

# The Man Who Shaves Himself

Hundreds of men shave themselves for various reasons and many of them dread it because they are not properly equipped to do the work in a satisfactory and painless manner. Any man armed with a Gem safety razor can push it over his face and never feel it. Then finish up with good powder and cream and step forth not only looking fine but feeling the same.

## Clothes For Working Men

Along with its men's dress furnishings, this store for years has catered to the man who has to wear what is termed slouch clothes as the occupation he is engaged in does not permit him to work in "dress" clothes. The working man will find upon investigation that Kreamer still maintains that portion of his stock to the maximum and when it comes to work pants, work coats, work shirts, work hats, work shoes and work gloves there is no need to leave town to get them. While like every other article we eat or wear there has been an advance in price because of increased cost to the retailer, this store has kept the price down as low as possible.

# O. A. Kreamer

Mrs. F. O. Parker has received a specimen of a Texas mosquito sent by her son, Hugh Miller, from Sabine Pass, Texas. "We've seen a million of them but not one of that variety. If it's not a humming bird, it's certainly a "hummer."

The Civic Club meeting next Wednesday, May 12, promises to be one of the most pleasant meetings of the year. The committee in charge has been fortunate to secure Dr. Dunsmore, who will speak on "Americanization." The Buena Vista Rural Club will probably be present also and other enjoyable features are scheduled. There will be a business session at 2 o'clock at which time delegates will be chosen to the State Federation to be held at Enterprise early in June. All those wishing to hear the talk even tho they are non-club members will be most welcome.

The regular bi-monthly meeting of the Ladies Aid of the Christian church was held at the home of Mrs. Lucy Smith on Fourth street last Thursday afternoon. The ladies spent part of the hours in industriously working on bazaar wares and congenial converse. A recently adopted custom is to celebrate the birthdays of the members whose natal days fall in the same month. On this occasion the hostess, Mrs. Gustav Fisher, and Mrs. W. H. Cackle were the honor guests. These ladies were presented with pretty salad plates. Mrs. Smith served a dainty luncheon to the gathering. Mrs. Smith's cousin, Mrs. J. O. Youngman of Kansas City, was also present to enjoy the occasion.

Out of the many pleasant recollections of the social high school year will flash the reception given by the Freshmen to the students and faculty of the Independence High last Friday evening. The twenty-five "Freshie" hosts were never in a more gracious mood and their guests were equally receptive to their charming hospitality. A program of varied pleasure was rendered and a number of enjoyable games furnished amusement. The class colors, green and white, were pleasingly developed. Fir boughs and an array of white blossoms combined to the general attractive setting. Before the refreshment hour when the committee was busy preparing luncheon, a ripple of excitement prevailed, for the "Freshies" were led to believe the "upperclassmen" were preparing to hie away with the "eats." But the alarm proved false and the hosts of the evening served a generous luncheon of lemonade, sandwiches, cake and ice cream. Throughout the luncheon the colors, green and white, were motified.

### TOUGH ON BARBERS.

He was dirty, tousled of hair and generally unkempt, being of the type quite familiar in the days when "tighthood" was in flower, and he glanced about uneasily as he sidled up to the owner of a drug store, and remarked in a studied attempt to be quite casual and unaffected: "Gimme a quart of bay rum."

"We are not selling bay rum, and if we were I am pretty sure I would not sell any to you," said the proprietor.

"Well, I don't know what us barbers is goin' to do," resignedly replied the unshaven one, as he shuffled toward the door.

### STIMULATING TRADE.

An exchange of exhibition trains for showing in one country the products of another is a recent trade-extension project that is attracting attention in Canada. The Canadian National railways have arranged for the transportation of exhibits of French goods through Canada, and Canadian manufacturers will be able to secure a similar exhibition of their goods on a train that will be taken through the principal cities of France.

Specialist  
in  
Eyesight

Can be seen at his office 211-212 Oregon Building (formerly the Hubbard building). One third of a century practical experience—9 years practice in Salem. My years of experience and the satisfactory service I have rendered to thousands of Marion and Polk county people assures you competent and lasting relief in all your eyesight troubles.

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce.

Therefore, you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work, the examining and measuring of your eye defects, must be skillfully done. The mechanical part, the making and adjusting of your glasses, is no less important.

I am making a specialty of correcting children's eyes. MY PRICES ARE VERY REASONABLE for the material and service you will receive and I guarantee satisfaction in every respect. Office hours from 9 to 12 a. m.—1 to 5 p. m. Sundays and evenings by special appointment.
