FRIDAY, JUNE 14, 1901

A good many more or less prominent statesmen have reversed the Supreme court of late without any perceptible effect on that body.

A West Virginia man was recently declared dead by the doctors, and afterwards fined by the police for being only dead drunk. The question is who is the joke on.

Admiral Schley will of course be overjoyed to wear a Santiago medal with Admiral Sampson's head on it.

We don't hear very much about the Texas oil wells that don't spout, so to speak. And yet there must be many such.

Mrs Eddy, the Christian Science leader, had to testify by deposition in a recent suit, she being too feeble to go to court. Of course this feebleness was altogether imaginary, and her satellites should have been able to pray the delusion out of her mind.

If John Bull had good hard sense he would try offering every Boer forty acres and a mule, and see if that would end the war.

California is going it a little too strong when it lynch five men for petty thievery. If lynching cannot be abolished, it certainly should be restricted to the most heinous of crimes.

Orthodox Mohammedan Turks shave the head with the exception of a tuft on the crown, which is left to insure a tight grip to the angel of the resurrection when he comes to pull them out of the grave on the day of judgement.

Many Chinese temples are provided with a bell at the entrance, and when the worshiper enters he gives the rope a pull and rings the bell in order that the Deity may be notified of his coming and be on hand to attend to his business.

A tombstone for a man who died in 1859 has just reached Louisville from Philadelphia. This may be considered to prove that the City of Brotherly Love is dead now.

The joke of the Pan-American Exposition is on the capitalists who built the mammoth Slater Hotel, with nine acres of sleeping-rooms, three miles of halls, and a dining room to feed 5000 persons. On the opening day 286 employees were on duty at the hotel. The one guest, Mr. Wilson of New York, humorously complained to the officers of inattention on the part of the servants. Mr. Wilson only stayed one day and the management is looking for some one to take his place.

The usual summer force of forest rangers to protect the forest reserves of Oregon and Washington were taken on the payroll about June 1, as in seasons past, and will be retained through the dry summer months. The force this year will be about the same size as that which was employed last summer, and in making the appointments due preference will be given to those who were employed as rangers during past seasons. There will be from forty-five to fifty rangers both in Oregon and Washington. Inasmuch as this force was competent to properly guard the forest against fires and depredations a year ago, there is now no apparent necessity for making any increase in numbers.

Inasmuch as Secretary of State F. I. Dunbar has made such an efficient officer, having been highly complimented by a legislative committee for his business-like system in the office, we do not see where the Republican party will gain any thing by putting him on the shelf and trying a new man.

The Corvallis Gazette gets hot because the West Side said last week that farmers living nearer to Corvallis than to Independence, hauled their wool to the latter place because they received a cent more a pound for it; and the Gazette questions the truth of the statement. Brother, its true, despite your denial. At the time mentioned we heard two farmers talking in front of a wool buyer's premises; one said he had been to Corvallis the day before, and the best he could get for his wool was 12 cents, but the man whose premises they were in front of had offered him 13 cents. And the other man corroborated his statement. They both brought their wool to Independence the next day although they lived within a few miles of Corvallis as stated. The man to whom they sold their wool has already received 75,000 pounds this season.

WASHINGTON LETTERS.

Washington, D. C., June 3, 1901. Secretary Hay has instructed Ambassador Choate to issue American passports to two Filipinos in London, who had applied for them and been refused, and the department of state is now preparing a general letter of instructions to all U. S. ministers to issue passports to all residents of our island possessions, who apply for them. This is on the general ground that acts of the late congress give residents of the island's those rights, superseding the U. S. statutes which prohibit the issuing of passports to any but American citizens.

Capt Geo Bryan, who recently returned from the Philippines, where he served with the Volunteers thinks the islanders have a great future. He said: "I consider it a very favorable sign that so many of our boys are remaining in the Philippines after the expiration of their terms of enlistment. They are the men who will develop the country and in time convert it into an American territory fit for statehood. I am no believer in the notion that the Filipinos will never be fit for American citizenship. Fix a just educational test, and the Filipinos who pass it will be as desirable citizens as were the negroes when the right of franchise was conferred upon them. A knowledge of the English language should be one of the chief features of the test, for learning English the Filipino will get an adequate idea of American institutions. I believe that in a quarter of a century, the Filipino youths who are now in school, will be as fit for citizenship as is the average negro, and much superior to many Italians and other foreigners whom we admit into the U. S. and allow to vote after a few years residence. I cannot see that there is such a thing as a Philippine Problem. It seems to me that the course is straight away ahead, and that only time is necessary, coupled with wise and just government, to work out inevitable results that will be to the everlasting glory of the American republic."

Although the Attorney General gives an opinion that claims resulting from the destruction of the battleship Maine are national and not personal, and are barred by the Treaty of Paris, the Maine claimers are still being filed with the Spanish Claims Commission, by sailors who survive and by the heirs of those who lost their lives. Opinion differs as to whether the Attorney General's opinion will be upheld, but the chances are that it will be, as it would be very embarrassing to this government to have the question of responsibility for the destruction of the Maine passed on by the Spanish Claims Commission regardless of how it might be decided.

The President of Venezuela must not be kept well posted on the sentiment of the U. S. Government. If he had been, he would have escaped the humiliation of being officially informed that the U. S. Government unreservedly indorsed acts of U. S. Minister Loomis that the President of Venezuela had harshly criticized in a published interview. It has been officially announced that Minister Loomis, who is now on a vacation, will not return to Venezuela, but will be given a place elsewhere in the Diplomatic service.

