Science has proven that external medicines are useless as remedies against rheumatism, lumbago and other kidney affections. Why? Because these troubles are the result of a diseased condition caused by excess of uric acid in the body. External applications relieve pain for a short time only. In order to obtain permanent relief the cause must be eradicated. SALGRENE, the uric acid solvent and general kidney tonic, can be procured at all first class drugstores.

Fewer Walking Sticks Used.

Not as much timber is being made into walking sticks as in days gone by. About two generations ago no gentleman was considered fully dressed for the street unless he carried his stick. Now it is almost as unusual to hear of a man being presented with a gold-headed cane as with a silver or tortoise-shell snuff box.

Sure! High Heels Cause Corns But Who Cares Now

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the

fingers. Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.—Adv.
