The dude "sportsmen" from Portland went the game law amended so they can go out in their fine clothes on September 1st and shoot at China pheasants, or any and all things else that matter. As the law now stands, it is all right. Any shooting previous to October 1st will surely be the means of starting the extermination of these game birds. Let well enough alone.

Not in years has a stronger, grimmer, more vital tale of the sea been written than "The Bluffing of Johnny Crapand," by Patrick Vaux. It is in the Christmas "New Lippincott," which appeared November 21. The sea fight between a British torpedo boat and a French war ship takes place on a Christmas night anywhere in the future. The reader is hurried into the wickel sea and believing it, and in spite of himself becomes a part of the glorious fight.

Word was received yesterday in Salem says Tuesday's Statesman, that hops grown on the Dove place near Independence owned by Horst Bros., won the gold medal at the Paris Exposition. The Oregon hops were placed in competition with every hop-growing country in the world and it is a source of much pride to Oregon growers that the hops grown here are the best the world produces, according to the most competent judges. This will make Oregon hops sought for from every quarter of the world more than they are at the present time, and insures for the product of the state the top price in the markets of the world.

Bavarian Hops.

Riley Cooper was somewhat surprised and much pleased last Tuesday by the receipt from the U. S. Department of Agriculture at Washington of a bunch of 25 cuttings of Bavarian hops. As the cuttings were not asked for, Riley believes that he "has a friend at court" who recommended him as one capable of giving this variety of hops a fair and thorough test.

A description of the hop is as follows: The cuttings came from Bavaria, Spalt, Germany, and were received through Mr. D. G. Fairchild, Nov. 19.

"Cuttings or 'face' of the finest Spalt hops grown in the restricted area of Spalt, Bavaria. These Spalt hops are renowned throughout Germany as next to Saas and Anacha, the best in the world. They are exported from here in considerable quantities to America, where they are used by the large brewers in the manufacture of their finest beers. In planting these cuttings it should be remembered that they have been taken in October and transported to America and may suffer in vigor by the unusual treatment. The cuttings are here planted four or five together in one hill, being placed upright in the ground some three inches apart and covered about 11 to 2 inches with soil. The hills are from three to four feet apart each way. The soil, which is the most important item of any in hop culture, must be a sandy loam. In Spalt in a disintegrated red sandstone similar to the soil in the Bohemian hop region of Saas. Only in the small region about the little village of Spalt do these famous hops develop their fine aroma and valuable lupulin contents. Before planting, the soil should be carefully worked to a depth of 2 1/2 to three feet and the culture should be scrupulously clean during the season. This is not a heavy bearer, one pound per pole being the maximum. Its value lies in its superior quality of aroma. The best grade of hop from which these cuttings are taken brings this year on the Spalt market over 30 cents per pound. Great care should be taken that no male hops are grown near these Spalt hops as their presence induces a heavy seed production and an immediate lowering of the quality of the yield. Harvesting, sulphuring, etc., as usual."

Non-Partisan Convention. Early Wednesday morning, H. M. Lines circulated the following petition or call and had no difficulty in obtaining signatures:

"We, the undersigned, citizens of the City of Independence, hereby issue a call for a convention of our citizens to meet on Wednesday evening, November 28th, at the hour of 7:30, in the City Hall, for the purpose of nominating a citizens' ticket to fill the vacancies of the offices now expiring, as follows:

"One Mayor, one Treasurer, one Recorder, one Marshal, each for the term of one year; and one Councilman from each ward for a term of two years, and doing such other business as may properly come before the convention."

L. J. Price, Andy Wilson, S. B. Irvine, P. M. Kirkland, B. M. Atkins, E. E. Padlock, R. H. Knox, W. H. Craven, A. J. Goodman, D. W. Sears, Otis D. Butler, H. E. Wagner, C. R. Wagner, H. M. Lines, L. C. Gilmore, K. C. Edinger, D. Calbreath, E. L. Springer, J. D. Irvine, J. A. Mills, J. L. Stockton, F. E. Chambers, W. F. Campbell, Joe A. C. Brant, Zed Rosendorf, M. Merwin, J. B. Cooper, E. L. Gale. The meeting was called to order and on motion Dr. O. D. Butler was made chairman and J. D. Mills secretary.

With the exception of councilman from first ward, all nominations were made by acclamation as follows:

Mayor—J. L. Stockton. Treasurer—C. W. Irvine. Recorder—A. J. Tupper. Marshal—A. J. Tupper. Councilman, 1st ward—H. M. Lines. Second ward—J. W. Kirkland. Third ward—T. B. Huntley.

The meeting was harmonious and good feeling prevailed throughout.

The Newberg dairymen association deserves credit for the self-sacrificing perseverance members show in endeavoring to place the dairy interests of the community before the farmers of this neighborhood. They are now arranging to have public meetings held at outlying points with the intention of getting the farmers interested in the industry. It is certainly a very good sign that those who are now patronizing the creamery have an abiding faith in its future, and they are certainly to be commended for their persevering efforts toward persuading others to act for their own interests, as well as for those of the community.—Newberg Graphic.

