Mrs. Mary Sparr, who resides a few miles from Salem in Polk county, complains that her husband, Wm. Sparr, is an insane person and should be committed to the asylum for treatment. Mr. Sparr has been acting strangely for several months past and it has been quite evident to all who knew him that his mental condition was gradually growing worse. He was a witness in the Magers case a few years ago and he now imagines that the part he took in it was the cause of that man's conviction of the crime of murder and his subsequent execution. This has preyed upon Sparr's mind ever since and is no doubt the cause of his insanity.

Scattering and absent ..... 3

Come, boys, the time is getting short; you've had your fun; elect a senator and end the suspense.

**Find the Missing Word.**  
We today offer our readers something entirely new and original in the missing word contest business. It is this: A good church deacon accidentally sat down on the business end of a carpet tack. He at once sprang up and said only two words. The last was "it." Any person guessing the first word and sending us a \$1.00 in cash will be entitled to The West Side one year.

Publicity is the order of the day. Vast sums of money are spent in advertising, a good proportion of which is wasted because the proper medium is not selected. The Inventive Age and Patent Office, of Washington, D. C., is now entering upon its thirtieth year, and is the only journal published at the national capital, out of the Patent Office Gazette which costs \$5 a year containing full information about the latest patents granted. Its pages are replete with ordinary matter making it interesting to the ordinary reader. It is improving with age and is today the foremost journal of its class. The subscription price is \$1 a year, and it may be ordered through this office.

On Monday F. A. Doney started a gang of artists at work remodeling his store building so as to accommodate his new stock of general merchandise now on the way. This will be one of the biggest additions to the business of Independence yet started this year.

**EASTWARD**  
**The Great Salt Lake Route.**

The traveler, tourist or business man is wise when he selects the Rio Grande Western Railway, "Great Salt Lake Route" for his route to the East. It is the only transcontinental line passing directly through Salt Lake City, and in addition to the glimpse it affords of the Temple City, the Great Salt Lake and the picturesque Salt Lake and Utah Valleys, it offers the choice of three distinct routes through the mountains and the most magnificent scenery in the world. Tremble daily train service and through Pullman and Tourist sleeping cars between Portland, Huntington, Butte, Denver and Chicago in connection with the Oregon R. R. & Navigation Co. and Oregon Short Line.

For pamphlets descriptive of the "Great Salt Lake Route" apply to J. D. Mansfield, General Agent, 253 Washington, Portland; or Geo. W. Heinz, A. G. P. A., Salt Lake City.

**In Oregon.**  
Millions of acres of the best lands left in the gift of the government are in Oregon. Soil that yields from three to five harvests of wheat for one seedling in Oregon. Over 20,000,000 acres of forests, that produce from 25,000 to 250,000 feet of timber to the acre—in Oregon. Pastures that turn out 250-pound sheep and 2000-pound cattle—in Oregon. More than 14,000 square miles of mineral lands, rich as the richest in Colorado, California or the Klondike—in Oregon. A climate that is unsurpassed—no winter cold, no summer heat, no blizzards, no droughts and no crop failures—in Oregon.

Oregon is reached directly and quickly by the New York Central lines and their immediate connections.

A copy of "Round the World via New York and Niagara Falls," will be sent free, post-paid, on receipt of a postage stamp by George H. Daniels, G. P. A., New York Central Railroad, Grand Central Station, New York.

Mr. Eldridge, manager of the Independence, Oregon, creamery, says Polk county has the best winter roads he has ever seen in Oregon, and he has traveled over a large portion of it. Still, we guess Mr. Eldridge would not contend that they are anything to brag about, excepting in the way of comparison. There are yet only a very few good winter roads in Oregon, though it will be admitted that some are better than others. But the well settled portions of Oregon could afford to build good roads, and would if the proper legislation were enacted.—Homestead.

The dry spell lasted about a month but is not believed to have done any damage.

