Baseball, races and high jumps and other athletic events filled the evening with entertaining pastimes. After the games refreshments were served and a Young People's Society was organized. This society was organized for the purpose of giving clean amusements to young people and impart the teachings of Christ and his disciples among the young people. The officers elected were: Mrs. Proppe, president; Miss Bush, vice president; Miss Bowler, secretary; Miss Birkholtz, pianist; Miss Baker, chorister; and Mr. Moore, treasurer. The meetings of this society will be every Sunday evening at 7 o'clock. Next Sunday, May 23, at 7 o'clock sharp at the Baptist church will be the first meeting. You are all invited.

BETTER CURE THAN COUNTING

"Think of the Top of Your Head," Says Friend of Humanity, and Beat Insomnia.

"It was when my spirit had become worn through my body like elbows through the sleeves of an old coat that I heard of this remarkable recipe for insomnia," writes Robert Cortes Holliday in "Peeps at People." "Think of the top of your head." That is what I was told to do. "Think of the top of your head," I said to myself with some disdain in the awful grip of the night; "now, how in thunder do you think of the top of your head?"

"Do you think of your hair?" I asked, turning my eyeballs upward in their sockets. "Do you think of that lightly hidden baldness?" striving to put my mind, so to say, on the top of my head. "How the Dickens—can you think of—," but a drowsy numbness pained my sense as though of henlock I had drunk, or emptied some dull opiate to the dains one minute past, and Lethwards had sunk. And I dreamed that quite plainly, as though it were some other fellow's, I saw the top of my head."

Soon be time for those lovely June brides.

Don't say "I saw it in the paper." Say "I saw it in The Post" for if the news is true and accurate that's where you did see it.

Tell The Post About It!

Dr. Mendelsohn

Specialist
in
Eyesight

Can be seen at his office 211-212 Oregon Building (formerly the Hubbard building). One third of a century practical experience—9 years practice in Salem. My years of experience and the satisfactory service I have rendered to thousands of Marion and Polk county people assures you competent and lasting relief in all your eyesight troubles.

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce.

Therefore, you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work, the examining and measuring of your eye defects, must be skillfully done. The mechanical part, the making and adjusting of your glasses, is no less important.

I am making a specialty of correcting children's eyes. MY PRICES ARE VERY REASONABLE for the material and service you will receive and I guarantee satisfaction in every respect. Office hours from 9 to 12 a. m.—1 to 5 p. m. Sundays and evenings by special appointment.

Change Your Underwear

Well, its getting hot and no use to put it off any longer. Those winter duds must come off to be replaced by those smooth, cool, comfortable union suits such as we sell. Of course, if you don't want them "tied together" we have the single garments

also. So, men, don't sweat the whole summer away when Kreamer can make it so delightful for you.

It is refreshing to also know that Kreamer has topshirts that were especially made to keep men cool. They are as much a joy as the union suits. P. S.—Some men don't wear underwear in the summer time. It may be of interest to them to know that with the right kind of underwear on, they will be cooler and feel better all the time.
