

Accident?

Was it an accident years ago when Henry Ford created a car which by leaps and bounds raced past all competitors and has since stood supreme in Efficiency and service?

Was it an accident that this car pioneered in numerous unknown features? Was it an accident that into the HIDDEN parts of Henry Ford's car went only the BEST the WORLD OFFERED in metals, properly heat treated and machined to an accuracy before unknown?

Was all this an accident?

Emphatically No.

Was it an accident that to back that car there has been created the world's greatest automobile service aggregation?

Again, Was It An Accident that other manufacturers soon copied Henry Ford's 4-cylinder cast enblock type of motor, his oiling system, his light type of construction, his left hand drive and recently his spring construction? **No, not an accident; it was necessary for their advancement.**

At first they laughed; then they copied. And each manufacturer's mimicing move sounded loud and far in praise of the Efficient Ford. They copied in outward appearance but were not willing to make the sacrifices necessary to put quality in the vital parts of their car or try to back their products with similar systems of Universal service.

When Henry Ford created the **FORDSON TRACTOR** was it an accident that it at once proved the most powerful for its size, the most efficient in action? Is it an accident that it, too, is being copied? Copied in form, copied in colors? Is it an accident that it is not being copied in its quality of metals AND CLASS OF CONSTRUCTION?

Backed by Instant repair service

The Fordson Stands Supreme.

With dust proof cases and water air wash. it is completely protected from the cut and grind of dirt and sand

A. L. Fitzgerald visited in P. O. land this week.

James L. and Mark Hanna have been here this week.

P. O. Dodson has purchased a Case threshing outfit of the Auto Utilities Co.

Dr. M. J. Butler has been appointed a member of the Monmouth city council to fill a vacancy.

"Checkers" at the Isis Sunday night is a big picture and makes your sporting blood boil.

As is their annual custom Mr. and Mrs. J. D. Hibbs will go to Newport about Aug. 1 where they will occupy their cottage and enjoy ocean breezes.

Mr. and Mrs. J. McLeod left Wednesday for a visit of two weeks in Portland, Klamath Falls, Tacona, Victoria, B. C., and Bremerton. Their son is at Bremerton.

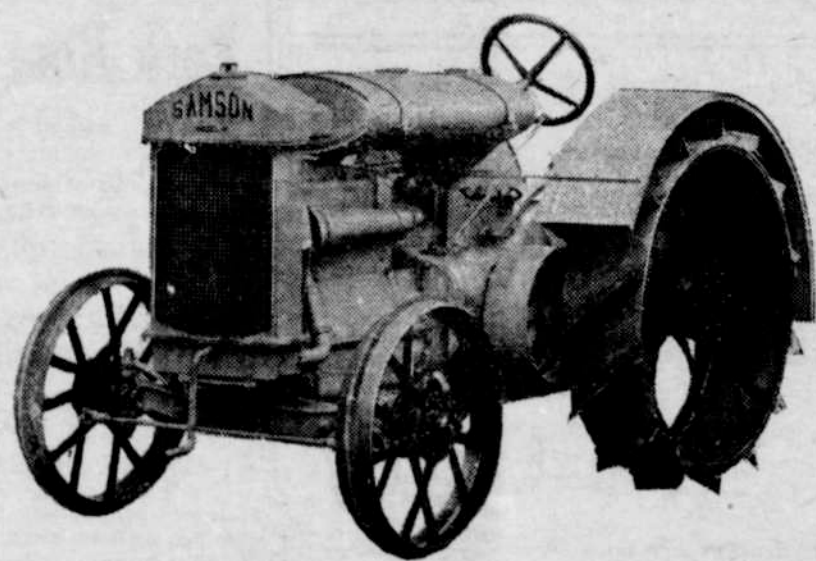

Rev. J. A. Melton of Portland will deliver a sermon at the Christian church Sunday morning at 11 o'clock. Rev. Melton is a splendid talker and everybody should hear him.

Graham & Son, Monmouth, agents for the Samson tractor for South Polk county, report an increasing demand for the Samson and that there will be a large number sold this fall.

The engines and passenger coaches of the I. & M. railroad are slowly but surely being junked. Purchasers from Salem are cutting the metal parts into small pieces for transportation to Salem.

The J. S. Coopers and their guests, Mrs. Parker and Mrs. Williams, visited Mr. and Mrs. C. E. Ireland in Yamhill county over the week end.

Last Sunday was a happy day at the O. A. Kreamer home, the occasion being the celebration of the birthday of Miss Madaline Kreamer who is just home from O. A. C. A beautiful birthday cake with pink tapers centered the perfectly appointed table on which pink roses were used and pink shaded lights completed the artistic effect. Besides the family, A. Ray Smith of Missoula, Mont., recently instructor in military tactics at O. A. C., and Billy Pengra of Portland enjoyed the event. In the afternoon the party visited Salem and some of the ranches which were a complete novelty to the Monmouth instructor.

For all jobs, such as silo filling, requiring up to 20 horsepower the Samson Model "M" is the ideal tractor. It is economical, powerful and efficient.

SAMSON

Model "M" Tractor

The Samson Model "M" Tractor is built to do the work of a barnful of horses without costing you a fortune or a big part of your crop to buy and maintain.

It is built to keep on doing this work—for as long hours as you like—to do it every day in the year with mechanical, dependable perfection.

It has close-coupled power unit with every working part enclosed and protected. There is no lost motion.

It is built and lubricated throughout as efficiently and conveniently as a fine automobile. And it is as easy and as dependable to operate.

We can prove Samson quality and economy by any working tests you suggest.
