The Alaskan bears have been hunted with perfect safety from boats among the coastal islands, and they are also comparatively easy to kill along the streams where they come in the fall to catch salmon. In this hunting the hunter lies in wait, and pots brim from a safe distance. But at that time of the year the fur is not prime. The true sportsman goes up into the mountain in the early spring, still-hunts his bear and kills him often at close quarters—unless he gets killed himself.

**Reflection.**  
All the world used her ill, said this young person, and we may be pretty certain that persons whom all the world treats ill deserve the treatment they get. The world is a looking glass and gives back to every man the reflection of his own face. Frown at it, and it will in turn look sourly upon you; laugh at it and so it will, and it is a jolly, kind companion; and so let all young persons take their choice.—Thackeray.

**Taught Chinese Lacemaking.**  
The art of lacemaking was first taught to the Chinese of the Chefoo district by foreign missionaries about twenty-five years ago. They believed that by teaching lacemaking the women and girls would find profitable employment within their homes, and the subsequent spread of the industry has fully justified their efforts. Although first taught in Chefoo, Chi 4 a Hsien was the first district in which lace was extensively made.

## FARM POULTRY

DEMAND FOR GUINEA FOWLS

Value as Substitute for Game Birds Becoming Better Recognized by Many People.

The value of a guinea fowl as a substitute for game birds such as grouse, partridge, quail, and pheasant, is becoming more and more recognized by people fond of this class of meat, and the demand for these fowls is

Prime Young Guinea Are a Special Delicacy.

Increasing steadily. United States department of agriculture specialists report. Many hotels and restaurants in the large cities are eager to secure prime young guineas, and often they are served at banquets and club dinners as a special delicacy. When well cooked, guineas are attractive in appearance, although darker than common fowls, and the flesh of young birds is tender and of especially fine flavor, resembling that of wild game. Like all other fowl, old guineas are likely to be tough and rather dry.

A few large poultry raisers, particularly those within easy reach of the large eastern markets, make a practice of raising a hundred or so guineas each year, but the great majority of guineas are raised in small flocks of from 10 to 25 upon farms in the Middle West and in the South. Many farmers keep a pair or a trio of guineas more as a novelty than for profit, and from these a small flock is raised. The guinea fowl doubtless would be more popular on farms were it not for its harsh and at times seemingly never-ending cry. However, some people consider this cry an argument in the guinea's favor, as it gives warning of marauders in the poultry yard.

**CARE OF GROWING CHICKENS**  
One of Most Important Factors in Raising Poultry During Summer—Keep Them Growing.

The care of growing chicks during the summer is one of the most important factors in poultry raising. The chicks may be hatched from strong, vigorous stock and carefully brooded; but unless they receive the proper attention during the warm months, their growth may be retarded. In other words, they should be so managed that they will mature into well developed fowls.

**KEEP BIRDS FREE FROM LICE**  
Dust Thoroughly With Good Insect Powder or Apply Mixture of Vaseline and Mercury.

Examine the pullets and hens for lice, and dust thoroughly with a good insect powder or apply a mixture of two parts of vaseline and one part of mercurial or blue ointment, about the size of a pea, one inch below the vent of the bird, rubbing the mixture lightly on the skin. An application of this ointment two or three times a year will keep the fowls free from lice.

## DOULTRY NOTES

Destroy lice and mites.  
Confine or sell all cockbirds.

Keep the nests clean and well littered.

Gather eggs frequently and keep them in a cool place.

Bread and milk make an excellent feed for young goslings.

Feed a well-balanced ration with plenty of variety and if possible give free range.

Eggs to be preserved should be strictly fresh, clean, unwashed, firm and free from cracks.

From 50 to 80 per cent of the chicks hatched die before they reach maturity. This loss can be greatly reduced by proper feeding and care.

The number of duck farms in this country is increasing, because of a widening of the market for young ducks, and this sort of poultry raising is growing more popular.

## Lift off Corns!

Doesn't hurt a bit and Freezeone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting; then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

In his Dictionary of Phrase and Fable, the learned Rev. Dr. E. Cobham Brewer, writes upon Picts and Scots: "Pict is not the Latin picti (painted people). As Picts and Scots are always mentioned together, there is no reason why one name should be Latin and the other Gaelic. Scot is the Gaelic 'sgod' (a dweller in woods and forests), and Pict is the Gaelic pict-ist (freebooter), the two being equivalent to foresters and freebooters."

**Cuticura for Pimply Faces.**  
To remove pimples and blackheads smear them with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. Once clear keep your skin clear by using them for daily toilet purposes. Don't fail to include Cuticura Taleum.—Adv.

**World's Lead Pencil Consumption.**  
The world's product of lead-pencils probably amounts to nearly 2,000,000,000 a year, half of which are made from American-grown cedar. The United States makes about 750,000,000 a year.

## ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Drugists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture Monocetate of Salicylic acid.—Adv.

**First Magazine Run by Women.**  
The first magazine in America conducted solely by women was the Lowell Offering, a monthly periodical published from 1842 to 1849 by girls employed in the mills of Lowell, Mass. Lucy Larcom was one of its frequent contributors.

**Wind Shield for Tonneau.**  
For the comfort of the occupants of back seats of automobiles wind shields have been patented, formed of wings of glass that can be adjusted in any desired position.

**Reinforced Concrete Old.**  
Inspection of the old walls of the palace of the Louvre disclosed that reinforced concrete was known and used in Paris in the sixteenth century.

The origin of the phrase, "palmy days," arises from a custom of the ancient Romans. A victorious gladiator received a palm branch as a symbolic reward for his brave deeds.—Brooklyn Eagle.

## Cuticura Soap

The Healthy Shaving Soap

Cuticura Soap shaves without soap. Everywhere.
