"Devil's Dozen."
 The saying "devil's dozen" means the same as "baker's dozen," but the origin differs. It "cannot," as the metaphysicians love to say, 13 loaves of bread instead of 12, and it sprung from the idiotically superstitious attempt to explain the baker's dozen, which also was 13 loaves. This latter practice of giving 13 loaves was due to the drastic penalties in England for shortweighting, and to be safe the baker threw in the extra loaf.
To Open New Books.
 Teach the children early how to limber up the bindings of their new books. Don't let them crack the binding open, to the ruin of the book. Rest the book back down on a table and, holding the body of the leaves firm, open first a page or two at the front, then a few at the back and so on till the volume lies easily open to the center. A book put into commission in this scientific fashion has a fair chance of long life.

The milk in the bottles may be placed in a boiler in which cold water comes up to the necks of the bottles. The boiler is then placed on the stove and heated until the water reaches a temperature of 145 degrees Fahrenheit as determined by the thermometer, where it is maintained for 30 minutes. The bottles are then removed, cooled in running water, and kept sealed until the milk is ready to serve. Pasteurization kills disease-causing germs.
Costly Followers.
 Costly followers are not to be liked, lest while a man makes his train longer, he makes his wings shorter.—Francis Bacon.
Some Consolation.
 For the encouragement of men who are prone to call themselves hard names when they have done something unusually foolish, the wise man has said "Those who never make mistakes never make anything else."
Jud Tunkins.
 "The city man," said Jud Tunkins, "who thinks he knows all about how to run a farm is generally a chap who doesn't take the trouble to keep the grass cut in his own front yard."
Be Master of Difficulties.
 Grapple the first difficulty that comes up. Wrestle till you down it, if it takes till break of day. Get on top of it with both feet.—Archer Brown.

Bark Root Tonic
 Assists Veteran Machinist
 Wm. Fugay, Phillips, Or., writes:
 Having conducted a general machine shop at Phillips, Or., for the past 29 years, and owing to the fact that I was catering to the farmers in this district, I was compelled to attend to their wants at any time of the day, which resulted at times I missed my regular meals. This I endured for years with no bad results to my health, but had noticed in later years that I was failing in health, probably due to irregular meals and habits.
 After taking Bark Root Tonic I noticed a great improvement in my health. I have taken Bark Root Tonic now for one year as directed on bottle and consider it a pleasure to say that I would not be without it. I cannot recommend its use too highly. This testimonial is given of my own accord and same may be published with my full consent.

The "Game" of Life.
 Life is like a game of whist. I don't enjoy the game much, but I like to play my cards well and see what will be the end of it.—George Eliot.
 Shellac is the joint product of insects and plants and comes from India. The lac insects are about 1.25 of an inch long, a bright red in color. They suck the juices of plants, digest them and exude them in the form of resin, which soon encases the whole insect. When the young insects have swarmed out, the resin is scraped from the branches, ground, washed, mixed with colophony and orpiment, cooked slowly and drawn out into the thin sheets we know as shellac.
The Victim's Pelt.
 For our part, whenever we see a woman with \$1,000 worth of fur on we wonder who her husband skinned.
