Suicide Because of Ill Health.

Mrs. E. T. Hatch, whose husband was formerly Collector of Customs at St. Mitchell, committed suicide last Thursday night by drowning herself in a well at the home of her father, John P. Emmett, near McCoy. The coroner's jury returned a verdict of suicide induced by temporary insanity on account of ill-health.

Mr. and Mrs. Hatch were visiting their father, John P. Emmett, nearly two miles from McCoy. About 5 o'clock Friday morning Hatch awoke and found that his wife was not in the sleeping apartment, and he arose and dressed in search for her. On finding no trace of her whereabouts, he notified her mother and father, and they joined him in his search. They found her footprints on a path leading down to the road and about a hundred yards distant that she had climbed a rear fence and gone a short distance along the road leading to the orchard. It was also discovered that she had entered and had gone to a well, but there the trail ended. The well contained 12 feet of water, and came within three feet of the top, and after grabbing in the water for some time the searchers found Mrs. Hatch's body. The funeral took place Sunday from the family home.

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two dollar bottles of Foley's Kidney Cure effected a permanent cure." A. S. Locke.
