

THE WEST SIDE

JOB. A. C. BRANT, Editor and Proprietor. SUBSCRIPTION RATES: (IN ADVANCE) One month, \$1.00; Three months, \$2.50; Six months, \$4.50; One year, \$8.00.

SATURDAY, APRIL 28, 1900.

REPUBLICAN TICKET.

- Supreme Judge, CHAS. E. WOLVERTON. District Attorney, JULIUS N. HART. Joint Representative, W. L. WELLS. Congressman First District, THOMAS H. TONGUE. Food and Dairy Commissioner, J. W. BAILEY. Presidential Electors, TILMON FORD, J. C. FULLERTON, O. F. PAXTON, W. J. FURNISH. Senator, B. F. MULKEY. Representative, G. L. HAWKINS. County Judge, J. H. HAWLEY. Clerk, U. S. LAUGHARY. Sheriff, R. S. CONNER. Treasurer, J. W. CALDWELL. School Superintendent, LEONARD STARR. Assessor, D. L. GREEN. Coroner, DR. L. N. WOODS. County Commissioner, J. B. TEAL.

Now watch the senate kill that proposition for a constitutional amendment to elect Senators by a direct vote of the people.

War has broken out in Ashanti and an interesting question is how many new African words it will add to the English language.

Wool and sheep are worth twice as much as they were 1896. The gold standard and reasonable protection restored a living profit to American owners of sheep.

Col. Watterson rises to remark that "No platform can stay the movement of mankind." The Colonel should stick to the proposition. It has but one side.

Wanted: A post as member of the United States senate. Money no object. Apply to Clark, of Montana.

Come now, is there really any considerable proportion of American citizens who think the Presidency is so difficult that they would be unwilling to try it?

Democrats say that they are pained to see a wabble in Republican policies. Solicitude of this kind is an infallible sign that Democratic traps have been set in vain.

Admiral Dewey probably lays his finger along his nose and blandly grins when his attention is called to that statement sent out from Chicago anent his candidacy. "In vain is the net laid in the sight of any bird."

The New York Herald is credited with saying "it will be either McKinley or Dewey," meaning one or the other of these men will be elected next November. The Herald is mistaken. It will be either McKinley or Bryan, and it won't be Bryan.

Secretary Root has recommended to congress that provision be made in the army appropriation bill for six additional brigadier generals in the regular army, in order that President McKinley may reward deserving officers for meritorious service.

One of the immediate effects of the Clarke investigation, which caused the senate committee on elections to unanimously report that Clark, of Montana, was not entitled to the seat in the senate, which he spent something like a quarter of a million dollars to get, with only fifteen adverse voters, of a resolution proposing a constitutional amendment for the election of U. S. Senators, by direct vote of the people.

THE DEMOCRATS MEET.

Pursuant to call the Democrats met in county convention at Dallas last Saturday. The meeting was harmonious although some little rivalry for certain offices was apparent.

The name of the town of Jammersberg is somewhat ominous for both British and Boers.

The Boer war is costing the British \$760 a minute. No wonder the tax payers are anxious for Boers to get a move on.

The Kentucky struggle has been brought within the canons of the supreme court. This is a very different position from being within the muzzles of the revolvers of Kentuckians.

The cause of the revolt in Ashanti is stated to be "the golden stool." Africa's golden sands are causing more turmoil in the world than is consistent with the missionary spirit.

A second big shipyard is to be built at San Francisco and will give employment to 3000 men. That town made a valuable reputation when it turned out the battleship Oregon.

Nebraska's bank deposits have increased \$3,000,000 within a year. That state may run after demagogues but it can not deny that its prosperity dates from Republican success.

Diplomats in Washington are discussing the question whether the Clayton-Bulwer treaty would apply to a strip of land ten miles wide actually owned by the United States. If not, why not buy it and go ahead?

Uncle Sam's patience is exhausted and the Sultan of Turkey will be called upon to pay up or fight. It has been nearly five years since the outrages for which indemnity is demanded were committed, and it is high time that payment was made.

General Otis is coming home. He has discharged a tremendous task with conspicuous ability. Those who carp at his actions would cut a much poorer figure if called upon to undertake his duty. And nine-tenths of the abuse that has been showered upon him has arisen from the desire to make capital against the administration.

American business talent enjoys an expanding reputation in every part of the world. One of the latest American contracts abroad is to pave with asphalt seventy-five streets in the city of Mexico.