At the Farmer's meeting held at Brownsville on May 25th, the statement was made by H E Lounsbury that the average per cent of butter fat in the Willamette valley in Oregon is 43; in Minnesota, 3.8; in New York 3.4. Here are the figures says an exchange, in a definite form to show that the same feed here in many districts of the Northwest will make more butter than in the Eastern States. The climatic conditions are in our favor. It costs only three quarters of a cent more a pound to send butter by freight from Oregon to New York City than it does from Minnesota to the same point. The difference in cost of freight is more than made up by the more favorable conditions enjoyed by our farmers. This does away almost completely with the danger of over production. We should ere long have the greatest dairying section in the U. S.—in fact, the greatest dairying section in the world. It will only require intelligent effort along the lines that are already being established, to bring about this great result that will mean so much to every interest of our country. The dairying industry is the surest possible foundation for prosperity here. It is a basic industry. It brings a long train of benefits in diversified and intensified agriculture and commercial solidity.

An Indiana court has decided that it is all right to open a jackpot with a counterfeit dollar. By and by, some court will hold that one may be opened with a pair of deuces and then there will be some trouble.

A WORTHY SUCCESSOR.

All Doctors have tried to cure CATARRH by the use of powders, acid salts, rubbers and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while paste ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharge, and curing the inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER, COLIC, THE HEAD, CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is not an ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E006 EDWIN B. GILLES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

Center of Population.

The Census Bureau issued a bulletin announcing that the center of population of the United States, excluding Alaska and recent territorial acquisitions on June 1st last, was six miles southeast of Columbus, Bartholomew County, in Southern Indiana.

It is described as latitude 39 degrees, 9 minutes, 36 seconds and longitude 85 degrees, 48 minutes, 54 seconds. In ten years the center of population has moved westward fourteen miles and southward two and one half miles. This is the smallest movement ever noted by the Census Bureau. It shows the population of the Western states has not increased as rapidly as in former decades. The southward movement is due largely to the great increase in population of Indian Territory, Oklahoma and Texas, and the decreased westward movement to the large increase in the population of the North Atlantic states. The center of area of the United States, excluding Alaska and Hawaii, and other recent acquisitions, is in Northern Kansas. The center of population, therefore, is about three-fourths of a degree south and more than 13 degrees east of the center of the area.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Lignor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating the poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT! Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E906 EDWIN B. GILLES & COMPANY, 2330 and 2332 Market Street, Philadelphia. All correspondence strictly confidential.

Parker Pickings.

Pat Haley and wife were visiting sick relative here last week. Wash Gibson and wife of Wells, were in our town last week. J. L. Cotton, the merchant of Buena Vista, was among us doing business with the railroad company. "Oil but still in the ring" is his motto.

Dell Grigsby was making a bike ride from Corvallis, when the valve in one of his tires gave out. "Oh, no, I want't tire, 13 or 14 miles don't amount to anything, but I'll bet there will be a water famine up in that Wells country."

The Modern Woodmen of America, of Saver Camp No 7332, have taken complete control of Ed Fandor's hop yard, and being incapacitated by paralysis.

Wm. Fajus has rented 350 acres of pasture land from Jim Prater and Mrs. Anderson of Buena Vista.

Ralph Davidson has donated the blue (overalls) and is with us.

Mrs Wright and daughter are visiting her son-in-law, J. L. Davidson.

George Rauf is getting his buggy painted in town.

Rev. Lindsay of Independence, came up on Saturday's train.

Sonia Shives, of Buena Vista, went to the coast Saturday.

N. Tyler is hauling and loading clay in cars to be shipped to different points from Buena Vista, where they get No. 1 fire clay in large quantities. Mr. Tyler is also the deliver in clay at the clay pit on the Southern Pacific Railroad below town.

The excursion to Salem last Sunday was taken in by the following persons from this place: Cy and Will Bradley, Dick Harris, Charles Allen, R. W. Setick and wife and Miss Hattie Longhary. They report a good time, but say Salem is "bum" compared to our town.

Mrs. Daley and daughter arrived here Wednesday from St Paul Wis., on a visit to her sister Mrs. B. H. Pillar.

As this letter leaves, the country is deluged with rain, with a low temperature, but crops all look well.

The return of the Outlanders to the two Boer countries, which is taking on large proportions, is an indication that the world in general believes the war is near its end. And yet considerable fighting of the guerrilla order may take place before the last of the Boers lays down his arms. There is no diminution in the number of British soldiers in South Africa, and fighting is reported in some quarter or other of that region every week or two. No general resumption of gold mining need be looked for while any large body of the Boers remains under arms. This will mean that the figures of the world's gold productions will not reach a sensational height for the year, but when South Africa again begins to send in its yellow flood the talk of a gold deluge will be revived. Even with South Africa out of the gold producing business there is a big gain in the output of the metal every year in the world as a whole.—Globe Democrat.

Commenting on the West Side's "petition for backbone," the Salem Statesman says we are asking too much in one petition. We've done long enough to learn that we don't receive unless we ask; that by asking for much we might get a part of our petition granted. If we expect to succeed we can't do it by little weak prayers.

The Navy Department has held that bandmen are not required to play at divine services unless they choose to do so. But they may be "requested" to play by their commanding officer and it will be a bold bandman who refuses.
