COMMUNITY HONOR FLAG FLOATS PROUDLY OVER CITY

The Community Honor Flag, given to Independence because it quickly purchased its quota of Victory Bonds, has been received and now floats proudly on Main street. Due credit should be given the two Independence banks that by subscribing so liberally for Victory Bonds put our community "over the top."

H. Hirschberg received the following letter from John L. Ethelridge, state director of organization, which is self-explanatory:

"We are sending you this afternoon by mail, a Community Honor Flag for display in a conspicuous place in your town.

"This is the Government's token in appreciation of the fact that your community has fulfilled its quota, and we suggest that your local papers be apprised of the arrival of this flag, and the fact be given publicity.

"We wish also to record the hearty appreciation of this department of the fine spirit of loyalty and co-operation which your town has displayed in this, the Victory Liberty Loan."

NOTICE THAT CERTAIN STREET IMPROVEMENT BONDS WILL BE PAID.

Notice is hereby given that there are sufficient funds in the Street Improvement Fund of the City of Independence, Oregon, to take up for payment and cancellation Bonds Nos. 2, 5, 7, 8 and 9 bearing date December 1, 1914.

That on June 1st 1919 each of said bonds will be taken up and cancelled and paid in full, principal and interest to said date and thereafter said bonds will cease to bear interest.

Dated and first published May 2, 1919.

BUILDING A LARGE KITCHEN FOR U. S. MEN IN FRANCE

(Extract from a letter written by T. L. Jackson to Mr. and Mrs. Thomas Fitchard of this city.)

"Do not think that I am on my way to the States because I am at an embarkation camp. I am here on duty to see what may be done to improve the soldiers' food while they are waiting for ships to take them home. Just at present I am watching the construction of a large central kitchen which will feed up to 4400 men at a meal. Soon after I came here I wrote a report on the project and drew up a sketch of the whole plan which requires the remodeling of five of the present buildings and quite a bit of new construction.

"The soldiers will be under cover continually from the time they get to the serving tables until after they have finished washing their mess kits in boiling hot, soapy water and boiling rinse water.

"We will also have a permanent personnel to do the cooking and will have facilities for baking pastry of various kinds which will be very acceptable to the boys from the front where often they have had very meager facilities. This plan is now under construction and we hope will be completed in two or three weeks. It could be done sooner but for the slow setting of the French cement which we have to use. The kitchen is 40 feet by 95 feet and has a solid concrete floor which slopes at the rate of six inches in twenty feet from both sides toward the middle into an open drain which will be swept out as frequently as required to keep it clean, probably half a dozen times a day.

"There will be three built in stoves that is, brick work affairs, 27 feet long and about three feet six inches wide with a large oven in the middle section. Beside this there will be another large stove of the same general type on which the coffee will be made."

Appalling losses fall to halt German assaults in the Noyon sector. Ypres salient still held by the French and British, but at a tremendous cost.
