**Blame Nightmare on Demon.**  
 In some portions of the continent of Europe nightmare is believed to be a spectral creature that comes and takes a seat on the breast of the unconscious sleeper, half smothering him and not permitting him to move. As those who have suffered therefrom say they cannot so much as bend the little finger during those moments of anguish, it is not surprising that the superstitious explained the condition as a malicious demon crushing his victim.

**With the Fingers! Says Corns Lift Out Without Any Pain**

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you—Adv.

**NEED FOR MORE DAIRY COWS**  
 Animals Afford Market for Crops and in Return Produce Foods for Farmer's Family.

More dairy cows are needed on many farms to produce food for the family. To do this the cows will need feed, such as grain, hay, stover, and silage which may be produced. Hence the cows will afford a market for the crops and in return produce foods for the family and contribute a valuable by-product, manure, which if properly used, will enrich the soil for larger crops and better profits.
