One of the busiest men in Independence on Tuesday was Mayor Stockton. The new bonds were received in the morning and the mayor was on the go all day getting the bonds ready for delivery in Salem on Wednesday. There were 5000 spaces to be filled, besides the mayor's and recorder's signatures, which job Councilman Mills undertook to do. The total of \$8000 is divided up into 39 bonds all of which, except one, were taken in Salem.

Andy Tupper, our efficient city marshal, has caused the following notice to be posted conspicuously in the city park: "Comes making love should beware of the rubber plant. While strolling through the park don't speak to the birds—they carry tales. All the animals are not in cages, there are some dangers on the lawn."

A new word has come to life from the plains of Kansas. Its significance is this given by the Wichita Eagle: "A word recently came into frequent use in Kansas is 'buffaloed.' It has a delicate shade of meaning. A man who is scared is merely awakened into the activities of defense; a man who is buffaloed is one who is so badly scared that he believes defense impossible, but a man who is buffaloed not only believes defense impossible, but can't work up enough locomotion to run."

Billiousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by Kirkland Drug Co.

Weekly Crop Bulletin.

Portland, Ore., Monday, April 29, '01

The first part of the week was cool, with several frosty mornings. A change to warmer occurred Saturday, and since then mild temperatures have prevailed in all parts of the state.

Light showers have frequently occurred in western and southern Oregon, and Sunday and Monday were showery days in eastern Oregon, with the indications favorable for more rain Tuesday in that section.

Fall wheat, rye and oats are doing nicely, although on account of the cool weather they are making a slow growth. Spring wheat is nearly finished, and the grain is germinating well. The color of the grain is improving every day, and no insect pests are damaging it.

Hops are coming up even, and there is no complaint about missing hills, as was the case last year. The training of the vines is beginning to be general.

Gardens continue backward, but otherwise they are in a promising condition.

Clover and Alfalfa are growing nicely, but there is a shortage in pasturage, and stock is not improving so fast as usual. In the dairy section of the state considerable feeding has to be done to avoid a shrinking in the supply of milk.

Reports of damage to the fruit crop by frost are numerous, but not general. Considerable strawberry bloom has been killed in Southern Oregon and in Hood River valley. Besides the strawberries, peaches, apricots, pears, silver plums and cherries have suffered the most from frosts. The Italian or Follenberg plums are nearly through blooming, and the young fruit has set well and gives promise of abundant yields. Apples in most places are now in full bloom and as yet they have suffered no harm from frosts.

Old Soldier's Experience. M. M. Austin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c at Kirkland's drug store.

Two farmers in Corvallis Monday complained that China pheasants were being killed and brought to town from the southern portion of the county for the market. They were justly indignant at this open violation of the law, and there is no doubt if the practice is continued that the law breakers will get into trouble. One of them said that if a neighbor would be less careful for complaint, but when it came to killing pheasants for the market it was quite another and a serious matter.—Times.

During the season of the farmer's institute, recently held at Myrtle Creek, Dr. James Withycombe, of the O. A. C., made the statement that he believed that every three acres of land would, if properly handled, support two cows and yield \$100 per year. Of course much would depend upon the quality of the land and the way it is cultivated. Whether or not such a record can be made general may be doubted, but it has been demonstrated that intensified dairying brings profitable returns.

A Sprained Ankle Quickly Cured. "At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and I am pleased to say that relief came as soon as I began its use and a complete cure speedily followed. This remedy has also been used in my family for frost bitten feet with the best results. I cheerfully recommend its use to all who may need a first-class liniment." Sold by Kirkland Drug Co.

When doctors say that an operation is successful, they mean that they found what they looked for and cut it out; they don't mean that the patient has recovered, or will recover.

Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. It is not beneficial if it will not cost you a cent. For sale by Kirkland Drug Co.

State Fair Premium List Out.

Secretary M. D. Wilson has just received from the printer the state fair premium list for 1901. Over \$10,000 is offered for premiums on livestock and farm products, and is by far the largest and best premium list ever offered in this state. The list has been thoroughly revised and brought up to date in every department. New premiums have been added, and others increased on articles most worthy of merit. Oregon can boast now of a complete and liberal list of premiums as any state in the Union, and if hard work and earnest effort on the part of the management counts for anything, the fair itself will compare favorably with those of older states, and will be the best ever held this side of the Rocky mountains.