There are two methods of letting sheep graze. One is for the owner to furnish the sheep to the tenant and receive half the wool and half the increase. The other party furnishes all the feed and care necessary for the flock. The owner of the sheep usually holds the manager if the original owner. It will require very little calculation to show that the manager is paying pretty stiff interest on the money he has invested in his sheep. The other plan is to let the sheep on a three or five years lease. The party of the first to furnish the sheep and the party of the second part the care and keep of the same. At the end of the third year the owner is to have double the number of sheep let, sex for sex and age for age. The second party to own and keep all the rest. It is better to borrow the money and buy sheep than to take them on either plan, even if a mortgage has to be given on the flock as security.—Itemizer.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson of Hamilton, Ore., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism. Sold by Kirkland Drug Co.

The Salem Flouring Mills company will begin, in about two months, the erection of a new mill on the site of the one destroyed by fire a year and a half ago, says the Statesman. The new mill will be in a commodious frame building, and will have a daily capacity of 200 barrels or more. The only matter that causes any delay in the commencement of the work is the fact that the mill crop will again fail, but it is believed that by the first day of April the wheat will be far enough advanced in growth to make a good crop reasonably certain. When the work is once started it is proposed to push it to completion so as to be in readiness to handle the coming wheat crop. The acreage of wheat, notwithstanding the partial failure of the crop last year, is almost as large as of former years, and it does not seem that there can be any reasonable doubt but that a large crop will be harvested next season.

We offer One Hundred Dollars Reward for any one who can tell us the name of the man who stole the \$100,000.00 from the First National Bank of Portland, Ore., on the night of Jan. 1, 1901.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

We are a firm of wholesale druggists, Toledo, O. We have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

The undersigned have taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold all druggists. Free trial bottle.

**The Census.**  
Is it worth while for Independence business men to make a record of the residents and disprove the report of the census office official? Many of our citizens are positive that a record will show an increase but doubt whether the procedure will be of any use to the town other than to satisfy the people that they were "jobbed." Many other towns kicked at their returns, and what good did it do them?

Drying preparations simply develop dryness; they dry up the secretions, which adhere to the membrane and decompose, causing a fur or cold in the head, the ordinary form of catarrh. Avoid drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh of the head easily and pleasantly. A trial size will be mailed for 10c. All druggists sell the 50c size. Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Our local politicians are getting almost as anxious to see the end of the senatorial struggle as the politicians of greater note. A number of them from this county are in almost constant attendance at Salem.

The claim of other cough medicines to be good as Chamberlain's is refuted by the testimony of Mr. C. D. Glass, an employee of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding colds and coughs in the winter of 1900, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houshman and he advised me to try Chamberlain's Cough Remedy, and offered to pay me back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy and have since always turned to it if I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines." For sale by the Kirkland Drug Co.

**The Irl R. Hicks 1901 Almanac.**  
Whatever may be said of the scientific value of the almanac, the Irl R. Hicks Almanac is a remarkable fact that specific warnings of every great storm, flood, cold wave and drought have been plainly printed in his new famous Almanac for many years. The latest startling proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof. Hicks in his 1901 Almanac, as one of disaster by storm along the Gulf coast. The 1901 Almanac, by far the finest, most complete and beautiful yet published, is now ready. This remarkable book of over 200 pages, splendidly illustrated with charts and half-tones, goes as a premium to every subscriber who pays one dollar a year for Hicks' Journal, Word and Works. The Almanac alone is sent prepaid for only 25c. Order from Word and Works Publishing company 2201 Locust Street, St. Louis, Mo.

**Free to Inventors.**  
The experience of C. A. Snow & Co. in obtaining more than 20,000 patents for inventors has enabled them to actually answer many questions relating to the protection of intellectual property. They have done this in a pamphlet, written briefly of failed states and foreign patents, with cost of same and how to procure them. (Trade marks of failed states and foreign patents included in leading patent cases, etc.) This pamphlet will be sent free to anyone writing to C. A. Snow & Co., Washington, D. C.

**Southern California.**  
Notable among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Routes are regularly run to these sections will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its profligate vegetation and among its numberless resorts of mountains, shore, valley and plain.

The two daily Shasta trains from Portland to California have been re-routed so that the winter season will be a season of standard and tourist sleeping cars, but the low rates of fare will all continue in effect.

Illustrated guides to the winter resorts of California and Arizona may be had on application to C. H. MARKHAM, G. P. A., Portland, Oregon.
