The Chinese peasants have already sent first batch of young birds. Farmers tell the West Sun that the outlook for a big crop of these birds this year is very promising.

Boys have begun the annual or rather eternal throwing of rocks and breaking windows. The Presbyterian church had nine windows broken last week and reports keep coming in of other damages. Sperling Bros. now sport a couple of six cutting blocks as can be found in the state. They are made out of the finest of birch maple of 2-inch stuff bolted together, and as solid as a rock. They were made by Baker and Bohannon, who as mechanics are to be reckoned among the best.

Another batch of "hog meat," consisting of hams, shoulders and sides has just been received by one of our grocers. It is too bad that the Willamette valley, with its great resources, cannot raise enough hogs to supply the home market. Instead of importing meats from the Chicago packing houses and selling to the farmers, the process ought to be reversed.

Jim and New Prather, of Buena Vista, have the contract to deliver about a million feet of logs from the mouth of the Luckiamute to the Salem millering company. Wells, Ed Prather, John and Dow Baldwin.

William R. Beaver, miller at the Collins' mill has made a machine that takes the place and does the work of six other machines. It looks very simple, but as simple things are valuable sometimes, this machine will revolutionize matters in the milling business, as it lessens the cost of machinery besides making a big saving on fuel for power. Mr. Beaver, as well as Mr. Collins, is well pleased with the machine's work.

Try them and you are certain to be much pleased with the result. For sale by Kirkland Drug Co.
