The hop business of Oregon, on a basis of 10 cents, is worth above two millions of dollars to this state. At 80,000 bales of 180 pounds each, it is \$2,160,000. And then there are above that the commissions to the dealers, the wages of the freight handlers, etc., etc. And this money is more generally distributed than that for any other crop.

The poor of the cities, who go to the yards and pick, get a lot of it. The merchants in turn get their share. The bankers get their share. It is not at all unlikely that the Southern Pacific company will fill its warehouses with Polk county hops. The warehouses are filling and yet there are plenty of hops waiting for storage, the growers seeming to prefer storing their hops for awhile to selling them at the present prices.

The complete novel offered us by the New Lippincott magazine of October is a stirring good one in the field which has set us all to looking up our ancestors and reading American history. It is called "My Captive," and is by Mr. Joseph A. Altheimer, whose recent story of the civil war is now passing into many editions. "My Captive" is the heroine. She is the gallant daughter of an English officer, whose beauty and courage are alike worthy of her martial birth. She leads her American captor a wild gallop over historic ground and wine from his heart a submission he can never win from her English pluck. The scene lies at the south during the Revolution, and it is full of vivid fights that thrill the native pulse.

Game Laws of Oregon.

As the fishing season is now open and the hunting season will soon open for larger game, it may be well to remind parties going to the mountains just when they can take game.

It is lawful to kill deer and elk from July 15 to November 1 of each year, but it is unlawful to kill them at any time for the hides, tusks, and horns.

H. C. Miller asked to have license on bowling alleys reduced. Matter was referred to ordinance committee.

The open season to kill silver grey squirrels is from October 1 to January 1. The open season for China pheasants, grouse, native pheasants and quails is the months of October and November.

Hunters are not allowed to shoot from a public highway or to enter any standing or growing grain not his own for the purpose of recovering or taking any game, or to go upon any premises for the purpose of hunting or to allow his dog to enter any standing or growing grain not his own for the purpose of recovering or taking any game, or to go upon any premises for the purpose of hunting or to allow his dog to enter any standing or growing grain not his own for the purpose of recovering or taking any game.

The punishment being so severe few will take the chance of killing game out of season.

Governor Geer has issued a writ of special election commanding the sheriff of Multnomah county to "notify the judges of election of said county, that on Tuesday, November 6, 1900, they hold a special election to fill the vacancy that exists by reason of the death of A. J. Knott, elected to represent Multnomah county in the lower house of the Oregon legislature."

The management of the Pioneer Woolen mill, of Dallas, which has been making propositions to towns and cities throughout the Northwest, for the past three months, to move the mill to any location giving it the necessary encouragement in the way of a bonus has at last found a city in California that wishes to invest in such a property.

Duncan McPherson and B. F. Booth, of Santa Cruz, returned from Dallas last evening, where they had gone as a committee from their home town to inspect the machinery of the Pioneer mill and if it met with their approval to accept a proposition from the management of the mill, in behalf of Santa Cruz. This little city of 7000 people propose to move the machinery from Dallas and add to it as much more new machinery from the east and place it in a building erected by the people on lands donated by them. It is estimated that the mill will cost the people of that town a little over \$26,000, and it speaks much for the enterprise of the inhabitants of that place, that they are willing to donate so much to encourage an industry of this kind in their midst. It is understood that the committee is well satisfied with the property examined yesterday, and will accept it within a few days. Oregon will thus lose an enterprise and the little city of Dallas will be a great loss. Messrs. McPherson and Booth left for home last night, pleased with their trip to the Willamette valley and their successful deal with the owners of the Dallas Woolen mill.—Statesman, Sept. 30.

The Galveston papers of Saturday morning contain no mention of the great storm, though it broke upon the city at 5 a. m. The News says that "at midnight the moon was shining brightly and the sky was not as threatening as earlier in the night. The weather bureau has no late advices as to the storm (in the South Atlantic), and it may be that the tropical disturbance has changed its course or spent its force before reaching Texas." Nothing in the regular weather report indicated anything unusual; but before the Saturday morning papers were on the streets in Galveston the frightful storm had begun its havoc.

It Happened in a Drug Store. "One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. E. B. Granting, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I told her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial she did not find it worth the money. I told her that she could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial she did not find it worth the money. I told her that she could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial she did not find it worth the money."

Oregon Fruit. An item in a recent issue of the Minneapolis Journal states that in two weeks of September 100 car loads of fruit had been received in that city. Of this amount 60 car loads had come from Oregon and Washington, and 40 from Michigan, Indiana and Illinois. It is such facts as these that indicate in a practical way the wonderful resources of Oregon. A gentleman who has recently come to Portland from Minneapolis, informs the Telegram that Oregon apples sell readily in that city at \$2 and \$2.50 per box, and that no better fruit is anywhere than that which comes from this state.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating 'coughers' says a Col. in the army, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Kirkland Drug Co.

The third party candidates have declined the enthusiastic nomination tendered them by eighteen of their fellow citizens, chiefly because they have not yet made up their minds how they will vote this fall.
