

# The Man Who Shaves Himself

Hundreds of men shave themselves for various reasons and many of them dread it because they are not properly equipped to do the work in a satisfactory and painless manner. Any man armed with a Gem safety razor can push it over his face and never feel it. Then finish up with good powder and cream and step forth not only looking fine but feeling the same.

# O. A. Kreamer

## Dr. Mendelsohn

Specialist  
in  
Eyesight

Can be seen at his office 211-212 Oregon Building (formerly the Hubbard building). One third of a century practical experience—9 years practice in Salem. My years of experience and the satisfactory service I have rendered to thousands of Marion and Polk county people assures you competent and lasting relief in all your eyesight troubles.

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce.

Therefore, you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work, the examining and measuring of your eye defects, must be skillfully done. The mechanical part, the making and adjusting of your glasses, is no less important.

I am making a specialty of correcting children's eyes. MY PRICES ARE VERY REASONABLE for the material and service you will receive and I guarantee satisfaction in every respect. Office hours from 9 to 12 a. m.—1 to 5 p. m. Sundays and evenings by special appointment.
