THURSDAY, SEPTEMBER 5, 1901.

WASHINGTON LETTER.

Washington, D. C. Aug. 26. Acting Secretary Hackett received a call today from the three gentlemen who are counsel for Admiral Schley. They carried a complete list of the witnesses Schley desires to appear before the court of inquiry, and requests to be furnished with a list of the witnesses of the navy department. Mr. Hackett informed them that their request could not be complied with at this time because, owing to the absence on leave of Judge Advocate Lemly, the list has not yet been completed but that in accordance with the practice of the department, the list would be sent to Admiral Schley, just as soon as it was made up.

The shock caused by the discovery of the dishonesty of a public official in Washington, is of itself high testimony of the general honesty of those connected with the public service. There was general surprise when an investigation, conducted by the commissioner of patents, resulted in the dismissal of Edward V. Shepard, chief clerk of the patent office, for having stolen \$89.05 from a safe in that office. He had been chief clerk in that office for more than three years and received a salary of \$2,500. He was regarded as a very efficient official.

Evidently the U. S. commissioners of St. Louis Exposition, are not figuring on any postponement of the time for holding the exposition. Ex-Senator Carter, of Montana, representing the U. S. commission, and Ex-Governor Francis, of Mo., president of the exposition company, came to Washington for the purpose of getting Secretary Hay to expedite the presidential invitations that are to be sent to every government in the world through the department of state, to be represented by exhibits at the exposition.

Mr. J. C. Carroll, of Omaha, now in Washington, said of the short corn crop: "The farmer is not going to suffer because there is going to be 600,000,000 bushels less corn this year than were harvested last year. In fact, he is going to profit by it, and the Nebraska and Iowa farmer are fully aware of this. The farmers are going to profit by the

short crop, because the price of corn is much higher than it was last year. The current price of corn is twenty cents a bushel higher than it was this time last year, and with that rate for all his corn this year, the farmer will not only not lose anything by having less corn, but will actually get \$280,000,000 more for the estimated crop of this year than he would have received for the estimated full crop at last year's prices. The people who are going to pay the piper are the consumers. One result that is assured is an increase in the price of pork and of live stock in general. This will also redound to the profit of the farmer; so it would seem reasonable that our

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses, No Weakening of the Nerves, A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more will be cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deceived by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E506 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

agriculturists might fairly regard the great drought a financial blessing in disguise.

The southern business man, in the course of a decidedly interesting conversation, said to a Washington friend: "It has long been said that matting could be made in China, because the reed suitable for its manufacture was found only in that country. Recently, reed has been found growing in the greatest profusion in the waters of the Trent and Nense rivers, in North Carolina, which experts state is identical with that used in China for making matting. This rush is a very hard plant and a very rapid grower. The stalks are from one-sixteenth to three eighths of an inch in diameter and grow to a height of three to seven feet. The annual importation of matting into the U. S. from China, is estimated at 300,000,000 yards, which is sufficient evidence of the value of a successful attempt to manufacture it from reeds found here. The manufacture is said to be a simple and inexpensive process and one in which highly skilled labor is not necessary. It may be that the matting making industry shall prove one of the greatest boons for the negro that has ever arisen for any race from a combination of natural and manufacturing conditions."

There is now a possibility that sensational publications, both here and Europe may result in making the revolution or war, whichever you may be pleased to call it in Venezuela and Columbia, an insignificant affair in itself, a serious international matter. Already

France has a war ship on the Atlantic side of the isthmus of Panama and the European cablegrams say will send others, and Germany has also, according to the Berlin press, ordered warships there. This government, which is under a treaty obligation to maintain the neutrality and free transit across the isthmus of Panama, has two small warships and a battle ship on the way there, two via the Pacific and the other via the Pacific. The European warships seem to have been ordered there under the impression that the absurd story published in Europe, alleging an intention on the part of this government to seize and hold the isthmus was true. With warships of several nations in adjacent waters and fighting on the isthmus, it would be an easy matter for some hot-headed naval officer to make serious trouble which might result in a big war.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs to paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while paste ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a "Treatment" which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing the inflammation. It is the "only" remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing sufficient and extended medicine internal for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD. CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE." Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E506 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

Carnival at Portland.
The business men of Portland have subscribed \$15,000 to guarantee the success of a carnival to be held in the exposition building from Sept. 18 to Oct. 19.

A notable exhibit of all the industries of the Pacific Northwest will be made in the big exposition building, and athletic tournament will be held on Multnomah Field adjoining. Two full military bands have been engaged, and there will be many fine features in the amusement line.

The Carnival is in charge of a committee comprising 28 representative business men, of which Gen. Owen Summers is president, I. F. Fleischer vice president and A. B. Steinbach treasurer, and J. D. Mann secretary.

With such men at the head of the affair, the carnival is sure to be well worth visiting.