Various persons who recently made filing on timber claims at the Lakeview Land Office have discovered that they were flim-flamed by the party locating them, having filed on worthless land, which was purported to be valuable for timber. Subsequently they are notified by "money lenders" that no money can be advanced on their locations on the account of the investigations that are being made by the Government agents regarding the system of acquiring title to some of these claims.

Senator Chandler thinks Gov. Roosevelt is the man to be nominated for vice-president on the Republican ticket. Speaking about it he said: "I am for Roosevelt, and I do not recognize his right to say that he will not accept the vice-presidential nomination, if the national convention should name him. Neither do I recognize the right of President McKinley or Senator Hanna to act for the party in deciding upon the vice-presidency in advance of the convention. The delegates will name the vice-presidential nominee. Their judgment must determine, and any man who is named will accept. The office has never been refused, and if Gov. Roosevelt is named by the convention, he will accept."

Spain's attempt to retain three islands on the outskirts of the Philippine group, was a failure. The claim was made on the ground that these islands were outside of the geographical bounds named in the Paris treaty. This government has notified Spain that its claim would not be recognized for the simple reason that the demand of this government, when the Paris treaty was being negotiated, was for the entire territory of Spain in the Philippine and Sulu Archipelagos, and that the demand was agreed to by the Spanish Commissioners. The statement of boundaries was made merely to set forth in definite form a description of the territory ceded by Spain. The three islands are not important, but this government is determined that no flag other than Old Glory should fly over any of these islands.

THE FIRST GUN.

On Thursday evening a party of Republicans went over to Buena Vista for the purpose of giving our neighbors more light on the political situation. Among the number were Senator Mulkey, of Monmouth, G. L. Hawkins, candidate for representative, and Mr. S. C. Spencer, of Portland.

The meeting was held in the school house and shortly after eight o'clock was called to order by W. H. Murphy.

Mr. Spencer made the first address and touched upon the issues before the people in an able and eloquent manner, particularly impressed upon his hearers the duty of voting for principles. He called attention to the fallacies advanced by the populists from years ago and proved his words. He spoke of the expansion proposition; the Puerto Rico bill and paid attention to some of W. J. Bryan's statements showing them to be political clap net. After enjoining the second Oregon boys he closed amid applause.

Mr. Mulkey following spoke briefly on local issues.

Mr. Hawkins also said a few words, when the hour being late the meeting adjourned.

Six ships of the United States navy are to go out of commission because there is not a sufficient number of officers to furnish complements for the vessels actually required. There are fully 160 vacancies in the line of the navy, and the total number of officers is less than it was fifteen years ago, notwithstanding the great increase in the number of ships.

H. H. Vandervort, one of the most extensive sheepowners in this vicinity, says that he will hold his pool this year for 20 cents per pound, and he advises all wool-growers to do the same. He believes the supply and demand warrant that price, and is satisfied that if growers hold out for it they will get it. As shearing has not begun there is no market price, but it is generally believed that much less than 20 cents will be offered. Mr. Vandervort thinks that if the present good weather continues shearing will begin about May 10. Fleeces are of very good quality this spring, owing to the mild winter.

Money in Potatoes. Farmers who raised potatoes last year made lots of money on the crop, if they sold them in time, although the price is low now. It might naturally be supposed that this would lead to the planting of large areas in potatoes this season, but farmers say such is not the case. Many of them figure that because potatoes were a good crop and brought a good price, so many will go into the business of raising potatoes this year that they will not be worth anything, and so they plant fewer or none at all. The fact that California, which in years of drought furnishes a market for Oregon potatoes, has had plentiful rains this season, and is likely to have good crops of everything, has led some to plant a smaller acreage of potatoes than usual. This may be the correct way of growing potatoes, but some old hands at the business plant the same acreage year after year, and say this plan will always win.

Change in Time. Beginning on last Monday distinct improvement has been made in the mail service on the Southern Pacific, which will give Independence and Monmouth a double daily mail service from Portland. Train 6 of the Southern Pacific, leaving Portland at 5:05 p. m., will make connection with the motor line at Dallas, on which mail service has just been established. This will give these towns a chance to send mail to and receive mail from Portland both morning and evening. In connection with this service, arrangements have been made to carry mail on the motor from Monmouth to Airline. This will give Airline a daily mail service both ways in place of a tri-weekly service as heretofore.

AROUND ABOUT MONMOUTH.

Every promise is a debt. The campaign is now on. Garden making is the order of the day.

Socially, Monmouth has been glowing this week. Mr. and Mrs. Janison are visitors this week.

