

## To All Automobile and Tractor Owners

THERE will be a factory expert for the Zenith Carburetor which is used on 60 per cent of all automobiles. He will be with us May 17-18-19 to demonstrate and prove the gas-saving of the Zenith Carburetor—

The Zenith is the great gas saver. Used in government service on airplanes.

INDEPENDENCE

### MR. BICE IS PROSPERING

To The Post—Enclosed find check for \$1.50 for renewal. I look forward to receiving The Post as I enjoy looking over the news of Independence and vicinity.

I have enjoyed a prosperous spring with my chickens. Have shipped to my many friends in Independence about 1000 baby chicks. Also have sold to many people in and about Clackamas county. In all I have about 4000 with inquiries for as many more which I have not been able to handle. I intend to enlarge my plant by building another laying house 20x50 ft. Also intend to build an incubator house 14x24.

W. L. BICE.  
Milwaukie, Ore., R. 1, Box 341.

### Baptist Church Announcements

(Contributed)

If you were at church last Sunday you saw the increased attendance in both the morning and evening services. The Sunday school has held its mark in spite of the nice weather and the slump that generally comes in the spring. The Sunday school has recently fixed up a splendid primary department for the little folks, the attendance hav-

ing grown in that class. The Sunday school meets at 10 a. m., Mrs. Grace Swope, superintendent. In the morning at the 11 o'clock service, the Rev. Stewart of Mc Minnville, Oregon, convention pastor for the Baptist denomination, will preach on "My Brother's Keeper." In the evening, Rev. H. L. Proppe will preach on the timely subject of "The Lost Christ," or "Losing Christ." This is a message that will stir your heart and help you to a better life. You are welcome to all these services. You will be the loser if you miss any of these services.

### MARION COUNTY'S FIRST MILL

According to L. P. Swan, of Aurora, the first grist mill on Mission creek, Marion county, was constructed in 1834 by Webley J. Hauxhurst. Mr. Swan has been in the milling business for fifty years and was here yesterday in conference with the state engineer on power rights on Mission creek at Champoog. Mr. Swan operates a mill on Mission creek, purchased in 1895, which has been in operation ever since. He says a grist mill was first built on that site in 1855.

### NINE KILLED IN WRECK

In a collision between two S. P. electric trains near Bertha last Sunday morning, nine people were killed and over thirty injured. Among those killed were Fleuret Josselyn, step son of David Campbell.

### LOWDEN FOR PRESIDENT

(Gresham Outlook)  
"If real ability, wide experience in state and government and large business affairs and genuine broad-minded, unflinching patriotism, are the considerations which dominate the minds and hearts of Oregon voters, there will be no doubt about the result—Oregon for Lowden;

### Every Oregon Boy and Every Oregon Girl Is a possible College Student

Oregon sends a bigger percentage of its children to college than any other state, without exception.

### That is one of the State's proudest records

No state can have too much education. Education is the safeguard of freedom and of right, and higher education is the capstone of the public school system. But higher education in Oregon is in great danger. The State University and Agricultural College have twice as many students as they have income to train.

### Protect these Schools and their great work

by voting on May 21 for the Higher Educational relief measure. Higher Education pays the state in dollars and cents, in improved living, in scientific progress, in farm, orchard, garden, and stock ranch development, and in the better quality of its public and high school teaching.

(Paid advertisement inserted by Colin Dymont in behalf of the Joint Alumni Relief Committee for Higher Education in Oregon, 514 Pittock Block, Portland.)

### Protege of Caruso

Voice of Chautauqua Soprano Wins Praise of Musical Critics Everywhere

It takes a voice out of the ordinary to win the approval of a musical authority like Enrico Caruso. But such a voice has Josephine Martino, who will make her first western Chautauqua tour under Ellison-White direction this year. The great tenor has coached Miss Martino in several of the operatic numbers she will use this summer. She appears only on the closing night.

Miss Martino has been engaged by the Edison company to make a series of records, and she will be one of their regularly advertised "Recreation Artists" next season. "Musical America" says, "Miss Martino is a young woman for whom a great career is promised."

### DELIGHTFUL ENTERTAINER AT CHAUTAUQUA

Marion Ballou Fisk Comes on First Night.

Four years of settlement work in Chicago, when she started entertaining the children as a protege of the late Dwight L. Moody, and 13 years on the Lyceum and Chautauqua platforms have qualified Marion Ballou Fisk for her present place as the lead-

ing cartoonist and lecture-entertainer in America today. Her work differs from the ordinary cartoonist in that it might be called an illustrated lecture in story and song. She uses two big easels and 23 colors in crayons to secure her beautiful and artistic effects.

Phone the news to M2113.

Assist your favorite in the grand automobile race NOW.

Delaware handed a lemon to her peaches.—Columbia Record.

Do you live in Independence? Then why not patronize her industries. Eat Liberty bread.

### FORDSONS EVERYWHERE

American farmers are not the only ones who are appreciative of the Fordson.

New evidence that the little machine is proving successful in the far corners of the earth is being found every day.

Henry Ford & Son, Inc., have received a photograph showing both sides of a medal won by Messrs. Duly & Company, Ltd., Fordson dealers at Salisbury, Rhodesia.

The medal was awarded after an exhibition of the Fordson at the Beira Agricultural Society, arranged by Messrs. Duly and it is for the "best piece of agricultural machinery ever on show."

### EASY TO PARK

One of the biggest problems today confronting motorists in the cities is finding parking space and getting their car in parallel with the curb after they have found it and it is right here that a good many car owners sigh for a steam steering gear.

With a Maxwell you don't feel as though you had done a day's work after squeezing into a tight hole. There are lots of nice little things about this steering gear which are appreciated when the car ahead of you suddenly stops and you have to handle the wheel with your right hand while signaling with your left, or when after making a wide turn at speed the wheel comes automatically to the straightaway position.

### AUTO EPITAPHS

These bones of Bill's  
Do not disturb;  
At 60 miles  
He hit the curb.

The subscription price of The Polk County Post will be \$2 on and after June 1.

## THE NASH SIX

### What the Nash Six Name Plate Means to You

**Miller AD-ON-A-TIRE Geared to the Road**

### Many More Miles From Your Old Tires

*The Miller Ad-On-A-Tire Saves 75% of Tire Values*

Don't throw your tires away simply because the tread is worn off. To do that, is waste. You lose 75 per cent of your tire value.

When you put Miller Ad-On-A-Tires on your old tires you are not merely putting on a new tread. You are virtually rebuilding your tires.

The Miller Ad-On-A-Tire is built of tough, buoyant rubber. It has several layers of fabric, breaker strip, tread, and side walls which completely cover the tire and clinch under the rim. It has the famous Miller Geared-to-the-Road tread.

Our method makes it an integral part of the tire. It cannot come loose or creep. It fits any size or any make of tire. Get 75 per cent more mileage from your old tires. Bring them to us today.
