WASHINGTON LETTER.

Washington, D. C. July 15.
Philippine facts at first hand are likely to be a specialty in the discussion of that subject, during the coming Congress, as a number of Senators and Representatives, of all parties are either already over there or on the way, with the avowed intention of gathering facts to lay before Congress. That some of these men will make the trip a mere pleasure junket, and that all are making it at the expense of the government, is true, but it is nevertheless a good thing that so many of the men who will legislate for the islands, will visit them before Congress meets. They will all find out some things, and Congress and the country need all the facts that can be had about the Philippines. To legislate intelligently for these islands is going to be one of the hardest problems ever tackled by congress, and it will be impossible to have too much information about them.

Although it was estimated that the reductions in internal revenues made by the last congress would reduce revenues of the government from \$50,000,000 to \$40,000,000 a year, the receipts from internal revenue for the first half of the month when the reductions have been in effect, have exceeded those for the first half of July of last year by about \$1,000,000.

This has been some what puzzling to treasury officials, the only explanation they offer is that changes in rates of taxation caused many manufacturers to accumulate goods, thus necessitating unusually large purchases of stamps as soon as the new law went into effect.

The civil service commission has referred the charges against the collector of internal revenue at Lewisville, Ky., of having violated the civil service law, to the president, with its views, which sustain the charges. It is not regarded probable in Washington that the president will soon take any action on the charges.

Hon. A. B. Kittredge, who has been appointed by the governor of South Dakota to fill the vacancy left by the death of Senator Kyle, will be one of the youngest men in the senate, as he is just forty.

Comptroller Dawes has ordered an assessment of 100 per cent on the \$500,000 capital stock of the Seventh National Bank, of New York City, which recently closed its doors under sensational circumstances for the protection of depositors, who will, it is said, not receive more than 80 per cent any way. The investigation to determine whether criminal proceedings will be taken against any of the officers of the bank is still going on.

Col. Bingham, superintendent of public buildings and grounds has made a record that opened the eyes of some of the old-time spenders of congressional appropriations, who have always made it a rule to spend the last cent of an appropriation made for any given purpose, by putting a new and thoroughly up-to-date electric elevator in the Washington monument, and having a balance left of the appropriation of \$25,500 for that purpose. The new elevator, which, with the exception of that in the Eiffel tower at Paris, is the largest in the world, will be greatly appreciated by visitors, as during the last three months the only way of getting to the top of the monument has been by walking up the steps and an ascent by that method, of 550 feet is not pleasant even to the most robust, in warm weather.

Give the devil his due. It is unfair to say that the Quay gang in Philadelphia has become so hardened in iniquity that it is impervious to insults. When an indignant Philadelphian the other day asked a councilman why he voted away millions in franchises for nothing he resented the insult promptly with the counter question: "How do you know we did it for nothing?"—Louisville Courier-Journal.

Professor Koch has discovered that the prowling microbe which has its abiding place in milk is harmless, but as water is a great disseminator of typhoid, his discovery does not exactly benefit the milkman.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while paste ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing the inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" THE GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD. CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E-606 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

Governor Shaw, of Iowa, last week pardoned S. R. Dawson, who in a frenzy but without justification had murdered his son-in-law, in order that Dawson's secret process of hardening copper and making Damascus steel may not be lost to the world. Dawson had specimens of copper tempered like steel, a knife blade of it having the keenness of a razor. But now that the murderer has been pardoned, will he give up his secret?

One of the oldest ideas of civilization is free baths for the people. It has been neglected in the United States, but will win in the end.

West Side and Oregonian, 1 yr, \$2.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Nuxious Doses, No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E-606 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

All correspondence strictly confidential.

The Bird on the Hat.

Volume have been written on the subject of the bird on the hat, and it is sometimes asserted that in spite of it all, this decoration is more worn than ever. But this may be doubted. At any rate, any woman who chooses—and a great many do choose—to wear a hat unadorned with the defunct body of a bird, can do so nowadays without appearing either singular or ill-dressed.