A man who has an opinion and the courage to express it is a man who is valuable in the community. It does not matter where he stands, whether behind the counter, or in the editorial room or behind the pulpit. If he thinks and has the courage to back up his thoughts, and the intelligence to express them—he is worth a thousand times more than the truceless boot-lick, the go-between; the tale bearer of the hypocrite who is all things to all men. The day for honest opinion is today and tomorrow.

George Elliott and Robert Manning were in jail the first of the week on charges of stealing overcoats from Layton Smith's and the hotel. Elliott was also charged with having collected money for the Portland Art company and not paying same to the company. The prisoners had a preliminary hearing before Justice Irvine on Monday. The justice found the young men guilty and sentenced each one to pay a fine of \$35 or in default, spend 17 1/2 days in the county jail. Not being able to pay the fine they were escorted over to Dallas and will visit with Sheriff VanOrdele the allotted time. In regard to the charge against Elliott of obtaining money under false pretenses, the charge was dismissed, on motion of the prosecuting attorney, as the case can be taken up at Dallas on release of the accused from serving his sentence.

Hops.

The Oregon hop crop moved out with a rush this season, and out of a total of nearly 90,000 bales, not to exceed 6000 bales remain on hand. But few, if any, of these are equal to the export stock that has been shipped foreign, but they are still of very good quality, and will bring under present conditions of the market about 1 1/2 to 1 3/4 cents per pound. All of the old crop is out of the way. The Waterville Times, printed in the heart of the New York hop district, under date of November 13, says:

"There has not been much doing since election, and the reason attributed is that the holders of the remaining lots are very firm, refusing the offers made by buyers. One buyer said he has offered 17 cents for several lots recently and was unable to get them. Offers of 18 cents have also been refused. It is evident that those who have a fine hop are going to hold out for 20 cents for a few weeks, at least.

A large quantity of hops for export is blockaded in New York harbor, and as a result ocean rates have increased 20 cents per hundred. Until shippers pay the increased price the blockade will not be broken. For several weeks the docks have been crowded with bales of hops, a goodly portion of which are Pacific coast hops."

From the latest reliable reports, the hops remaining in the hands of the growers are as follows:

WASHINGTON. Yakima 3927. Puyallup 392. White River 3000. Chehalis 1400.

OREGON. Willamette Valley 6000. Sonoma 2000. Sacramento Valley 3000. New York 10,000.

Total 31,719.

In a recent number of the Cosmopolitan, Dr. Reike has some useful advice to give in regard to the care of the eye. The most important thing of all, he says, in order to take care of the sight is to get sufficient light to work and read by. The most desirable location of a light to read by is from above, behind, and to the left of the body. Of artificial lights the incandescent electric light is the best though the use of incandescent mantles has greatly improved gas-light. Where coal oil is the only illuminant the so-called student lamps make a very satisfactory light.

Few people know how war comes to be fought. It seems easy enough to line up against an enemy on land or water and open fire. But this would never do. There are a myriad of things to learn before the rudiments even, for war, are mastered. At the Naval War College at Newport, Rhode Island, these things are taught to officers of the navy. They have sham battles on paper and go over the ground (or water) which some day may be a field of campaign. In the December "New Lippincott" Magazine Lieutenant Elliott U. S. N., tells how this is done, and his maps and text make it all very clear and interesting. Strangely enough the sham fight that he deals with is a two years' anticipation of the real one at Santiago.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Poteau, Ark. "It cured my bloody flux, I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. The Irl R. Hicks 1901 Almanac. Whatever may be said of the scientific cases upon which the Rev. Irl R. Hicks bases his yearly forecasts of storm and weather, it is a remarkable fact that specific warnings of every great storm, flood, cold wave and drought have been plainly printed in his now famous Almanac for many years. The latest startling proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof. Hicks in his 1901 Almanac, as one of disaster by storm along the Gulf coast. The 1901 Almanac, by far the finest, most complete and beautiful yet published, is now ready. This remarkable book of near 300 pages, splendidly illustrated with charts and half-tones, goes as a premium to every subscriber who pays one dollar a year for Hicks' Journal, Word and Works. The Almanac alone is sent prepaid for only 50c. Order from Word and Works Publishing Company, 2201 Locust street, St. Louis, Mo.

A Good-Sized Deal. Last week A. J. Johnson, one of Seio's most prominent citizens, completed a deed whereby he disposes of his entire interests in Seio, for a stock farm in Polk and Benton counties, comprising 4,250 acres. The deal has been on for some time past, and last week the owner of the farm, Mr. E. P. Caldwell, came over here and looked over our city and was so favorably impressed with it that he at once closed up the trade. He gets possession of one-half interest in the Seio roller mill, a controlling interest in the Bank of Seio, and Mr. Johnson's residence property in this city, including barn lot and garden. The exchange of property will be made inside of 30 days from date of trade, and Mr. Caldwell will then take Mr. Johnson's place in Seio business circles.—Seio News.
