

There Should Be An Atomizer In Every Home

Experience has repeatedly demonstrated the value of a Medicinal Atomizer in treating any irregular condition of the mouth, throat or nose. Many preparations—mouth washes, gargles, nasal douches, etc.—are more effective if sprayed over the affected parts. The spray system is also superior when preventive disinfectants are used.

MARCH 15 LAST FILING DATE.

Surest Way is to Follow Form 1040A. Free Advice in Doubtful Cases. Severe Penalties in Law.

Nobody is exempt from Income Tax. An obligation is laid directly on the shoulders of each citizen and resident to consider his own case and to get his return in on time if one is due.

With each return showing a tax due a payment must accompany the return in the full amount of the tax or at least one-quarter of the tax.

All returns for 1919 must be filed on or before March 15.

Must Show True Figures.

In figuring up his earnings for income tax purposes a person must take into consideration all items of taxable income, and each item itself must be accurate in amount. Guesses and estimates must be avoided, for the return is made under oath.

Everybody who had an income during 1919 must now determine whether his or her net income was sufficient in amount to require an Income Tax return. The best way to find out is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income; and if a return is due, it tells how to prepare and file it.

One of the important points to keep in mind is that a person's net income is found by a computation prescribed in the law, and that each item of income from every source must be considered, unless specifically exempted.

Another thing to remember is that the personal exemption allowed taxpayers by law has no relation whatever to the requirement to file return. This exemption is not to be considered until a person has figured out his net income and determined whether it was sufficient to require him to file a return. Then, if a return must be filed he should read carefully the instructions for claiming exemption, and complete his return.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office. Many banks and trust companies are also furnishing similar service during banking hours.

Heavy Penalties in Law.

For failing to make a return on time the penalty is a fine of not more than \$1,000 and an addition of 25 per cent to the tax, if any. For making a false or fraudulent return the penalty is a fine of not more than \$10,000 or imprisonment not exceeding one year, or both; and, in addition, 50 per cent of the tax. There are other penalties for failing to pay tax when due and for understatement of the tax through negligence.

Many Sources of Income.

Aside from what one may earn by his services, there are many other sources of income. If he sold any property during 1919 he must figure out the gain realized. If he rented buildings, land, apartments or rooms such rents must be considered taxable, and he may claim deductions for necessary expenses incidental to rents.

Bank interest is a common source of income and is taxable whether with drawn or not. Any amount of interest credited to a depositor is income to the depositor.

Interest on mortgages and notes is taxable; also bond interest received from corporations.

A taxpayer who cashed his insurance during 1919 must report as income any excess received over the total of premiums paid.

Members of partnerships or persona service corporations or beneficiaries of an estate or trust must report their shares of income distributable to them whether or not actually withdrawn.

Dividends of domestic corporations must be reported. Many other forms of income are taxable, unless specifically exempted.

AT THE ISIS NEXT WEEK

Imagine a beautiful maiden within a hut, an open window, a maddened, blood-thirsty lion crouched—all ready for his spring—his bone-crushing talons extended, his dripping jaws widely distended. The cowering girl stands petrified—the narrow eyes of the monster glued on his prey—when, like a bolt from the sky, a giant white form leaps from the fringe of the fungus, straight for the panting beast, and plunging headlong, landed full force on the lion's haunches, and an instant later the lion dead, strangled, and Tarz in stood erect, his arms raised to heaven—of which he knew nothing—a victory cry rends the air and the maiden got her first glimpse of the great white giant—king of the jungles. Such is one scene in "Tarzan of the Apes" which comes on Sunday and Monday—one of the biggest and greatest pictures ever shown here. You have read the book everybody—this is your opportunity to see it on the screen.

On Tuesday and Wednesday nights Marie Doro leads in the great mystery story, "12:10." Laid in France beside the beautiful river Seine, the opening scene of "12:10" reveals an aged sculptor, Fernade, with his daughter, Marje. Despairing in his struggle to gain a living he deserts his child and plunges into the river to end his troubles. He leaves Marie an orphan. In her frenzied search for her father, Marie stumbles upon Lord Chaterton, who adopts her and takes her to his home in England. There Marie becomes the sole delight of the aging man and his heiress. Her loveliness arouses the passion of Lord Chaterton's secretary and Marie becomes involved in a series of complications that make "12:10" the greatest mystery picture of the year. She, in order to inherit Lord Chaterton's fortune, must spend 24 hours from midnight in a lonely castle beside the bedside of her

Work Clothes for Working Men

We not only have clothing for men and boys who want to dress up in time of leisure but we also have clothing for men and boys to work in. And right here we want to tell them something—better buy your work pants, overalls, work coats, work

gloves, work shoes right now—they are going to take another advance in price very soon, especially overalls—so you will save considerable money by making your purchases at our store at once.

We have clothed the men of this community as cheaply as we could in the past and will continue to do so in the future, but there's one thing we can't do—we can't prevent manufacturers or wholesalers raising prices.