The hope of the Audubon Society and of various other organizations for the protection of birds, is that the time may come when a hat trimmed with plumage will be as curious an object as the feather crown of an Aeshanti chief. One thing is certain, if fashion ever does take a decided turn in this direction it is unlikely that the old barbarous custom will ever come back. It is so essentially ugly and unpleasant in its suggestiveness that it need only go out of style for a few years to be abhorred in its true light. But there are people who, if gloves and belts made of tanned human skin from the dissecting room happened to be the fashion, would wear them without more compunction than an Iroquois warrior felt in putting on his necklace of cut-off human fingers.

The custom of decorating women's hats with the plumage of birds is probably as old as head-gear itself, and may have arisen in part from the notion common to many savage tribes that the qualities of an animal slain becomes the property of the slayer. Moreover, before the invention of veils, gauze and lace, the feathers of birds were among the most beautiful things available for the adornment of the human head. Tradition is partly responsible for the persistence of the custom in the later days.

But there is nothing pretty in its later developments, however appropriate the wings or body of a bird might have seemed on the head of the hunter's wife. The modern hat is constructed to fit the modern face, and there is no beauty in the juxtaposition of a fair, intelligent, essentially civilized countenance and the body of a blackbird with its neck in a suggestive twist. It hints at ugly possibilities existing underneath the charm and grace of the wearer. As for the face which is not charming, or intelligent, or kind, the bodies of two or three humming birds or the head of an owl, speared with a hatpin and surrounded with bows of ribbon, lend to such a visage an aspect positively sinister.

It would be unjust, of course, to assume that there is real cruelty under all this passive obedience to the dictates of fashion. But since hats and bonnets quite as becoming and pretty can be developed without the bird decoration as can be devised with it, it does seem that women of sense and feeling might be contented without shocking the sensibilities of the Audubon Society and outraging the fitness of things by demanding a yearly sacrifice of bird life to adorn their heads. There was much sense in the report of the little boy who, when reproved by his pretty Sunday-school teacher for robbing birds' nests, and asked, in pathetic tones, where the poor mother was, replied "She ain't sufferin' none niss—she's on yer hat." There is no excuse of ignorance to be pleaded. The public has been told over and over again that wearing ospreys means the death of multitudes of helpless little birds, since the feathers are best at the breeding season and the parent bird must be shot then. The fact that birds of particularly fine plumage are often skinned alive has also been made known; and the silence of woodlands and meadows, where the milliner's agent has been, speaks for itself. It is about time this senseless and cruel fashion should go the way of nose-rings and war-paint.

The oldest specimen of paper money has turned up in China at the age of 534 years. Its face value is \$167, and it purports to be redeemable in silver bouillon. Its prospect of redemption vanished centuries ago. China had shien-plaster populists as early as 140 B. C. but the old empire still pins its faith to real money.

The report that an eastern poet committed suicide because an editor declined his poem is probably exaggerated. If an editor wants to make a poet fall dead, he should accept his contribution, not decline it.

THE CLEANSING AND HEALING CURE FOR CATARRH

ELY'S CREAM BALM
Easy and pleasant to use. Contains no injurious drugs. It is quickly absorbed. Gives relief at once. It opens and cleanses the nasal passages. It is a valuable remedy for the treatment of the Membrane. Restores the Sense of Taste and Smell. Large Size, 50 cents. Smaller Size, 25 cents. By mail, ELY BROTHERS, 60 Warren Street, New York.

COLD IN HEAD

An improved postage stamp with a rivet or tack fastener, will have to be invented for the benefit of the drought-stricken localities where there is not sufficient moisture to dampen the ordinary one.

KIDNEY DISEASES

are the most fatal of all diseases.

FOLEY'S KIDNEY CURE

is a Guaranteed Remedy or money refunded. Contains remedies recognized by eminent physicians as the best for Kidney and Bladder troubles. PRICE 50c. and \$1.00.

Notice for Publication.
