A dispatch by grapevine telegraph from Independence says that Senator Corbett having failed election, Landford Stark's chances for the office of Indian agent at Grand Ronde reservation have gone glimmering, and it is now generally conceded that the plum will fall to our jovial friend Dave Sears. The "Governor" would prove an excellent man for this important position.—Dallas Observer.

The fire boys had a good meeting Monday evening. Representative Hawkins was present and made some fun for them. When the roll was being called, it is charged that Hawkins answered "Cor—here." He was so imbued with the fact that he stood by Mr. Corbett through the entire legislative session that he doubtless answered mechanically when the fire company secretary called his name.

Although it may not be generally known outside of this section, yet it is a fact that a great many people within hearing depth for time on the water works' whistle at morning, noon and night. I. D. Driver, jr., on Saturday was telling the West Side man about a young thoroughbred bull which he had purchased from the Ladd farm in Washington county and how the boys with worthless dogs and air guns had tormented said animal until he has become somewhat vicious and dangerous. On Friday a young man with a pug dog entered Mr. Driver's pasture. The bull took after the dog; the dog ran to the boy; the boy went up a tree that was luckily near. The bull caught the dog and drove one horn through the animal. The young man holloed until Mrs. Driver heard the racket and hurried her husband over to the scene of the trouble. The bull was so infuriated that Mr. Driver couldn't go near him, so he got his shepherd dog and hurried Mr. Bull away and released the young man from his predicament. Mr. Driver doesn't object to people crossing his farm but desires to warn everyone to look out for the bull.

Whatever setback the creamery business may experience in the Willamette valley will be only temporary. The farmers of this region have similar human dispositions to those of other portions of the earth and they are liable to the same changes and moods. The rule has been in creamery regions for farmers to withdraw their patronage after the first or second year's contract with them, but in another year or two they return to the creamery business again with more conservative expectations and with better understanding of it, and then it becomes permanent and prosperous. It will be so here.—Salem Statesman.

It is not so much what the newspapers say, as what neighbor says to neighbor, of friend to friend, that has brought Chamberlain's Colic, Cholera, and Diarrhoea Remedy into such general use. It is natural for people to express their gratitude after using this remedy as it is for water to flow down hill. It is the one remedy that can always be depended upon, whether a baby be sick with cholera infantum or a man with cholera morbus. It is pleasant, safe and reliable. Have you a bottle of it in your home? For sale by Kirkland Drug Co.
