

TEN AMERICAN GENERALS HONORED BY FRANCE

Ten generals of the American expeditionary forces in France, photographed immediately after they had been named by Marshal Pétain as commanders in the French Legion of Honor. Taken at American general headquarters, Chaumont. Left to right: Lieut. Gen. Hunter Liggett, Lieut. Gen. Robert L. Bullard, Maj. Gen. James McAndrew, Maj. Gen. James G. Harbord, Maj. Gen. Charles F. Summerall, Maj. Gen. John H. Hines, Maj. Gen. Edward H. Lewis, Brig. Gen. Michael J. Lenthall, Brig. Gen. William Mitchell, Brig. Gen. Frank Parker.

FIRST AERIAL PHOTOGRAPH OF THE PYRAMIDS

This is the first photograph of the Egyptian pyramids ever made from an airplane. It was taken by the British.

TELLS OF TURK ATROCITIES

After being tortured and imprisoned by the Turks, acting under the leadership of their German masters, Miss Aurora Mardiganian, an Armenian girl, is in America with tales of cruelty and suffering beyond imagination, imposed upon the people of Armenia. Her left leg bears evidence of the tortures to which she has been subjected. She will appear in conjunction with the photoplay (written from her life story) called "Ravished Armenia" the official picture of the American committee for relief in the near East. Mrs. Oliver Harriman, who is shown with Miss Mardiganian, has interested society in this work.

Fish as Fertilizing Material.

The oldest industry to make use of waste for fertilizing is the fish industry. The custom of fertilizing crops with fish existed among the Indians of New England before the arrival of white settlers. It is said that for fertilizing corn one or two fish were buried in each hill. This procedure was adopted by the colonists, and at the time of a large catch the surplus fish were simply spread broadcast over the fields. In places where fish were plentiful this disposal of an oversupply of fish has been practical until very recent times.

Concise.

"Miss Pacer is a very bright woman, judging from my interview with her."  
"What did she say?"  
"Nothing much; but she approved of what I said!"—Boston Transcript.

GENERAL MARCH DECORATED BY FRANCE

Gen. Peyton C. March, chief of staff, U. S. army, wearing the decoration of grand officer of the Legion of Honor, which was awarded him by General Collardet of the French embassy, representing Premier Clemenceau of France. General Collardet and Secretary Baker are in the picture.

KREMLIN BATTERED BY ANARCHISTS

Photograph of one of the entrances of the famous Kremlin in Moscow, showing the gates and walls battered by the gun fire of the soviet troops, some of whom are seen near the building.

MISCELLANEOUS

The highest elevation at which wheat is found is in the Andes, 11,000 feet above sea level.

It is better to have a heart of oak than a wooden head.

Sugar cane, after the juice has been crushed from it, has been found suitable for manufacturing into paper.

FARM POULTRY

HOW TO OPERATE INCUBATOR

Machine Should Be Placed in Fairly Warm Room and Protected Against Outside Changes.

(Prepared by the United States Department of Agriculture.)

One difficulty in setting eggs as early in the spring as is necessary for early hatching, if the natural system of incubation is followed, is in finding broody hens at the proper time. If natural incubation be depended upon exclusively the poultry raiser must wait until the hens are ready to set. This is not true, however, if an incubator is available, for if the eggs are fertile they can be started at any time the operator desires.

The incubator should be operated in a fairly warm room, preferably a cellar, as a protection against outside temperature changes. Sudden changes in temperature in the room are to be avoided. The machine should be disinfected thoroughly before being used with a solution of reliable coal tar disinfectant.

Instead of using such a solution a small receptacle containing one-half ounce of permanganate of potash on which one-half ounce of formalin has been poured may be shut up in the incubator. The resulting gas will thoroughly disinfect the machine. After disinfecting the incubator should be run empty for several days to get it into good operating condition. After the eggs are in place the temperature should be held at 101½ to 102 degrees Fahrenheit the first week, 102 to 103 degrees the second week, and 103 the third week.

The eggs usually are turned for the first time at the end of the second day, and twice daily through the eighteenth or nineteenth day. The eggs are cooled outside the hatching chamber once daily after the seventh and up to the nineteenth day. Moisture should be furnished in artificial incubation

Removing Hatch From Incubator.

In the South, in high altitudes, and when the incubator room is dry. This may be done by sprinkling the eggs with warm water or by placing a wet sponge or pad of water under the egg tray.

During the hatching period carefully fill the lamp and trim the wick each day. It is best to trim the wick by scraping off the burnt portion rather than by cutting the wick. The lamp should not be filled entirely. After the lamp is filled it should be closely observed for a time to make sure that the flame does not get too high.

SPRING CONDITION OF HENS

Lack of Exercise and Too Much Feed of Dry Kind Often Cause of Constipation.

In the spring fowls often show up in constipated condition. It is usually caused by lack of exercise, green stuff, grit and too much feed of a dry kind. You notice it first on the soiled feathers, next the clogging of the vent. This immediately calls for a physic. One tablespoonful of castor oil or half-teaspoonful of epsom salts to each fowl, and the last may be continued in broken doses in food or water for several days after. Feed them boiled potatoes, all the cabbage and other green stuff at hand, and make them hunt for their grain. These constipated fowls are no good as breeders until you get them toned up.

POULTRY NOTES

Carelessness in purchasing hatching eggs retards flock improvement.

After all, it is the little things that count for the most in poultry raising.

Experience teaches us that great care is needed to prevent poultry parasites and poultry diseases.

The fresher the eggs are when used for hatching, the better, and eggs over 15 days should be discarded.

If it is worth your while to set any eggs at all, it surely is worth your while to set the eggs worth while.

When the parent birds lack vitality the chicks are naturally weak, not worth raising, and it is time, patience and money thrown away.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

Very Good Reason. Another reason why a man would rather be a man and have men friends than be a woman and have woman friends is because he knows that none of his friends is going to borrow his hair to go to the theater or a party.

Strange Contradiction. "De man dat don't see de bright side o' life," said Uncle Eben, "is generally de same feller dat's afraid of his shadow."

Cuticura Soap for the Complexion. Nothing better than Cuticura Soap daily and Ointment now and then as needed to make the complexion clear, scalp clean and hands soft and white. Add to this the fascinating, fragrant Cuticura Talcum and you have the Cuticura Toilet Trio.—Adv.

Two Important Chains. Love is the golden chain which binds a household together. Kindness is the chain which binds households together.

WEEKS' BREAK-UP-A-COLD TABLETS FOR COLDS AND LA GRIPPE

Old Folk's Coughs will be relieved promptly by PISO'S. Stops throat tickle; relieves irritation. The remedy tested by more than fifty years of use is

PISO'S

New Houston Hotel

Sixth and Everett Sts., Portland, Ore.  
Four blocks from Union Depot. Two blocks from New Postoffice. Modern and fireproof. Over 100 outside rooms. Rates 75c to \$2.00.  
CHAS. G. HOPKINS, Manager.

Are You Satisfied? BEHNKE-WALKER BUSINESS COLLEGE is the biggest, most perfectly equipped Business Training School in the Northwest. Fit yourself for a higher position with more money. Permanent positions assured our Graduates. Write for catalog—Fourth and Yamhill, Portland.