T. A. Warm, of West Salem, noticed on our streets Wednesday. Mr. Ira S. Smith is reported on sick list this week.

Mr. Frank Fisher made a short tour to Roseburg this week. Mr. Brown, of Salem, received 9,000 pounds of mohair here Monday. The price paid was 20 cents.

The heavy frost of last Sunday night damaged fruit and strawberries to a considerable extent. The Democrats are all well pleased with their ticket nomination last Saturday. They claim it to be a winner.

Mr. Hanna has sold his general merchandise store to Falls City, and he will remove to Eastern Oregon. The Luckiamute Mill company has purchased the Hanna stock of groceries and dry goods. The stock will be moved to the mill nine miles west of here.

The Normal school is north side of the bulkhead, and other property noted about the institution. Rev. Lister, a prominent minister of the Christian church, preached here on Sunday evening to a large audience. His subject was "Home Missions."

Prof. P. L. Campbell is still at Newport where he is enjoying in the hope of regaining health, and rest from his work here in the Normal. Mr. Carl Goss, who was shot a few weeks ago while at his mine in Southern Oregon, is pretty low and some doubts are entertained as to his recovery.

The funeral services of Mrs. Scheele occurred at the Evangelical church on last Sunday afternoon. She was late of Pennsylvania and leaves a husband and two small children to mourn her loss. Now that both parties have their tickets in the field, the voter will have the privilege of taking his choice of the men he will support, and make an effort for their election. It is not altogether an easy matter for one to choose just the right man when all parties have good tickets out. We suppose the best way to do is to stay with your politics.

The literary societies of the Normal school debated the question "Should the City own and Manage the Street Plants, Water, Electric Light and Gas Plants?" on last Saturday evening. The subject was handled without gloss and to the credit of those who participated in the discussion. A joint debate has been arranged for between the Normal and the Newberg literary societies which will occur next week.

Sales of Mohair. Great interest is being manifested throughout the Willamette valley, in the reports of the sales of mohair. The sale by the Polk County Mohair Association, to Wm. Brown & Co., of this city of 46,000 pounds of mohair, the clip of about 12,000 goats, was the first big deal made in this product. This sale was made last Tuesday, at 29 cents per pound, and a portion of the pool is being received this week at Dallas. On Monday Mr. Brown will go to Monmouth to receive some at that point, while on the following day the remainder will be received at McCoy. Mr. Brown had several competitors in bidding for this pool; Herman Metzger of Portland, made an offer of \$25 per pound, while Benj. and A. J. Ray made \$20 per pound, and offered for the lot this mohair will be shipped to New York and Boston.

Today two pools of mohair will be sold in Benton county. One at Corvallis, contains about 10,000 pounds, while another, at Monroe will have about 4000 pounds. At Scio one pool of 10,000 pounds was sold on last Tuesday at 27 cents per pound. Herman Metzger, of Portland, the purchaser.

These large lots of mohair bring a better price than is usually paid for small lots, the reason being that where the farmers pay attention to the industry and make it a specialty, as they grow here in Polk county, they grow up their herds of goats, and thus secure a better product, profiting to the extent of several cents per pound over and above their less interested brethren who pay little attention to it.

Wm. Brown & Co. have received in the last few days a carload of hop twigs from the mills at Oakland, California, and the same is now being unloaded. This firm has done considerable business in shipping hops for the past few years, and during the last few months has not shipped a single pound of freight over any other line than the Southern Pacific. This is due to the accommodations furnished by that company to its patrons.

Yamhill's sheriff is hot after bicycle-tax evaders. Hear he has to say: "Section 5 of the bicycle law of the state of Oregon provides: 'Section 5. The absence of the proper tag from any bicycle shall be considered prima facie evidence that the tax has not been paid; it shall be the duty of any and all peace officers, deputy sheriffs, and bicycle tax collectors to seize, securely and safely hold all such bicycles until the levied tax and all additional has been paid as a fine for such nonpayment. 'Therefore all bicycle owners are notified that this tax must be paid at once. W. G. HENDERSON, Sheriff of Yamhill Co."

Already the Navy Department is building a coaling station at the harbor of Pago Pago in Samoa. Our island there is not large, but it is our own, and it marks the end of territorial conquest on the Pacific.

CITY OF INDEPENDENCE.

Remaining on file in the post office at Independence, Oregon, April 28, 1900. Eaton, Miss Nellie Roundy, & P. J. A. WHEELER, P. M. L. P. Frytag and B. D. McIntyre, of Monmouth, spent Wednesday evening in this city visiting the K. of P. lodge.

