

SORTING OUT LOST BAGGAGE OF THE DOUGHBOYS

Knights of Columbus secretaries at Hoboken, N. J., trying to straighten out a huge mass of strayed and lost baggage belonging to American soldiers.

INACCESSIBLE CLIFF DWELLING IN ZION CANYON

An archeologist's reconstruction of the debris-filled cliff dwelling ruins discovered by a camera with a telephoto lens in the new Zion Canyon, national park in Utah. The photograph was taken from the opposite wall of the canyon, three-quarters of a mile away. The cliff dwellings are now inaccessible.

FROM THE NETHERLANDS

Miss Jetske Cremer, daughter of the minister from the Netherlands to the United States and Mrs. Cremer, has joined her parents in Washington. She is of the debutante age and already is a popular member of the younger set.

FIGHTING THE "FLU" IN CHICAGO

This picture shows a doctor in the city laboratories preparing the anti-toxin for Chicago patients who are suffering with the influenza.

ARMORED RAILWAY CARS FOR MEXICO

Two of the steel armored cars designed and built in California for the Mexican National railway lines for use in the regions that are infested with bandits.

FINE TRIBUTE FROM FRANCE

This photograph shows the symbolic document to be presented by France to the family or relative of each deceased American soldier of the world war.

DISINFECTING SOIL WITH BOILING WATER

Practical Means of Ridding Land of Certain Parasites.

Marked Increase in Percentage of Germination and in Size and Vigor of Plants Observed in Large Number of Tests.

(Prepared by the United States Department of Agriculture.)

The need of a simple, practical method for disinfecting small quantities of soil in which to grow healthy seedlings for home garden planting, now made more emphatic because of the great expansion of tomato and other club work, has prompted the bureau of plant industry to obtain more accurate data on the effectiveness of hot water as a means of ridding soil of the root-knot nematode, and certain parasite fungi usually associated with root troubles. By means of a large number of tests it was found that an application of boiling water at the rate of seven gallons per cubic foot of soil in shallow benches practically eliminated the parasites. Applying this method to the needs of boys' and girls' garden club work, where the size of the seedbox or flat commonly used is 14 by 30 by 3 inches, 4½ gallons of boiling water would be necessary to disinfect the soil in such a flat.

In all cases a marked increase in the percentage of germination and in the size and vigor of plants grown in the treated soil was observed. Substantially the same method of killing plant parasites in the soil has been used with some success in certain vegetable greenhouses; but the department's experiments serve to determine accurately the temperatures required and also the necessary quantities of hot water. The root-knot nematode can be eliminated from the soil contained in a four-inch pot by submerging it for five minutes in water brought to a temperature of 208 degrees Fahrenheit. In eight-inch pots the organisms are killed by an application of boiling water at the rate of about three quarts to a pot.

PREPARE FOR NEW BUILDINGS

Best Time to Make Preparations for Contemplated Structures is in Late Winter.

(Prepared by the United States Department of Agriculture.)

Late winter is the best time to make plans and preparations for any building which is contemplated. This will assure the presence of the material when needed, and will permit the making of favorable contracts which would be difficult to consummate when the rush of spring work begins. As the coming season promises to be a busy one in the building line, every farmer who wishes to build is urged by the federal department to "shake a leg" and get his plans under way.

Now is the time to prepare hog houses for the spring crop of pigs. Repair where necessary, so as to minimize pig mortality due to inadequate shelter. Thousands of new-born pigs are lost each season due to unsatisfactory housing. Weather-proof houses will save money.

The late winter also is a propitious time for the building of new and repairing old fences. Worn-out posts and wire should be replaced where necessary to make the fields stock-tight. If possible the supply of posts

Boys in the Building Business.

should be cut on the farm or purchased from a neighbor. Osage orange, locust, cedar and chestnut posts are satisfactory for permanent fences. It is a good practice to peel the posts and dip the butts in creosote for preservative purposes.

