the postoffice belonging to the coupon.

4th. The order in which voting will take place is as follows: Independence, Monmouth, Dallas, Buena Vista, Falls City, McCoy, Parker, Rickreall, Suver, Eola, Balston, Smithfield, Lincoln, Crowley, Lewisville, Perrydale, Airrie and Zeua.

5th. The initials and full name of contestants must be given on ballots. Arrangements will be made with postmasters at each postoffice, while the contest lasts at that office, for receiving and forwarding ballots together.

6th. All ballots will be filed in the WEST SIDE office until final of monthly vote, when they will be counted by a committee, and result announced over signature of such committee. The ballots will be destroyed two weeks thereafter.

When the Chill Mists of the Morning

hang like a pall over the surface of the earth it will be well for you before venturing into the raw vaporous air, charged, perhaps, with the seeds of malaria or provocative of rheumatic twinges, to take a wineglassful of Hostetter's Stomach Bitters, and thus shield yourself from atmospheric influences threatening to health. If you happen to get chilled or rained upon, use the same preventive, and ward the rheumatism or a dangerous cold. The agreeable warmth infused into the circulation by this genial stimulant, its invigorating and regulating properties counteract it to all appearance of the fact that prevention is better than cure. Use the Bitters for dyspepsia, biliousness, nervousness and kidney trouble, sick headache and debility.

How to Root Roses.

A recent number of The Mayflower, contains the following letter from Mrs. B. F. Every, of Hillsbo, which we deem of enough interest to our readers to reprint, as the love of the beautiful is manifested in the lovely gardens and pleasant homes in Polk county. The method proposed for rooting roses is not expensive, and any one can try the experiment:

"Some years since, in a corner of an old newspaper, my eye chanced to fall upon a simple plan for rooting those most desirable and lovely of all roses, the Everblooming, Papa Gontier, Catherine Mermet, Marechal Niel, etc., and the Hybrid Perpetuals, Mad. Pantier, Paul Neyron, Gen. Jack, etc. I have so successfully tested this method that I should like many other lovers of roses to share with me in the joy of growing one's very own.

When the roses are in their last bloom before the frost nips them, break off blossom stalks where they will break brittle, then pinch off the buds or blossoms. In a sunny spot in the garden dig a trench, six or eight inches deep, and fill it with the bottom of a quart fruit bottle, set up the bottom through, stick in the ground in this trench about three-slips of one kind of rose and insert over these a glass fruit jar. By the side of this place another three or so on till you have all you wish to root.

Shovel back the earth around these bottles. When you are through, the bottoms of the bottles or jars should be set even with the ground, not below.

If it is dry weather give them a good watering and leave them until the next spring. They will surprise you by growing sturdily the winter through. In the spring, early, the jars must be carefully lifted out and earth finely sifted about the roots. Keep filling the roses as fast as the roses gain in height. When the jars are removed cover, until warm weather, with window glass to protect them from the chilly winds of early spring.

Through the early spring and summer if you wish strong plants, keep the buds pinched off. This you will find to be a trial, for you will be so anxious to see immediate results, but your patience will be rewarded in the rich blooms of the next season. This spring several of my slips were in bud when I removed the jars.

Do not make the mistake which a friend of mine did, by covering the whole jar with earth. They must have plenty of sun. By this easy plan, you can grow your own roses by simply asking your friends for a few slips."

Pure Blood

Is the secret of the restoration to health which Hood's Sarsaparilla gives.

"It gives me pleasure to recommend Hood's Sarsaparilla. It has cured me of many complaints, and purified my blood. I was troubled with my liver, had hip disease and other troubles, with swelling of my ankles. For a long time I had to walk with a cane. For several years I was gradually breaking down. I had the grip in a severe form. I procured six bottles of Hood's Sarsaparilla and it built me up. My recovery I owe to Hood's Sarsaparilla. All my ills have gone and I feel like a new person. I also recommend Hood's Pills. Mrs. Chas. E. Kelly, Hayward, Cal.