Knights of Pythias gave the second rank in good shape Wednesday evening. One candidate was elected to receive the rank, the first of which will be given next Wednesday evening. It is also likely that the third rank will be conferred.

Mr. Stansberry, the veteran, was presented by the Republican committee on Wednesday with a fine new square drum. To say that he was pleased is a mild way of expressing his sentiments. He hopes to beat a tattoo that will usher in a rousing Republican victory in June.

H. G. Mettrifield, a hopgrower residing at Annetteville, reports that half the acreage of hops in that vicinity will be plowed up this spring and sown to oats or other grain. Growers have become discouraged over the low prices received, and will go out of the business.

Work is progressing favorably on the new mill and it is expected that sawing will commence early next week. The County Central Committee of the Republicans of this county, will meet in Dallas on the 30th of next month, in accordance with a call by the Chairman.

There is a letter held at the postoffice for better address, the only words thereon being "Waterville, Main." The A. O. U. W. lodges of Salem came in a body on the Altona, Thursday evening and enjoyed themselves. Dancing in the auditorium until a late hour, was the main feature.

California Needs Given Away. Until August 1, 1900, anyone sending name and full address, with 10 cents in stamps to defray postage, packing, etc., will receive free a package containing a choice collection of first class flower and vegetable seed. All are of the finest California variety, grown at this season. If we ask of you that when they are grown and matured, you will tell your neighbors or friends that the seeds came from us, State which you prefer, flower or vegetable seeds. Raymond & Roberts Seed Co., 41 Box 286, Santa Paia, Cal.

Dr. Shiloh's Cough and Consumptive Cure. This is a highly recommended cough medicine, and is sold by Kirkland Drug Co., Independence, Oregon.

S. C. Wells & Co. Sole Proprietors. HAMILTON, CAN. For sale by Kirkland Drug Co., Independence, Oregon.

THE FRUIT CROP.

Hon. Ira Purdin, a prosperous farmer near Forest Grove, said that after careful investigation of his fruit, he finds that the late frosts have damaged considerably his prunes and cherries. But with the damage done he will have a better crop this year than last. All fruitraisers in the section, he says, will find his statement as to injury to the fruit to be true.

The all absorbing question at present in this vicinity is to what extent the fruit crop has been damaged by the recent frost. A canvass among men interested in fruit does not shed much light on the real state of affairs, as there are many different opinions. D. C. Rose thinks that about 85 per cent of the Italian prune crop is ruined, while Volt, Johnson, manager of the Benton County Prune Co.'s orchard, does not think the big orchard has suffered serious injury to date, but says it is yet too early to determine with certainty that the damage may be. It has affected the various localities differently, the most advanced crops suffering the most.

In regard to small fruit, a gentleman stated that his currant bushes were nicely set with berries and currants on the top of the bushes were killed and are now rapidly withering—Corvallis Gazette.

There is every prospect now for a most abundant fruit crop throughout the Northwest. This season has so far advanced that there is little or no danger from frost, especially in Western Oregon and Washington. The only exception is the apple crop in the Willamette valley in Southern Oregon. The crop is badly damaged by the frosts of several nights since—Homestead.

There is no need of getting excited about damage to fruit from frost. That is not the trouble in the Willamette valley. There is seldom any damage at all here from the frosts. It is the cold rains preventing fertilizing that does the mischief. Our growers must raise varieties calculated to escape the late cold winds of spring and the early showers of fall season if they would succeed.

Colonies for Oregon. E. L. Thompson, of Portland, representing Hartman, Thompson & Powers, in Albany last week, says the Herald, on his way to Eugene, where he succeeded in locating a colony of Danes, on a tract of land near town. The colony consists of several hundred families, all of them cannot be located at Eugene unless more land can be secured there, the land is to be divided into small lots and the new comers will engage in intensified and diversified farming, using a thrifty desirable class of immigrants. Mr. Thompson and his firm are in communication with the representatives of other colonies, who expect to come to Oregon soon. There is a large colony in Texas and one in North Dakota, and their people are now turning their steps toward Oregon, where the climate is similar to their own native land.

Letters.

Remaining on file in the post office at Independence, Oregon, April 28, 1900. Eaton, Miss Nellie Roundy, & P. J. A. WHEELER, P. M. L. P. Frytag and B. D. McIntyre, of Monmouth, spent Wednesday evening in this city visiting the K. of P. lodge.

Knights of Pythias gave the second rank in good shape Wednesday evening. One candidate was elected to receive the rank, the first of which will be given next Wednesday evening. It is also likely that the third rank will be conferred.