The wise and frugal farmer plies the paint brush during the spare time of spring and fall, as he understands the dual value of paint in protecting against decay and weathering and in improving the sightliness of the farm buildings.

GET FARM AGENT'S OPINION

Farmers Will Do Well to Get Information Regarding Value of Various Fertilizers.

Farmers are advised by various state colleges to keep in touch with their farm bureau agent who has information about the value of various fertilizers and fertilizing materials. The farmer will do well to get the agent's opinion before substituting something new for the standard material he has used in the past.

WRIGLEY'S

For mother, father, the boys and girls. It's the sweet for all ages—at work or play.

When you're nervous or tired, see how it refreshes!

The Flavor Lasts

SEALD TIGHT-KEPT RIGHT

UNITED STATES PATENT OFFICE

WRIGLEY'S DOUBLEMINT CHEWING GUM

WRIGLEY'S JUICY FRUIT CHEWING GUM

WRIGLEY'S SPEARMINT CHEWING GUM

NAME 'BAYER' MEANS ASPIRIN IS GENUINE

For Toothache, Neuralgia, Pain, Colds, Headache!

You want relief—quickly and safely! Then insist on "Bayer Tablets of Aspirin," stamped with the Bayer Cross.

The name "Bayer" means you are getting genuine Aspirin prescribed by physicians for over eighteen years, and proved safe by millions of people.

For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.—Adv.

"Writer's Cramp."

Writer's cramp has been defined as a disease of those who do too much writing, especially with the hand too tightly contracted. A person with this trouble has not complete control over the muscles of the thumb and middle and fore fingers, which are brought into use in writing. The various methods of treatment used so far have not proved altogether successful. Among the methods used are surgical operations and application of electricity.

Value of Molybdenite.

The principal value of molybdenite is in the manufacture of steel, to which it gives a hardness and toughness that make the steel suitable for use in propeller shafts, guns and boilers. Most of the molybdenite produced in Tasmania is shipped to England.

Since it is worth while to be well, take Garfield Tea, Nature's medicine.—Adv.

Just a Temporary Stay.

After the death of his wife Uncle Will went to live with his brother, and his little niece was overheard explaining it to her little playmate: "You see, Betty, Uncle Will's wife just died, an' he's come to live with us till he finds another one."

Skin Troubles
Soothed
With Cuticura
Soap 25c, Ointment 25 and 50c, Talcum 25c.

Cuticura for Sore Hands.
Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Talcum are used for all toilet purposes.—Adv.

Uncle Pennywise Says.

No matter what troubles a man has downtown, his wife can always welcome him with something that makes them sink into insignificance.—Louisville Courier-Journal.

Whip is Bridegroom's Wand.

At Swedish weddings, among the middle and lower classes, the bridegroom carries a whip. This is an emblem of his authority in the domestic circle.

Good health cannot be maintained where there is a constipated habit. Garfield Tea overcomes constipation.—Adv.

Perfume.

Perfume received its first real development in Persia, and later the priests of Egypt, who were the only men of learning in those ancient days, devoted much time to the manufacture of perfume and aromatic oils.

Breaking all Records

Right now—when milk prices are breaking all records—is the time to make new high records in milk production. It is surprising how effectively this can be accomplished by raising the health standard of your dairy cows.

The most prevalent cow ailments—Abortions, Retained Afterbirth, Bunches, Lost Appetite, Scours, etc.—arise from an impaired condition of the genital and digestive organs. Kow-Kure has remarkable medicinal properties that act directly on these organs, producing regular, healthy action. The cow thrives on Nature's food, and a full milk flow naturally follows.

An occasional use of Kow-Kure will prevent disease and pay for its cost a hundredfold. The best dairymen keep it on hand constantly. Feed dealers and druggists sell Kow-Kure, in 50c. and \$1.20 packages.

Send for free book "THE HOME COW DOCTOR"—very useful wherever there are cows.
