The two counties in Oregon which have always done the most to keep up the Oregon Dairymen's Association are Linn and Washington. In proportion to the extent of its dairy industry, Columbia county does equally well. Albany and Hillsboro have proved themselves the champion towns in the entertainment of the association and both are destined to become important centers of the dairy industry in the Willamette valley.—Oregon Agriculturist.

CORDWOOD taken on subscription at the WEST SIDE office.

A train on the Astoria railroad ran into a slide last week and was wrecked. Two boxcars next the engine prevented the passenger coaches from going into the river. An Astoria paper says the boycott against the O. R. & N. diverted traffic to the railroad, and was accountable for the boxcars in the train. Therefore the paper concludes, the boycott is profitable. After all, our views of things in this world depend a great deal on the way we look at them.

Lodge Notes.

Lyon lodge No. 29, A. F. & A. M., will meet tomorrow evening.

Our K. P. boys are waiting patiently for that invitation from the Salem lodge to go over and assist in the housewarming of the new quarters.

The Odd Fellows had quite a lively time Tuesday evening. The camp "took in" five members and all the "boys" from the surrounding country came in to see the fun.

Hildebrand, S. W; A. E. Smith, J. W; W. I. Clodfelter, S. B; H. F. Shafer, J. B. After the work was done all hands sat down to appropriate and appetizing refreshments.

The local lodge of Foresters is booming just now. A special deputy has been working in this section lately who secured 13 names at Dallas and 5 at Airlie as applicants for membership.

Hunters Look Out.

The English partridges arrived on Monday morning. Shortly after dinner Al Herren and Marsh Merwin took the two dozen birds down to the O'Brien farm and turned them loose.

Here good care will be given them and no hunting allowed. The birds seem small, not much larger than our native quail, and they are as wild as can be, probably from their long journey.

Hunters who think they will be shooting English partridges within two or three years should remember that there is a law in operation which gives protection to these birds for the next four years. As the sportsmen who have the matter at heart do not consider this a long enough period, the legislature will be asked to extend the closed period for one year. The law was passed a year ago, as it was thought the birds would arrive at that time, but there was some trouble, so that if an extension of a year is granted, it will merely have the effect of the original law.

In nominating Mr. Corbett for U. S. senator on Wednesday, Mr. B. F. Mulkey, of this county, said he represented the wishes of his constituents; that he was elected in a Democratic county, etc. Since when did Polk county become Democratic? It used to be, so the WEST SIDE is told, but is now Republican by one hundred and fifty. Of course local likes and dislikes go a long ways in a county election which accounts for a "spotted" list of officers sometimes.

Representative Tongue gave a good account of himself Monday in his answer to Cushman, of Washington, and reflected credit on his district and state. His most signal service, however, was in rebuking the mean the mean spirited opposition to river and harbor work. Few men in congress are more capable in debate than is Mr. Tongue, and as he had right on his side, his effort was not only creditable, but effective.—Oregonian.

Willard Herren, an old-timer of this section and one of the principal sheep men of the county, was in town the latter part of last week, shaking hands with old friends. Willard is an old-time friend of the acting editor of of this office, and we have not had the pleasure of seeing him for nearly ten years, but he is the same old boy we knew twenty-five years ago in Salem, when we were younger than we are now. He and his brother own an extensive band of sheep, and Dame Fortune has been kind to them. They have accumulated quite a little of the necessary needful for a rainy day.—Arlington Independent.

The Irl R. Hicks 1901 Almanac.

Whatever may be said of the scientific causes upon which the Rev. Irl R. Hicks bases his yearly forecasts of storm and weather, it is a remarkable fact that specific warnings of every great storm, flood, cold wave and drouth have been plainly printed in his now famous Almanac for many years. The latest startling proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof. Hicks in his 1900 Almanac, as one of disaster by storm along the gulf coasts. The 1901 Almanac, by far the finest, most complete and beautiful yet published, is now ready. This remarkable book of near 200 pages, splendidly illustrated with charts and half-tones, goes as a premium to every subscriber who pays one dollar a year for Hicks' journal, Word and Works. The Almanac alone is sent prepaid for only 25c. Order from Word and Works Publishing company 2201 Locust street. St Louis, Mo.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Pullman company now operates two grades of sleeping cars via the Rio Grande Western railway. The ordinary sleepers are entirely new, and the berths both upper and lower, are fitted up complete with mattresses, blankets, sheets, pillow, curtains, etc., with stoves arranged for making tea, coffee, etc., requiring nothing to be furnished by passengers. Uniformed Pullman porters are in charge of the cars, who are required to keep them in good order and attend to the wants and comforts of passengers. The cars are very handsome and commodious, and while not so elegant, are just as comfortable as standard or palace sleepers. Both first and second-class passengers are permitted to occupy these cars on payment of the Pullman berth rates, which are less than half of the rates charged in the regular Pullman palace sleeping cars.

The ordinary sleepers are carried daily on trains via Rio Grande Western railway between Denver and San Francisco and Portland. On five days in each week the sleepers are run through between Los Angeles and San Francisco, or Portland and Denver, Omaha, Chicago and Boston.

The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect.

This will offer

an opportunity for anybody to wear a new suit of clothes, an Overcoat, or a new pair of Shoes. I must sell goods because I am indebted so much that I have to sell at any price in order to get **Cash** to pay what I owe. Remember better take advantage of this opportunity and buy whatever you need. You will get first class goods **at less than wholesale price.**

Just show me the money, and you can

Have it Your own way.

A fair inspection of my goods will convince you that the prices are all right. The one who **Needs Money is**
