Told by the Bank Book A Crop of Importance AVE you ever seriously con-

sidered the raising of Corn, Mr. Farmer? It's being done successfully all up and down the Valley.

We started out last year to preach corn raising broadcast in the community, and you'd be surprised at he response met with.

But our encouragement goes farther than PREACHING. Come in and talk the matter over with us.

DOOMED TO DEFEAT

(From the Benton County Courier) The overwhelming vote which the Democratic caucus in opposition to the earnestly expressed wishes of President Wilson cast against universal military training Monday night can only be accounted for on the ground that the members are strongly opposed to it and believe that their constitu- Mrs. A. They are not deceived by talk of the democracy" of the American army. The people are not so blind as not to have seen the lesson of the last six years and to perceive the monstrosity of the lie that universal military training prevents war. The world never knew a time when pared for war as in 1914. According to the arguments of the advocates of preparedness there should never have been a time when there was so little danger of war. The peoples of Europe had for a generation groaned under and cursed the very name of that system but they endured it because it had been drilled into them from infancy that it was necessary and the arguments were the same as those advanced today by those who would trans-

plant it to this' country, but the United States will not adopt a barbarous anachronism which the old world would rejoice to and probably will soon dicard.

If the Republican party is looking for a chance to lose the coming election in spite of the anxiety of the people for a complete change of administration at Washington it can get a good start by adopting a this week. platform which endorses or nomin-

My years of experience and the satisfactory service I have rendered to thousands of Marion and Polk county people assures you competent and lasting relief in all your eyesight troubles.

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce

Therefore, you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work, the examining and measuring of your eye defects must be skillfully done The mechanical part, the making and adjusting of your glasses, is no less important.

I am making a specialty of correcting children's eyes. MY PRICES ARE VERY REASONABLE for the material and service you will receive and I guarantee satisfaction in every respect. Office hours from 9 to 12 a. m.-1 to 5 p. m. Sundays and evenings by special appointment
